CONTIGUOUS STATE EVENTS OF POTENTIAL INTEREST TO PENNSYLVANIA:

Delaware: No significant events at this time.
Maryland: No significant events at this time.
New Jersey: No significant events at this time.
New York: No significant events at this time.
Ohio: No significant events at this time.
West Virginia: No significant events at this time.

WEATHER:

24-hour Projected Weather Statewide:

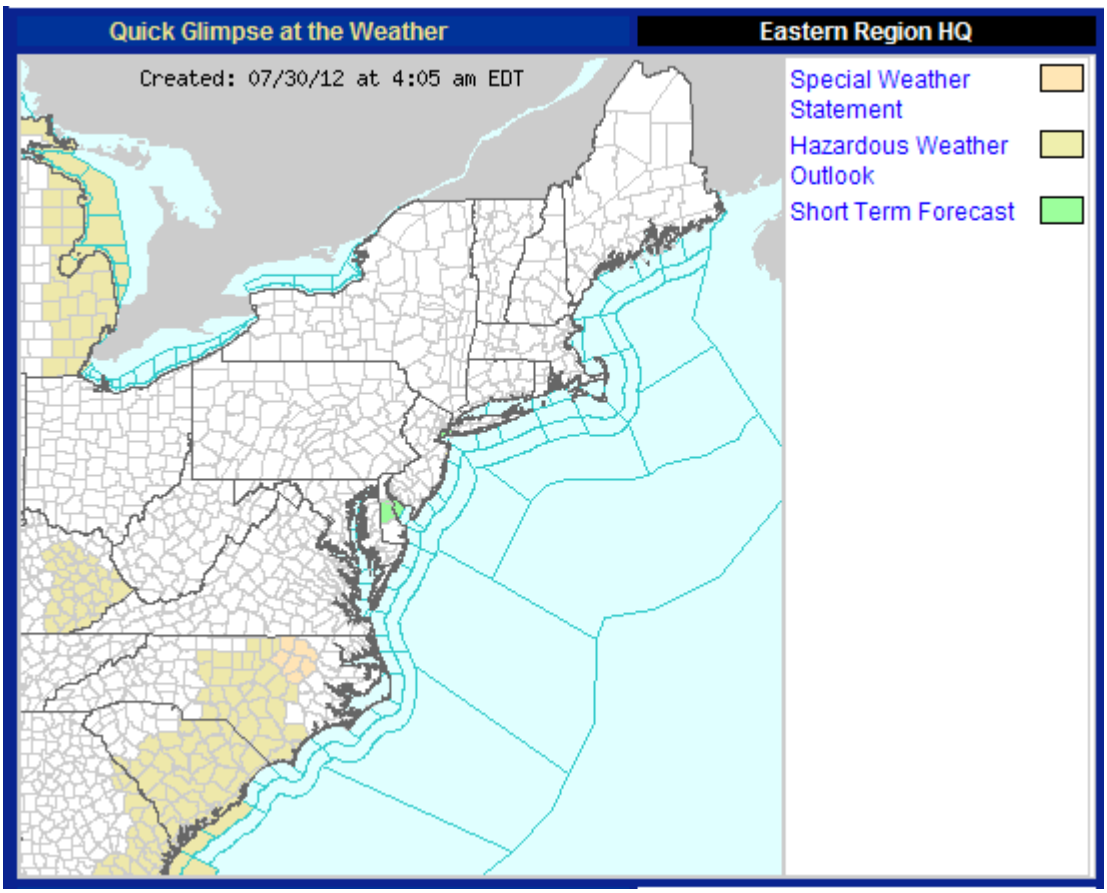
National Weather Service, 5:51 a.m., 7/30/12

Very isolated showers are possible in eastern Pennsylvania overnight. Otherwise fair weather will prevail overnight and much of Monday. Low pressure passing south of the state will bring a chance of scattered showers and thunderstorms Monday afternoon and evening.

The low temperature overnight will range from the lower 50s in the northern mountains to around 70 degrees in Philadelphia. The high temperature Monday will be in the 80s statewide.

WATCHES AND WARNINGS:

There are no active watches, warnings or advisories.



NOAA / SPACE WEATHER PREDICTION CENTER:

3-day Solar-Geo-Physical Forecast, 10:00 p.m., 7/29/12:

Solar Activity Forecast: Solar activity is expected to be low with the chance for isolated moderate conditions over the next 3 days (30 July - 01 August).

Geophysical Activity Forecast: The geomagnetic field is expected to be unsettled to active on day 1 (30 July) as weak CH effects persist. Quiet to unsettled conditions are expected on day 2 (31 July) as conditions wane. Mostly quiet conditions are expected on day 3 (1 August).
