*** Per the 2008-2013 Perkins Local Plan Guidelines, page 13:**

Distribution of Funds to Postsecondary and Adult Programs

The 2006 Act uses the same postsecondary within state distribution formula as the 1998 Act basing the allocation solely on the number of students receiving federal Pell grants. An eligible institution must qualify for a grant of at least $50,000 to receive an allocation, or join a consortium that qualifies for the minimum amount. As in the secondary program, any consortia formed must operate programs of sufficient size, scope and quality to improve CTE programs for all members of the consortium.
