Maryland: No significant events at this time.
New Jersey: No significant events at this time.
New York: No significant events at this time.
Ohio: No significant events at this time.
West Virginia: No significant events at this time.

WEATHER:

24-hour Projected Weather Statewide:

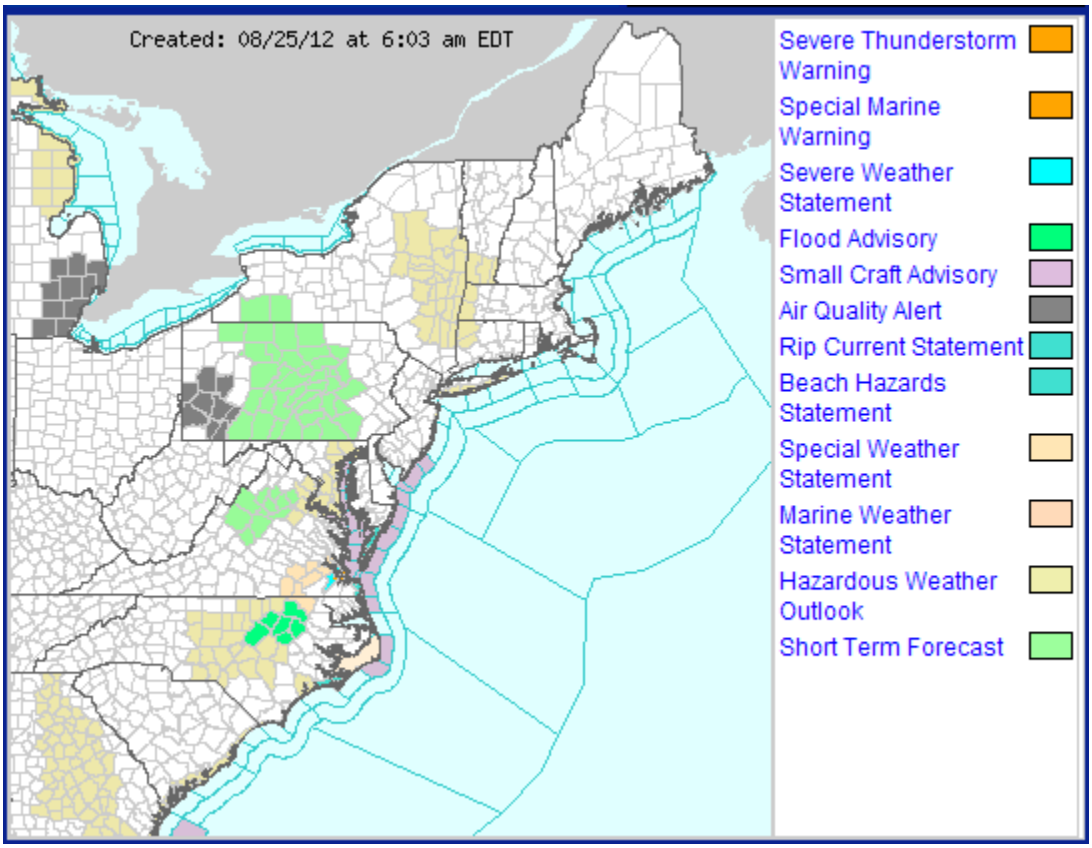
National Weather Service, 5:51 a.m., 8/25/12

A slow moving low-pressure system will work up the East Coast today bringing the chance of late day showers to the southeast part of Pennsylvania. Skies will range from mostly sunny across the northwest corner of the state to cloudy over the southeast and high temperatures will range from 80 to 85 over most of the region.

The low-pressure system will stall out over northern Virginia tonight and Sunday bringing occasional light rain to southern Pennsylvania and scattered showers further north. Lows tonight will range from the mid 50s over the northwest mountains to the upper 60s in the southeast. Highs Sunday will range from the low 70s over the south central mountains to the low 80s across eastern Pennsylvania.

WATCHES AND WARNINGS:

There are no active watches or warnings.



NOAA / SPACE WEATHER PREDICTION CENTER:

3-day Solar-Geo-Physical Forecast, 10:00 p.m., 8/24/12:

Solar Activity Forecast: Solar activity is expected to be very low with a chance for C-class activity.

Geophysical Activity Forecast: Geomagnetic activity is expected to be at quiet to unsettled levels with isolated active periods. A chance exists for minor to major storm levels at high latitudes. Increased activity is due to a recurrent coronal hole high speed stream.
