[1] Per 1,000 population

[2] Per 1,000 live births

*Prior to 1960, 2500 grams or less. Since 1960, less than 2500 grams.

† The methodology for calculating prenatal care has changed, beginning with 2003 data. Please see a description of this change at: http://www.portal.state.pa.us/portal/server.pt?open=514&objID=829765&mode=2.

[3] Induced abortions to residents performed out of state not included

[4] Per 1,000 female residents ages 15-44

NOTE: Unknowns excluded from calculations in 2002-2010, and in all years for prenatal care.
