Injuries in Pennsylvania – an Addendum	5
2006-2010 Prioritized Five Year Goals	9
Summary of Changes	26
Glossary	29
Other Statewide Plans	30
Acknowledgments	32

BACKGROUND

Injury Prevention in Pennsylvania

In August 2005, the **Pennsylvania Department of Health (Department)** received a five year grant from the **Centers for Disease Control and Prevention (CDC)** to bolster its efforts to prevent and control injuries and injury-related deaths in Pennsylvania. The Department's intent was, and continues to be, to use the CDC grant to assess the social and economic burden of injuries in Pennsylvania; to prepare an annual injury data report; to develop a comprehensive injury prevention and control plan for the Commonwealth; and to hold annual injury symposia.

Fortunately for Pennsylvanians, numerous organizations, agencies and individuals share the Department's commitment to reduce the incidence of injuries and injury-related deaths in the commonwealth. In order to do so most effectively, however – and in order to accomplish the objectives outlined in the CDC grant – the Department and other stakeholders have long believed that developing a comprehensive, coordinated approach to injury and violence prevention would be the most beneficial to Pennsylvania citizens.

Injury Community Planning Group

With that in mind, the Department used funding from the CDC grant to create the **Injury Community Planning Group (ICPG)**, a group of stakeholders committed to reducing the incidence of unintentional injuries and violence in Pennsylvania by raising awareness of injury risks and encouraging behavioral, environmental and policy changes that prevent injury. The mission of the ICPG is:

> *"To develop a comprehensive and coordinated injury prevention effort, which will guide Pennsylvanians to prevent injuries and violence across the lifespan by empowering state and local partners through the collection and analysis of data and the leveraging of resources for injury prevention programs to recapture lost human potential."*

The ICPG convened for the first time on December 1, 2005 and was charged with accomplishing three key tasks:

- Create a statewide Injury Prevention and Control Plan
- Create a state-specific Injury Data Report
- Create Symposia Action Plans

A steering committee was formed to address key policy decisions and provide guidance on overall strategic direction of the ICPG. Specific functions of the Committee include, but are not limited to, reviewing project progress and project deliverables and providing input/guidance on policy and projects. The steering committee consists of five workgroups: Data, Infrastructure,

Interventions, Public Policy and Training and Technical Assistance. Each workgroup has a chairperson(s), a focus area and goals to work on within their focus area.

Pennsylvania Injury Prevention and Control Plan, 2006-2010

The ICPG immediately began working to develop the statewide Injury Prevention and Control Plan. Committed partners throughout the Commonwealth volunteered their time, talents and strategic planning resources to the effort.

Using *An Assessment of the Pennsylvania Department of Health Injury Prevention Program*, a report developed by the State and Territorial Injury Prevention Directors' Association, each of the ICPG workgroups met several times to determine goals, objectives, action steps and measures of success for its focus area. For each objective, a lead person(s), resource(s) needed and funding implications were determined.

The detailed efforts of the ICPG workgroups were then combined to create the ***Pennsylvania Injury Prevention and Control Plan, 2006-2010*** – the first coordinated, comprehensive, stakeholder-driven injury prevention and control plan ever created in the commonwealth. The plan outlined 14 goals (categorized by focus area) to be accomplished during the five year period; detailed tables were then used to describe the objectives, strategies, lead person(s) and resource(s) needed to accomplish those goals.

2008 Addendum

Since releasing the *Pennsylvania Injury Prevention and Control Plan*, the Department and the ICPG have devoted their time and attention to accomplishing the goals and objectives set forth in the plan. The purpose of this ***2008 Addendum*** is to provide a summary of the progress that has been made to date, what goals/objectives have already been accomplished, what new goals/objectives have been added and what existing goals/objectives have been modified to allow the Department and its partners to reduce the incidence of injuries and violence in Pennsylvania most effectively.

As was the case in the *Pennsylvania Injury Prevention and Control Plan*, the *2008 Addendum* includes a list of the 14 goals and tables describing the objectives, strategies, lead person(s) and resources(s) needed to accomplish those goals. A column has been added to each table that provides an update on the status of each strategy. A summary of all changes made to the *Pennsylvania Injury Prevention and Control Plan* is also provided, as is an updated glossary and list of acknowledgments.

INJURIES IN PENNSYLVANIA – AN ADDENDUM

As noted in the *Pennsylvania Injury Prevention and Control Plan, 2006-2010,* injury poses a serious public health problem in Pennsylvania and the United States because of its impact on health, including premature death, disability and the burden on the health care system. In 2004, for example, unintentional injury was the leading cause of death among children and adults ages one through 44, both in the commonwealth and the nation. Overall, unintentional injuries ranked as the fifth-leading cause of death for Pennsylvanians in 2004, contributing to 5,091 unintentional injury deaths.

As noted in the following table of the top ten leading causes of injury death for Pennsylvanians in 2006, 4,933 of the 6,783 deaths from leading causes (72.7 percent) were unintentional.

TOP TEN LEADING CAUSES OF INJURY DEATH

NUMBER OF DEATHS, PENNSYLVANIA RESIDENTS, ALL AGES, 2006

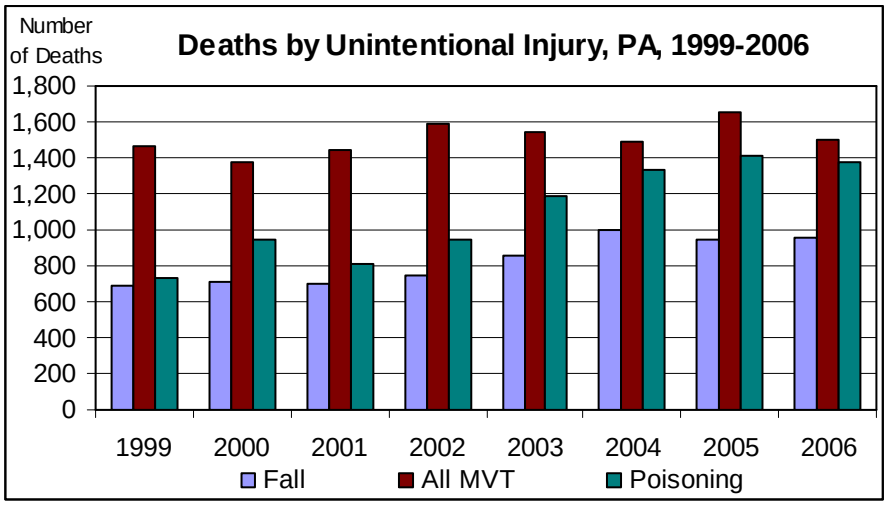
CAUSE	NUMBER
Unintentional Motor Vehicle Traffic	1,505
Unintentional Poisoning	1,383
Unintentional Fall	953
Suicide Firearm	729
Unintentional Unspecified	637
Homicide Firearm	589
Suicide Suffocation	309
Unintentional Suffocation	280
Suicide Poisoning	223
Unintentional Fire and Flames	175

