Maryland: No significant events at this time.
New Jersey: No significant events at this time.
New York: No significant events at this time.
Ohio: No significant events at this time.
West Virginia: No significant events at this time.

WEATHER:

24-hour Projected Weather Statewide:

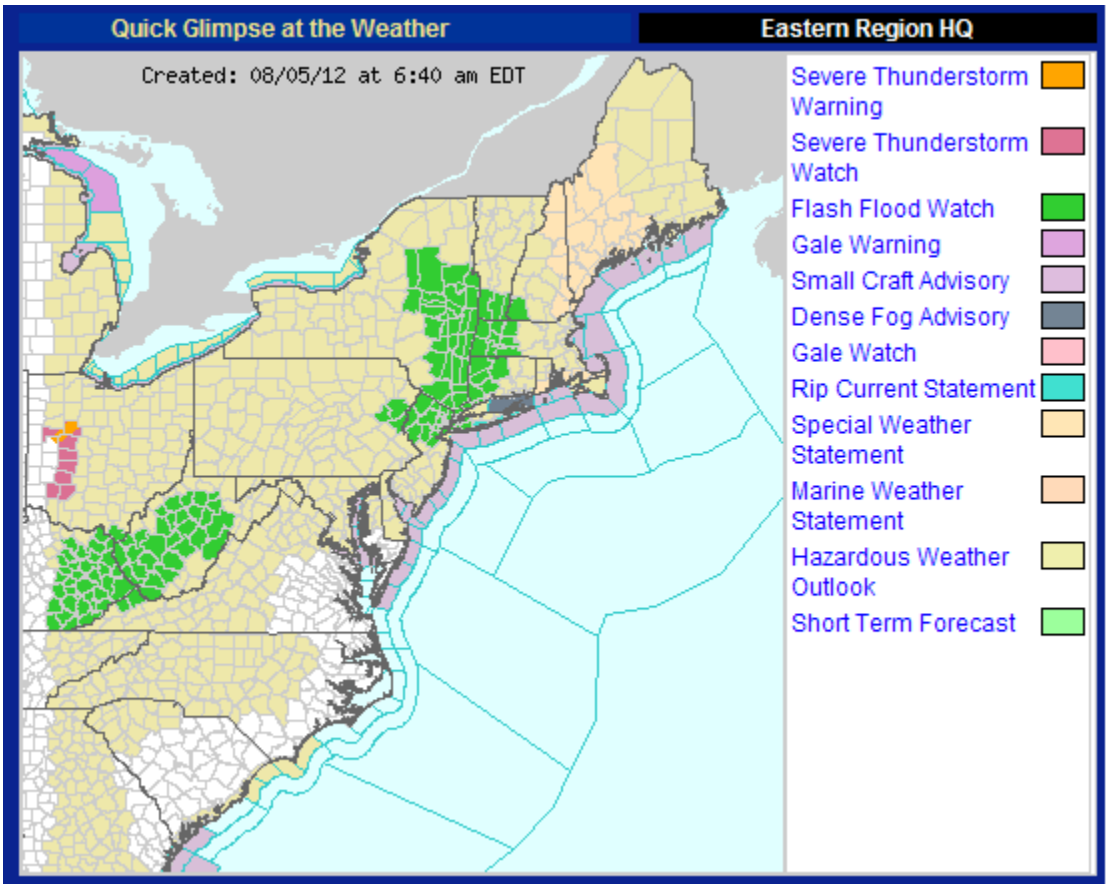
National Weather Service, 5:13 a.m., 8/5/12

A weakening area of showers will move across the northern half of the region this morning, otherwise look for a warm and muggy start to the day across the state. Showers and thunderstorms will be likely later in the day as a cold front moves across the state. Some of these storms will bring heavy rainfall and gusty winds. Fair weather and less humid air will follow for Monday. High temperatures today will range from 80 degrees on the northwest plateau to around 90 in the southeastern piedmont.

PEMA continues to monitor the threat of potentially severe weather to cross the Commonwealth on Sunday, 8/5/12. State agencies have been briefed and are ready to provide assistance to the affected counties as needed.

WATCHES AND WARNINGS:

A flash flood watch has been posted for Carbon, Monroe and Northampton counties through Monday morning, 8/6/12.



NOAA / SPACE WEATHER PREDICTION CENTER:

3-day Solar-Geo-Physical Forecast, 10:00 p.m., 8/4/12:

Solar Activity Forecast: Solar activity is expected to be low with a slight chance for an isolated M-class over the next 3 days (5-7 August).

Geophysical Activity Forecast: The geomagnetic field is forecast to be primarily quiet over the next 3 days (5-7 August).
