ALL DATA ARE ON 2012 BENCHMARK. SOURCE: Center for Workforce Information & Analysis, Pennsylvania Department of Labor & Industry

FOOTNOTES
1/ Estimate of workers by place of residence. These data are controlled to state Current Population Survey (CPS) data which adjusts for commuting and dual job-holding. Workers are counted where they live only once regardless of the number of jobs they may hold. All in-depth inquiries relative to the estimating methodology should be addressed to the Bureau of Labor Statistics, U.S. Department of Labor. All data are subject to revision during annual benchmarking.
2/ Includes wage and salary workers (including agriculture), self-employed persons, and unpaid family workers (including agriculture), domestic workers, and persons involved in labor-management disputes.
3/ Unemployed as percent of civilian labor force, computed using unrounded data.
4/ Seasonally adjusted MSA level data (and their equivalent) is developed by the federal Bureau of Labor Statistics (BLS); seasonal adjustment for all other areas is developed by the Center for Workforce Information & Analysis (CWIA).