NOTE: Data based on ICD 10 cause of death codes
SOURCE: 2006 Pennsylvania Death Certificates

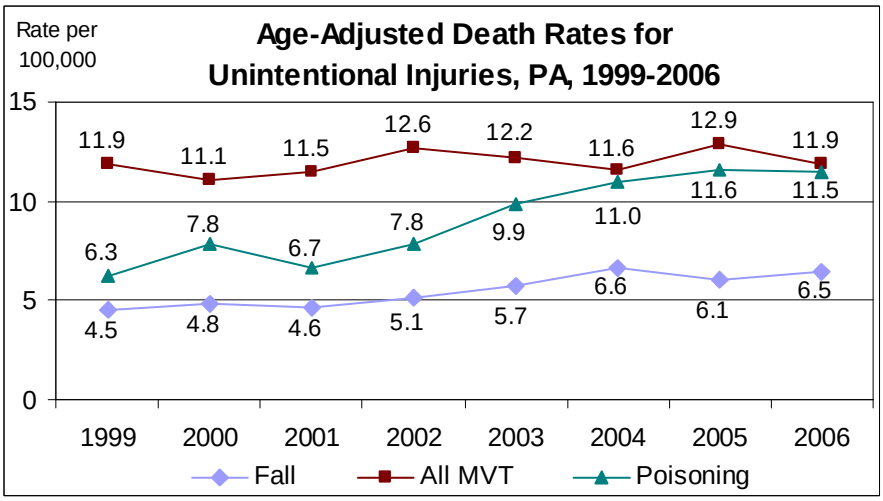
Injuries and injury-related deaths from unintentional motor vehicle accidents, unintentional poisonings and unintentional falls have had a particularly significant impact on the health and well-being of Pennsylvanians. Over 50 percent of all deaths caused by injury were the result of unintentional motor vehicle traffic accidents, unintentional poisonings or unintentional falls.

Among fatal unintentional injuries, the most significant increase appears in deaths due to accidental poisoning. In 2006 unintentional poisoning was the leading cause of death for ages 25 to 54. Unintentional poisoning deaths increased from 734 in 1999 to 1,383 in 2006, an increase of 88.4 percent. Deaths due to falls also display an increase, from 687 in 1999 to 953 in 2006, a 38.7 percent increase. Motor vehicle traffic (MVT) fatalities show no clear trend, but have a higher rate of incidence than deaths due to unintentional poisoning or unintentional falls.

Of all unintentional injury deaths due to motor vehicle traffic, 36 percent are occupant injuries, approximately 16 percent are to motorcyclists and 19 percent are to pedestrians. Less than 2 percent of all unintentional motor vehicle traffic fatalities are to pedal cyclists.

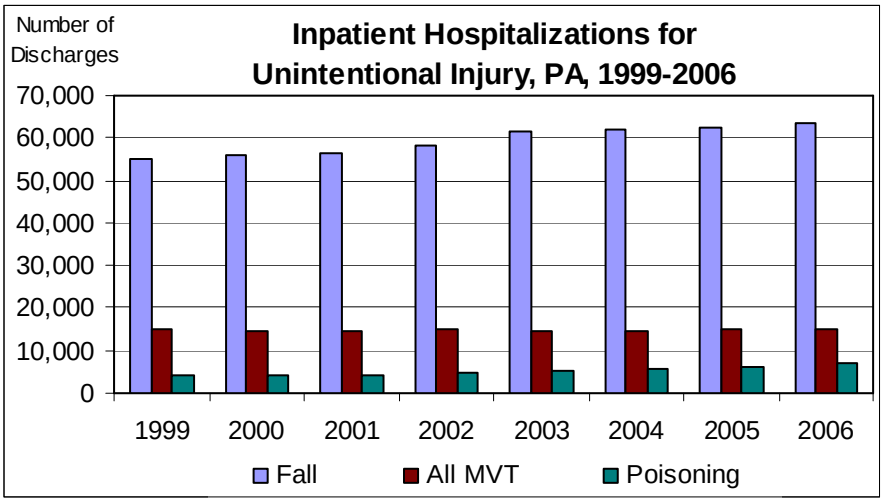


The age-adjusted rate of unintentional poisoning deaths shows a dramatic 83.6 percent increase since 1999, from 6.26 deaths per 100,000 Pennsylvanians to 11.50 deaths in 2006. Unintentional deaths due to falls also show an increase, from 4.54 deaths in 1999 to 6.48 in 2006, a 42.8 percent increase. Age-adjusted death rates for motor vehicle traffic show no clear trend but are higher than rates for unintentional poisoning and falls during the period 1999 through 2006.

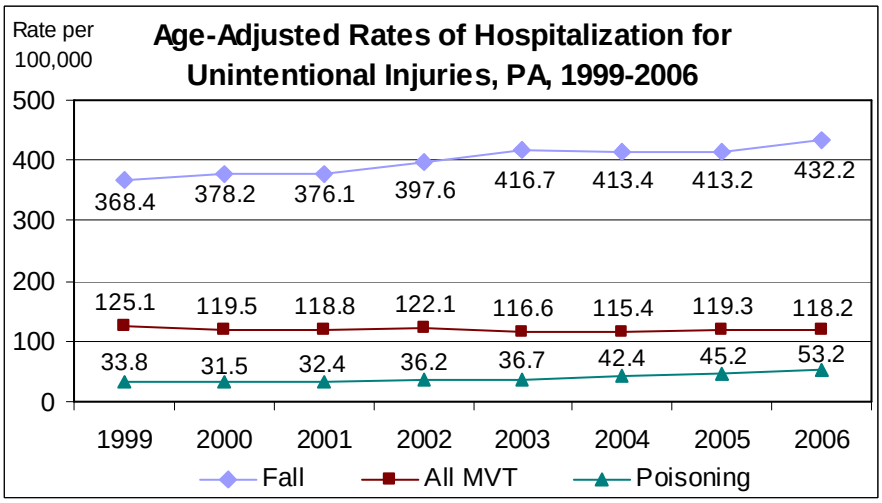


As the following charts indicate, there has also been a significant increase in the number of unintentional injury hospitalizations from 1999 to 2006. For unintentional poisonings, inpatient hospitalizations increased from 4,461 discharges in 1999 to 7,214 discharges in 2006, an increase of 61.7 percent. Hospitalizations for unintentional falls display a smaller increase, from 54,739 discharges in 1999 to 63,307 discharges in 2006, a 15.7 percent increase. However, hospitalizations for unintentional falls remain much higher in frequency than for any other injury.

