

IMPORTANT INFORMATION ABOUT HEALTH INSURANCE OPTIONS IF YOU USED TO RECEIVE adultBasic

Sample Letter April 2011

Dear Former adultBasic Recipient:

We are writing because we have reviewed your adultBasic records, and it appears that you may be eligible for free or low-cost health insurance through the Medical Assistance (MA) program. MA may be an alternative to paying for health insurance like SpecialCare. This letter explains how to show that you may be eligible for MA.

MA is health insurance from the Pennsylvania Department of Public Welfare (DPW). MA is available based on people's circumstances, their incomes, and, in some cases, the types of resources like bank accounts or retirement accounts they have. MA programs are available for women who are pregnant or have certain medical conditions, such as breast or cervical cancer. A list of some common types of MA is at the end of this letter.

What happens next:

- We will share your information with DPW so that DPW can determine whether you are eligible for MA. DPW will keep your information confidential. Your information will not be shared with anyone else without your permission.
- DPW will start an MA application for you.
- You will get a letter from your local County Assistance Office (CAO). The letter will list the papers that you must turn in to complete your MA application.
- If you want to receive MA, <u>do not ignore the letter</u>. Turn in the papers by the deadline on the letter. If you need more time, you should call the number on the letter.

If you have long-term health problems that affect your ability to work, the CAO may send you a two-page form for your doctor to fill out. If you have health problems but you do not get a form for your doctor, call the CAO to ask for one. This form is called the Employability Assessment Form, or PA-1663. Your doctor must fill out the form correctly and completely. For most people with income who want to receive MA, the doctor must indicate that the health problems will last for twelve months or longer.

If you cannot afford to take the form to your doctor, contact your local CAO. Your caseworker may give you short-term MA that will cover a doctor's visit and related tests, so you can get the form filled out.

How to get help:

To get help contacting your local CAO or to check on the status of your MA application, call DPW's Customer Service Center. Call **215-560-7226** for Philadelphia or **1-877-395-8930** for the rest of the state.

If you have problems turning in papers to complete your MA application, your MA application is denied, or you have other problems receiving MA, free help is available. You may call the Pennsylvania Health Law Project's statewide toll-free helpline at **1-800-274-3258**, or you may find free legal help in your area by contacting the Pennsylvania Legal Aid Network. Visit http://www.palegalaid.net/resources/clients/legalhelpfinder or call **1-800-322-7572** to find your local legal aid office.

Sincerely,

Peter J. Adams

Deputy Commissioner for CHIP and adultBasic

Pennsylvania Insurance Department

COMMON TYPES OF MEDICAL ASSISTANCE

Pennsylvania offers many types of Medical Assistance (MA). People qualify for MA based on their circumstances, their incomes, and, in some cases, their countable resources like bank accounts or retirement accounts. This paper lists some common types of MA. If you believe that you may qualify for one of these MA programs, you may apply online at www.compass.state.pa.us or you may apply at your local County Assistance Office.

MA for People with Long-Term Health Problems

Pennsylvania offers different types of MA for people with health problems that affect their ability to work. The income limit is very low for people with health problems that will last less than twelve months. The limit is higher for people with health problems that will last twelve months or longer. People who have long-term health problems but are working and receiving compensation also have a higher income limit. The resource limit varies depending on the program. To qualify, you must be receiving disability benefits from the Social Security Administration (SSA), or you must have applied for disability benefits from SSA and be waiting for a decision, or your doctor must fill out a form that confirms that you have health problems.

MA for Pregnant Women

Pregnant women may qualify for MA during their pregnancy and for two months after the pregnancy ends. The income limit is higher than the income limit for adultBasic. There is no resource limit.

MA for Women with Breast or Cervical Cancer

Women who need treatment because of breast or cervical cancer may be eligible for MA. The woman must be screened and diagnosed with breast or cervical cancer or pre-cancerous conditions of the breast or cervix. She may be screened and diagnosed through the Department of Health's Healthy Woman Program (HWP) or a non-HWP health care provider who then refers her to HWP. She cannot have other health care coverage. HWP has an income limit that is higher than the income limit for adultBasic. There are no MA income or resource limits. To apply, contact HWP by calling **1-800-215-7494** or by visiting www.pahealthywoman.com.

Medically Needy Only MA

Medically Needy Only (MNO) MA is available for three groups of people: people ages 59 through 64, people ages 21 through 64 who work 100 hours or more per month; and people with recent medical expenses. MNO MA does not cover prescription drugs. The income limit is low, but your medical expenses may be deducted from your income to meet the income limit. Medical expenses paid by the adultBasic program may be used as deductions. The resource limit is \$2,400 for single people and \$3,200 for households of two.

SelectPlan for Women Program

SelectPlan for Women is a program for women ages 18 through 44 who are not pregnant or who have not had a procedure or treatment to prevent pregnancy. SelectPlan covers women's health services, including breast exams, Pap smears, other gynecological care, and related lab testing. It also covers family planning prescriptions. There are no co-pays or limits. The income limit is high and there is no resource limit. Most women who received adultBasic will qualify.