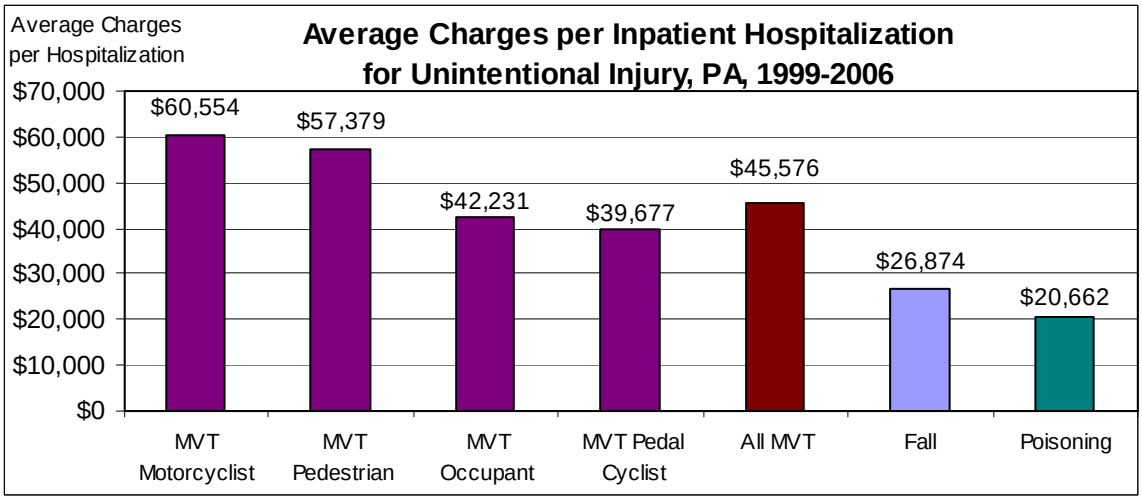
73 percent of all inpatient hospitalizations for unintentional motor vehicle traffic injuries are to occupants of motor vehicles, while approximately 20 percent are to pedestrians or motorcyclists. 73 percent of all inpatient hospitalizations for unintentional falls are to adults ages 65 and older.



Similar trends are noted in rates of hospitalization. Age-adjusted rates of hospitalization due to unintentional poisoning continue to climb, from 33.8 discharges per 100,000 Pennsylvanians in 1999 to 53.2 discharges per 100,000 in 2006, an increase of 57.1 percent. Meanwhile, the hospitalization rate for unintentional falls increased 17.3 percent, from 368.4 discharges per 100,000 in 1999 to 432.2 discharges per 100,000 in 2006. No meaningful trend is observed for age-adjusted rates of hospitalization due to motor vehicle traffic injuries.

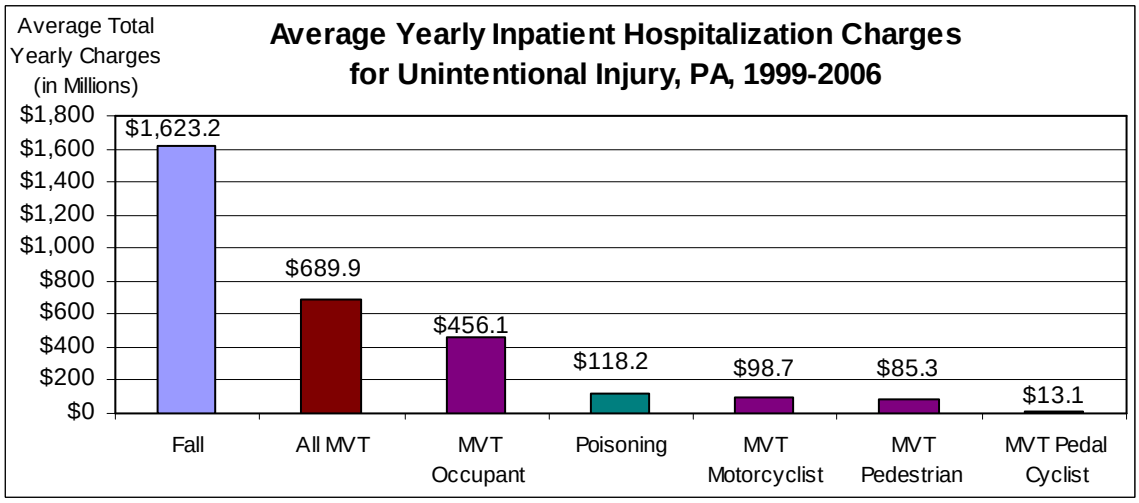


Not surprisingly, these three categories of unintentional injury pose a significant financial burden on the healthcare system as well. For example, the following table indicates the average healthcare-related charges for each injury per discharge from 1999 to 2006. For the injuries considered, average charges per hospitalization have more than doubled since 1999.



While unintentional fall hospitalizations may not be the highest in cost per discharge, the total charges per year for all unintentional fall hospitalizations are more than double that of all unintentional MVT injuries and unintentional poisonings combined. Since 2005, the total yearly charges of unintentional fall hospitalizations have exceeded two billion dollars. Over 70 percent of the total charges for unintentional falls hospitalizations are to Medicare, as Medicare is the payor for 94 percent of unintentional falls hospitalizations among adults ages 65 and older.

Total yearly hospitalization charges for unintentional poisonings and MVT motorcyclist injuries in 2006 are each over four times greater than the corresponding charges in 1999.



The goal of the Department and the ICPG is, and continues to be, the control and prevention of ***all*** injuries and injury-related deaths. However, given the significant prevalence of injuries and injury-related deaths caused by unintentional motor vehicle traffic accidents, unintentional poisonings and unintentional falls, efforts undertaken by these and other partners in conjunction the *Pennsylvania Injury Prevention and Control Plan, 2006-2010* will focus primarily on these three areas.

2006-2010 PRIORITIZED FIVE YEAR GOALS*

GOAL I: Cultivate awareness of injury as a public health problem. *(Public Policy Focus Area)*

GOAL II: Strengthen advocacy for injury control among public stakeholders. *(Public Policy Focus Area)*

GOAL III: Create and influence policy as related to injury prevention. *(Public Policy Focus Area)*

GOAL IV: Increase knowledge and skills among injury prevention stakeholders. *(Training and Technical Assistance Focus Area)*

GOAL V: Increase the number of injury prevention educators and trainers in each region using existing training venues. *(Training and Technical Assistance Focus Area)*

GOAL VI: Create a plan for a training center for injury and violence prevention. *(Training and Technical Assistance Focus Area)*

GOAL VII: Develop and distribute an inventory of existing injury/violence prevention programs in the state. *(Interventions Focus Area)*

GOAL VIII: Develop a plan for future interventions based on PA data and best practices. *(Interventions Focus Area)*

GOAL IX: Strengthen working relationships with stakeholders by identifying new opportunities to integrate injury prevention into current and new programs. *(Interventions Focus Area)*

GOAL X: Establish a sustainable infrastructure to provide leadership and to coordinate, monitor, and evaluate strategic plan implementation. *(Infrastructure Focus Area)*

GOAL XI: Increase public/private funding for violence and injury prevention. *(Infrastructure Focus Area)*

GOAL XII: Build the capacity of communities to reduce and prevent injuries to high-risk groups through maintenance of the ICPG. *(Infrastructure Focus Area)*

GOAL XIII: Improve dissemination and use of existing injury data. *(Data Focus Area)*

GOAL XIV: Identify data gaps that prevent comprehensive review of injury behavior in Pennsylvania. *(Data Focus Area)*

Created by the ICPG based upon the STIPDA State Technical Assistance Team (STAT) visit and other stakeholder recommendations.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL I: Cultivate awareness of injury as a public health problem. *(Public Policy Focus Area)*

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Use data to make the case that injury is a public health problem in PA.				
1A	Analyze existing data systems to identify the burden of injury in PA.	Public Policy Workgroup	Statistical Analyst	Completed; Additional data can be analyzed as requested by other workgroups or as needed to support policy briefs and other products.
1B	Determine the costs of injury from data.	Public Policy Workgroup	Statistical Analyst; Access to data	Completed; Additional costs can be determined as requested by other workgroups or as needed to support policy briefs and other products.
1C	Develop materials/policy briefings to share with stakeholders.	Public Policy Workgroup	Publication material; Statistical Analyst	Ongoing; Need specific information (e.g., interventions, data) from other workgroups.
1D	Identify allied partners.	Public Policy Workgroup	ICPG	Ongoing; in progress
1E	Develop legislative agenda and goals.	Public Policy Workgroup	Public Policy Workgroup; Allied Partners	Ongoing; in progress
Objective 2: Develop information packets relative to the cost of the five leading causes of injury across the Commonwealth and locally.				
2A	Compile information on the top five leading causes of injury.	Public Policy Workgroup; Data Workgroup	VIPP to collect information for packets	Compiled information on the top four leading causes of injury: Motor Vehicle, Falls, Accidental Poisoning, and Firearms.
Objective 3: Develop advocacy materials specific to injury prevention for the public media audience.				
3A	Develop and issue press releases.	Public Policy Workgroup	VIPP to write press releases	Ongoing; in progress
3B	Develop and submit news stories, letters to the editor.	Public Policy Workgroup	VIPP to write letters and stories	Ongoing; in progress

Funding Implications:

- Continued federal funding by the Preventive Health & Health Services Block Grant and the CDC Injury Prevention Planning Grant is vital to the continuation of these activities.

Measures of Success:

- Annual collection and analysis of data.
- Annual cost analysis of injury data.
- Annual collection from stakeholders regarding distribution and use of information and materials.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL II: Strengthen advocacy for injury control among public stakeholders.
(Public Policy Focus Area)

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Develop three partnerships/coalitions among three key stakeholders.				
1A	Use data to build partnerships and coalitions.	Public Policy Workgroup	Statistical Analyst to collect data	Ongoing; May develop partnerships/coalitions with more than three stakeholders.
1B	Meet with key stakeholders and share materials collected on injury prevention.	Public Policy Workgroup	VIPP to contact key stakeholders	Ongoing; in progress

Funding Implications:
- Continued federal funding by the Preventive Health & Health Services Block Grant and the CDC Injury Prevention Planning Grant is vital to the continuation of these activities.

Measures of Success:
- Achieve 25 percent ICPG member participation rate in partnership development.
- Schedule meetings with key stakeholders as identified and provide follow-up.
- Develop partnerships/coalitions and solicit feedback on information shared.
- Conduct annual collection from partnerships regarding distribution and use of information and materials.

GOAL III: Create and influence policy as related to injury prevention. ***(Public Policy Focus Area)***

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Identify key strategies for effecting policy change.				
1A	Identify legislative champions to sponsor hearings.	Public Policy Workgroup	Public Policy Workgroup; Legislative Affairs	Ongoing; in progress
1B	Identify and monitor current/pending legislation that relates to injury prevention efforts.	Public Policy Workgroup	Public Policy Workgroup; Legislative Affairs	Ongoing; in progress
1C	Develop templates for policy briefs.	Public Policy Workgroup	Public Policy Workgroup; Legislative Affairs	Ongoing; in progress
1D	Develop strategy for approaching legislators and policy makers.	Public Policy Workgroup	Public Policy Workgroup; Legislative Affairs	To be completed following completion of 1A, 1B, and 1C; Consideration must be given to legislative timelines and role of PA Department of Health.
1E	Explore potential partnerships with key stakeholders (e.g., pharmaceutical and health insurance companies).	Public Policy Workgroup	Public Policy Workgroup; Legislative Affairs	To be completed following completion of 1A, 1B, and 1C.

Funding Implications:
- Continued federal funding by the Preventive Health & Health Services Block Grant and the CDC Injury Prevention Planning Grant is vital to the continuation of these activities.

Measures of Success:
- Identify three legislative champions per year to sponsor hearings.
- Obtain support of Governor's Policy Office as legislative efforts develop.
- Track key legislation monthly and identify new legislation quarterly.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL IV: Increase knowledge and skills among injury prevention stakeholders.

(Training and Technical Assistance Focus Area)

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Provide at least one training/meeting in each of six district health offices each year.				
1A	Advertise availability.	VIPP; TTA Workgroup	Materials	Ongoing; to be completed annually.
1B	Determine logistics.	VIPP; IP Coordinators	Materials	Ongoing; to be completed annually.
Objective 2: Utilize at least three statewide training venues to train injury prevention stakeholders each year.				
2A	Use injury prevention data to decide which venues to target.	Statistical Analyst; Bureau of Health Statistics; VIPP	Staff; Access to data	Ongoing; to be completed annually.
2B	Determine venues and contact.*	VIPP; TTA Workgroup	Staff	Ongoing; to be completed annually.
2C	Promote injury prevention training opportunities.	VIPP; Training Sponsors	Web site; Mailings	Ongoing; to be completed annually.
2D	Implement training.	VIPP; TTA Workgroup	Staff	Ongoing; to be completed annually.
Objective 3: Assess the training and technical assistance needs and expertise of at least 50 injury prevention stakeholders.				
3A	Identify existing injury prevention needs assessments implemented within the last five years.	VIPP	Staff; Access to data	Completed
3B	Survey stakeholders.	VIPP	Survey tool	Completed
3C	Analyze surveys.	VIPP	Staff	Completed
3D	Use surveys to identify additional trainings and curricula need (identify gaps).	VIPP; TTA Workgroup	Staff; Analyzed training needs assessment	Completed
3E	Identify training experts.	VIPP; TTA Workgroup	Staff	Completed
3F	Make recommendations on development of new injury prevention trainings.	VIPP; TTA Workgroup	Staff	Completed
Objective 4: Develop a clearinghouse on available injury prevention trainings.				
4A	Identify injury prevention trainings being offered and who is offering them.	VIPP; TTA Workgroup; NTIIVP	Staff; Web site; Mailings	Ongoing; in progress
4B	Develop inventory of injury prevention trainings.	VIPP; TTA Workgroup	Staff	Ongoing; in progress

4C	Use injury prevention data to decide which groups to target for marketing the clearinghouse.	VIPP; Statistical Analyst	Staff; Access to data	Ongoing; in progress
4D	Develop and implement dissemination plan for marketing the clearinghouse.	VIPP; TTA Workgroup	Staff; E-mail contact w/ injury prevention partners and stakeholders	Ongoing; in progress
4E	Develop mechanism for tracking use of the clearinghouse (quarterly).	VIPP	Staff	Ongoing; Web site hits used as tracking mechanism.

Funding Implications:

- Continued federal funding by the Preventive Health & Health Services Block Grant and the CDC Injury Prevention Planning Grant is vital to the continuation of these activities.

Measures of Success:

- Attract a minimum of 50 attendees to trainings in existing venues.
- Achieve a 50 percent response rate on evaluations from trainings.
- Implement and analyze training needs assessment.
- Identify number of evidence-based interventions and trainings being offered.
- Recommend new trainings to be developed.
- Develop and launch clearinghouse by August 2008.

***** *PHI (2); annual PA Rural Health Conference; other state agency trainings and conferences including departments of Aging, Public Welfare, Labor and Industry, and Education; Voluntary Organizations Active During Disasters (VOAD): the Medical Core; Citizen Core, and Local EMAs; Templeton Conference; annual PA EMS Conference; and, annual PA Primary Health Care Forum.*

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL V: Increase the number of injury prevention educators and trainers in each region using existing training venues. *(Training and Technical Assistance Focus Area)*

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Establish a network of at least two technical experts from each region to educate partners in injury prevention.				
1A	Identify the technical experts.	VIPP; TTA Workgroup	Staff	Ongoing; Ask SHIP partners to identify experts in their areas.
1B	Provide two webinars annually to share knowledge and information among experts.	VIPP; TTA Workgroup; CIRCL	Staff; Communication tools; Elluminate; CIRCL expertise and connections	Ongoing; in progress
Objective 2: Recruit at least two new injury prevention trainers and educators in each region.				
2A	Request that existing trainers identify potential trainers.	VIPP; TTA Workgroup	Staff; Communication tools	Ongoing; in progress
2B	Contact all PA colleges and universities to market the need for trainers.	VIPP; TTA Workgroup	Staff	Ongoing; in progress
2C	Contact 100 community-based organizations (e.g., SHIP-affiliated partnerships) to recruit a lead person to train in their service area.	VIPP; TTA Workgroup	Staff; Communication tools	Ongoing; in progress
2D	Ask regional injury prevention professionals to identify at least one potential trainer in their area or community.	VIPP; TTA Workgroup	Staff	Ongoing; in progress
Objective 3: Solicit feedback from 50% of the newly recruited educators and trainers concerning programs, network expandability, and resources necessary to deliver programs.				
3A	Develop a feedback template.	VIPP; TTA Workgroup	Staff	Ongoing; in progress
3B	Distribute to trainers.	VIPP	Staff; Web site	Ongoing; in progress
3C	Collect from trainers.	VIPP	Staff; Web site	Ongoing; in progress
3D	Analyze feedback.	VIPP	Staff	Ongoing; in progress

Funding Implications:

- Additional funding needed.

Measures of Success:

- Identify at least two experts in each region annually.
- Recruit at least two new trainers in each region annually.
- Solicit feedback from at least 50 percent of new trainers annually.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL VI: Create a plan for a training center for injury and violence prevention.

(Training and Technical Assistance Focus Area)

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Submit a proposal for a structure.				
1A	Investigate organizational options for a training center.	VIPP; TTA Workgroup	Staff	Ongoing; in progress
1B	Make a recommendation on the structure according to PA needs and resources.	VIPP; TTA Workgroup	Staff	Ongoing; in progress
Objective 2: Create a development plan (in association with Infrastructure Workgroup).				
2A	Determine/create the budget for the chosen structure.	VIPP	Staff; Funding	Ongoing; in progress
2B	Identify potential partners (e.g., other centers, agencies, businesses, membership organizations and associations, trade organizations providing resource management and conducting similar activities).	VIPP; TTA Workgroup	Staff; Funding	Ongoing; in progress
2C	Identify corporate sponsorship.	VIPP; TTA Workgroup	Staff	Ongoing; in progress
2D	Identify other funders (e.g., foundations, private donors and grant possibilities).	VIPP	Staff	Ongoing; in progress
2E	Write a business plan.	VIPP	Staff; Funding	Ongoing; plan drafted

Funding Implications:

- Continued and additional funding needed.

Measures of Success:

- Determine structure.
- Develop business plan by August 2008.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL VII: Develop and distribute an inventory of existing injury/violence prevention programs in the state. *(Interventions Focus Area)*

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Develop a regional injury prevention resource listing of in/unintentional agencies and programs.				
1A	Develop a Web-based inventory tool.	VIPP; Interventions Workgroup	Web-based tool	Ongoing; to be updated annually.
1B	Develop a list of agencies/programs for distribution at the state, regional and county levels.	VIPP; Interventions Workgroup	Web-based tool	Ongoing; to be updated annually.
1C	Distribute the tool.	VIPP	Web-based tool	Ongoing; to be completed annually.
1D	Collate data.	VIPP	Staff	Ongoing; to be completed annually.
1E	Findings to include: characteristics of injury prevention programs; targeted populations; injury focus areas; funding; injury activities; access to, and use of, data and data sets; conclusions and recommendations.	VIPP; TTA Workgroup	Staff; Communication tools	Ongoing; to be completed annually.
Objective 2: Post (resource) listings on the DOH Web site.				
2A	Communicate findings at the state, regional, and county levels to agencies/programs that target similar age groups or risk areas.	VIPP; Interventions Workgroup	Responses to survey; ICPG Members	Ongoing; to be completed annually.
2B	Advertise/promote through existing Injury Prevention Partnerships.	VIPP; Interventions Workgroup	Responses to survey; ICPG Members	Ongoing; to be completed annually.
2C	Maintain the tool and redistribute survey annually.	VIPP; Interventions Workgroup	ICPG Members	Ongoing; to be completed annually.
Objective 3: Develop a strategy to introduce the resource listing to the public and targeted populations (e.g., schools, minority-based community organizations, legislators, government offices).				
3A	Distribute the resources list of programs and agencies members of the list used for the inventory tool distributions at the state, regional and local levels.	VIPP; Interventions Workgroup	Staff; ICPG Members; Communication tools	Ongoing; to be completed annually.
3B	Distribute list via various media formats.	VIPP	Staff; Communication tools	Ongoing; to be completed annually.

Funding Implications:

- No additional funding is needed.

Measures of Success:

- Tool is Web-based.
- Achieve response rate of at least 50 percent.
- Data collated annually.
- Post inventory findings on Internet and communicate annually to survey respondents and partners.
- Resource list disseminated widely using a variety of media formats.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL VIII: Develop a plan for future interventions based on PA data and best practices.

(Interventions Focus Area)

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Identify statewide trends on a yearly basis.				
1A	Identify the leading causes of injury and death for each age group based on state, regional and county data.	Statistical Analyst; ICPG	Staff; Data Workgroup	Completed annually
1B	Define the top three risk areas for the DOH-defined age groupings.	Statistical Analyst; ICPG	Staff; Data Workgroup	Completed annually
1C	Consider the top three causes of injury for each age group at the state, regional and county levels.	Statistical Analyst; ICPG	Staff; Data Workgroup	Completed annually
1D	With a focus on falls injuries for 2007-2008, determine falls data per DOH-defined age groupings, including data for the E-code sub-categories for fall injuries.	Statistical Analyst; ICPG	Staff; Data Workgroup	Completed
Objective 2: Identify effective practices that would address those specific needs in each of the six DOH regions.				
2A	Define criteria to evaluate programs (e.g., target audience, cost-effective, data driven, includes evaluation, feasibility, culturally appropriate, sensitive of social norms).	VIPP; ICPG	Staff; ICPG; National Resources	Ongoing; in progress
2B	Evaluate programs to determine if they meet criteria for an effective program.	VIPP; ICPG	Staff; ICPG	Ongoing; in progress
2C	As falls are a leading cause of death and injury for all age groups, conduct a focused survey to determine fall prevention interventions/programs being utilized in PA, as well as national/ evidence-based programs/models.	VIPP; ICPG	Staff; ICPG	Ongoing; in progress
2D	As falls are a leading cause of death and injury for all age groups, perform a focused review of fall prevention interventions/programs using the criteria selected in Strategy 2A.	VIPP; ICPG	Staff; ICPG	Ongoing; in progress
Objective 3: Perform a gap analysis for needed programs/interventions for each region.				
3A	Identify gaps that exist, considering the top three causes of injury and death for each age group at the state, regional and county levels.	VIPP; Statistical Analyst; ICPG	Staff	Ongoing; in progress
3B	Through inventory identification, determine what areas of PA are lacking in fall prevention interventions/programs.	VIPP; Statistical Analyst; ICPG	Staff	Ongoing; in progress
Objective 4: Publicize effective practices.				
4A	Highlight effective practices in various media formats.	VIPP; ICPG	Staff	Ongoing; in progress

4B	Provide a Web-based search option on the DOH Web site to access effective programs.	VIPP	Staff	Ongoing; in progress
4C	Disseminate effective programs at statewide conferences through presentations, displays, etc.	VIPP; ICPG	Staff	Ongoing; in progress
4D	Identify and share information on at least one effective falls prevention program/resource per DOH district.	VIPP; ICPG	Staff	Ongoing; in progress
Objective 5: Where gaps have been identified, work with local community structures to develop an intervention plan (goals, objectives, activities, and evaluation) based on PA data and best practices.				
5A	Identify potential programs to fill the identified gaps.	VIPP; ICPG	Staff; ICPG	Ongoing; in progress
5B	Develop an intervention plan to address the gap(s) identified.	VIPP; ICPG	Staff; ICPG; Partners in the identified risk area field	Ongoing; in progress
5C	Disseminate intervention plan.	VIPP; ICPG	Staff; ICPG	Ongoing; in progress
5D	Identify at least one falls prevention program/resource per DOH district to fill identified gaps.	VIPP; ICPG	Staff; ICPG; Partners in the identified risk area field	Ongoing; in progress

Funding Implications:

- Additional funding is needed to support falls prevention program and materials evaluation.

Measures of Success:

- Identify and use statewide trends to prioritize interventions.
- Develop and use criteria tool to evaluate existing programs by 2008.
- Complete gap analysis from intervention.
- Publicize effective practices via Web site.
- Develop and disseminate intervention plan based on effective practices by 2008.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL IX: Strengthen working relationships with stakeholders by identifying new opportunities to integrate injury prevention into current and new programs. ***(Interventions Focus Area)***

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Foster networking to reduce duplication; forge relationships with organizations that share the same concern for a certain cause of injury or have similar interventions yet target different age populations.				
1A	Hold networking sessions at various statewide conferences.	VIPP; ICPG	Staff	Ongoing; in progress
1B	Identify all stakeholders to establish coordination networks.	VIPP; ICPG	Staff	Ongoing; in progress
Objective 2: Encourage collaboration among programs that have an impact on injury prevention to create a comprehensive injury effort that includes formative, process, and outcome evaluations.				
2A	Identify programs and their capability for formative, process and outcome evaluation.	VIPP; ICPG	Staff	Ongoing; in progress
2B	Develop and provide training to programs based on their identified needs.	VIPP; ICPG	Staff	Ongoing; in progress
Objective 3: Collaborate with academic centers in order to work with students and current researchers.				
3A	Identify, list, and distribute academic centers that are working in injury prevention.	VIPP; ICPG	Staff	Ongoing; in progress
3B	Match prevention programs with academic centers.	VIPP; ICPG	Staff	Ongoing; in progress
3C	Assist in the design of outcome data collection methods to amass and analyze data; use data to improve programs in terms of intervention, delivery and results.	VIPP; ICPG	Staff	Ongoing; in progress

Funding Implications:

- Additional funding is needed.

Measures of Success:

- Improve relationships among existing partnerships and develop new partnerships/coalitions.
- Improve evaluation methods through collaborative efforts among programs and with academic centers.
- Address evaluation methods in the Intervention Plan.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL X: Establish a sustainable infrastructure to provide leadership and to coordinate, monitor, and evaluate strategic plan implementation. *(Infrastructure Focus Area)*

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Identify and review existing organizational structures for non-profit groups and present the findings.				
1A	Review and research PA government agencies and bureaus that have established a funding structure that uses 501(c)(3) status to support the generation/distribution of funds statewide that are not available to DOH directly.	Infrastructure Workgroup; ICPG	Time; Internet access; Computer and phone	Ongoing; in progress
1B	Review and research other states' programs to identify models that have a non-profit structure which support the generation/distribution of funds used to support statewide initiatives.	Infrastructure Workgroup	Time; Internet access; Computer and phone	Ongoing; in progress
1C	Identify existing 501(c)(3) organizations within PA that are known to support the mission of the strategic plan.	ICPG	Generated by discussion and other workgroups	Ongoing; in progress
Objective 2: Determine a plan to establish an entity which implements ICPG's strategic objectives.				
2A	Select a type of entity to form or determine a coordinating 501(c)(3)/501(c)(6) agency (per DOH).	Infrastructure Workgroup	Time	Ongoing; in progress
2B	Develop DOH-requested proposal to establish entity or collaborative agreement.	Infrastructure Workgroup	Time	Ongoing; in progress
2C	Establish a Governing Board.	Infrastructure Workgroup; Input from DOH	Time	Ongoing; in progress
Objective 3: Develop business plan.				
3A	Review ICPG infrastructure and funding needs.	VIPP	Outsource	Ongoing; in progress
3B	Prioritize funding needs.	VIPP	Outsource	Ongoing; in progress
3C	Prepare an annual funding report.	VIPP	Outsource	Ongoing; in progress

Funding Implications:

- Additional funding is needed.

Measures of Success:

- Secure a list of non-profits outside of PA, focusing on injury prevention funding that supports statewide initiative.
- Develop a list of agencies that could possibly serve as partners or funding sources for VIPP.
- Complete research of these agencies.
- Issue a summary report of findings, including a brief history; description of organization; and summary of fiscal structure, funding stream and distribution.
- Present summary findings at meeting.
- Develop a broad range of prospective candidates.
- Establish a governing body.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL XI: Increase public/private funding for violence and injury prevention. *(Infrastructure Focus Area)*

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Identify seed and long-term funding sources.				
1A	Seek and identify individuals/organizations to search for grant resources and identify program funds.	ICPG Steering Committee; VIPP	Funding	Ongoing; in progress
1B	Identify and connect to public or private funding resource information system(s).	TBD Non-profit	Web-based resources	Ongoing; in progress
1C	Identify and partner with organizations/agencies that have established funding.	VIPP Staff Person; ICPG	Time	Ongoing; in progress
Objective 2: Explore opportunities/strategies for generating revenue.				
2A	Research other organizations/agencies/entities that have identified revenue-generating opportunities by maximizing limited resources.	TBD Non-profit	Time	Ongoing; in progress
2B	Identify opportunities that generate revenue.	Non-VIPP Staff Person	Time	Ongoing; in progress

Funding Implications:

- Additional and continued funding is needed.

Measures of Success:

- Fill the vacancy.
- Provide the ICPG with a list of possible funding sources.
- Increase funding levels.
- Generate income.

GOAL XII: Build the capacity of communities to reduce and prevent injuries to high-risk groups through maintenance of the ICPG. *(Infrastructure Focus Area)*

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Determine appropriate allocations of funding.				
1A	Review ICPG infrastructure and funding needs.	ICPG	Time	Ongoing; in progress
1B	Prioritize funding needs.	ICPG	Staff	Ongoing; in progress
1C	Prepare an annual funding report.	VIPP	Staff	Ongoing; in progress

Funding Implications:

- Additional and continued funding is needed.

Measures of Success:

- Complete review.
- Prepare annual report for ICPG.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL XIII: Improve dissemination and use of existing injury data. *(Data Focus Area)*

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Identify existing data systems and their potential for injury surveillance in Pennsylvania.				
1A	Request organizations involved in injury data analysis share pertinent materials and all documentation with the PA Department of Health's VIPP staff.	VIPP; Statistical Analyst	Staff; Computer resources	Completed
1B	Review the data elements available in the following datasets: PA Death Registry; Inpatient and Outpatient Hospitalization (PHC4); Emergency Medical Services; PA Behavioral Risk Factor Surveillance System; PA Department of Agriculture; PA Department of Transportation; PA Department of Education; and Trauma Centers.	Statistical Analyst; Partners: Bureau of Epidemiology; PHC4; Bureau of Emergency Medical Services; PA Department of Transportation	Staff; Computer resources	Completed
1C	Document which of the above data sets are relevant for injury surveillance with respect to accessibility and analysis of data.	Statistical Analyst; Partners: Bureau of Epidemiology; PHC4; Bureau of Emergency Medical Services; PA Department of Transportation	Staff; Computer resources	Completed
1D	Coordinate data efforts and maintain close relationships with mortality data sources, PHC4, and other available data sources to discuss receipt of data necessary for analysis (VIPP staff and other support staff).	VIPP; Statistical Analyst	Staff; Computer resources	Completed annually
Objective 2: Review existing data reports and identify modifications that will be necessary to meet the broad strategic planning goals.				
2A	Review *Injury Mortality Report, Hospital Discharge Report,* and *Annual EMS Report* to identify modifications that are necessary for the injury program needs.	Statistical Analyst; Partners: CIRCL, Bureau of Emergency Medical Services	Staff; Computer resources	Completed annually
2B	Provide recommendations for continuing production of *Injury Mortality Report* and *Hospital Discharge Report* in their present or modified forms.	Statistical Analyst; CIRCL	Staff; Computer resources	Completed annually
2C	Provide an annual monograph addressing a specific injury topic based on leading indicators and/or under-addressed injury areas.	VIPP; Statistical Analyst	Staff; Computer resources	Completed annually

Objective 3: Provide access to the leading indicators of injury in Pennsylvania and its counties or regions (when appropriate).				
3A	Identify topics and statistics to include as leading health indicators based on defined needs, uses, geographic levels and specific demographics of interest.	VIPP	Staff; Computer resources	Completed annually
3B	Perform analyses to develop the leading health indicators.	Statistical Analyst; VIPP	Staff; Computer resources	Completed annually
3C	Determine most appropriate venue that will provide universal access to leading health indicators.	VIPP; ICPG	Staff; Computer resources	Completed annually
Objective 4: Update the "Injury Data Resource Guide" in order to assist practitioners in accessing available data reports and data sets.				
4A	Develop list of all guide components that should be addressed within the document.	VIPP; Data Workgroup	Staff; Computer resources	Completed; To be completed biannually
4B	Review existing documents and note areas for improvement.	VIPP; Data Workgroup	Staff; Computer resources	Completed; To be completed biannually
4C	Determine appropriate modifications, make recommendations for modifications based on defined need and uses, and update the guide as deemed appropriate.	VIPP; Data Workgroup	Staff; Computer resources	Completed; To be completed biannually
Objective 5: Assess the ability to utilize national data resources to develop special reports on selected injuries, including cost analysis, for Pennsylvania.				
5A	Identify national sources of injury data available.	VIPP; Data Workgroup	Staff; Computer resources	Completed
5B	Document how each of the data sources is accessed.	VIPP; Data Workgroup	Staff; Computer resources	Completed
5C	Document what types or categories of information are available via each of the data sources.	VIPP; Data Workgroup	Staff; Computer resources	Completed
5D	Determine and document the reliability, quality or usefulness of information for each of the national data sources identified.	VIPP; Data Workgroup	Staff; Computer resources	Completed

Funding Implications:

- No additional funding is needed.

Measures of Success:

- Review analysis of two currently utilized datasets.
- Review three of the current injury reports for content and structure.
- Identify four leading health indicator topics and statistics to be tracked.
- Determine at least one appropriate venue for discussing injury prevention data and information.
- Identify and catalog two national data sources in a resource document submitted to the Violence and Injury Prevention Program.
- Develop a list of contacts for at least three of the 11 core dataset sources.
- Formulate at least two recommendations for modifying Injury Data Resource Guide.
- Complete one draft each of injury mortality report for 2000-2004 and injury morbidity report for 2005.

2006-2010 PRIORITIZED FIVE YEAR GOALS

GOAL XIV: Identify data gaps that prevent comprehensive review of injury behavior in Pennsylvania. *(Data Focus Area)*

STRATEGY		LEAD(S)	RESOURCE(S)	STATUS
Objective 1: Review and identify the feasibility of establishing a statewide emergency department data system for Pennsylvania.				
1A	Review the availability and usefulness of injury data from emergency department data collection systems in other states.	Data Workgroup	Staff; Computer resources	Ongoing; in progress
1B	Use information gathered from emergency department data collection programs in other states to assess feasibility of developing a similar program in PA.	VIPP; Data Workgroup Partners: ICPG Members involved with program review/analysis	Staff; Computer resources	Ongoing; in progress
1C	Document the location and scope of local collectors of emergency department data in PA.	Data Workgroup	Staff; Computer resources	Ongoing; in progress
1D	Review and document which Pennsylvania emergency department data are currently available in terms of completeness and quality.	Data Workgroup	Staff; Computer resources	Ongoing; in progress
1E	Make recommendations based on best practices of other states for statewide and local emergency department data.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; in progress
Objective 2: Design communications that address the need and uses for statewide collection of emergency department data.				
2A	Determine audience(s) for necessary communications.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; in progress
2B	Determine key talking points for communications.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; in progress
2C	Obtain points of contact for reactions and questions related to communications.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; in progress
Objective 3: Investigate the feasibility and appropriateness of applying for a National Violent Death Reporting System grant to further develop data collection capabilities.				
3A	Contact National Violent Death Reporting System grant support to determine eligibility requirements.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; to be completed annually.
3B	Inquire about the method of application for grant.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; to be completed annually.
3C	Identify contacts from the national and state agencies necessary to the grant application process.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; to be completed annually.
3D	Determine feasibility of meeting the grant requirements for eligibility and making subsequent recommendations.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; to be completed annually.

Objective 4: Investigate the feasibility of the Department of Health developing a technical assistance office for coroners/medical examiners.				
4A	Identify similar statewide programs in other states to review.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; in progress
4B	Develop a list of vital characteristics for a statewide technical assistance office for coroners/medical examiners.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; in progress
4C	Catalog the identified vital characteristics found within identified technical assistance programs from other states.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; in progress
4D	Determine what department entity and representatives should be involved with the development of a technical assistance office.	VIPP; Data Workgroup	Staff; Computer resources	Ongoing; in progress

Funding Implications:

- Additional and continued funding is needed.

Measures of Success:

- Compile at least one report outlining emergency data uses and actions taken related to the analysis of collected data by the other state(s) being reviewed.
- Apply for a National Violent Death Reporting System grant.
- Compile at least one report outlining the feasibility of a statewide technical assistance office for coroners/medical examiners.

SUMMARY OF CHANGES

The following changes were made to the 2006-2010 Prioritized Five Year Goals and their corresponding objectives/strategies since the creation of the Pennsylvania Injury Prevention and Control Plan:

GOAL I: Revised Strategy 3B from *"News stories, letters to the editor"* to *"Develop and submit news stories, letters to the editor."*

GOAL II: Revised wording of Measures of Success but did not change Measures themselves.

GOAL III: Added Strategies 1C, 1D, and 1E.

GOAL IV: Revised Strategy 4A from *"Identify what trainings are already provided on injury prevention and who is offering them"* to *"Identify injury prevention trainings being offered and who is offering them."*

Revised Strategy 4E from *"Develop mechanism for tracking use (quarterly) of the clearinghouse"* to *"Develop mechanism for tracking use of the clearinghouse (quarterly)."*

Revised wording of Measures of Success but did not change Measures themselves.

GOAL V: Revised wording of Measures of Success but did not change Measures themselves.

GOAL VI: Revised Objective 2 from *"Create a development plan"* to *"Create a development plan (in association with Infrastructure Workgroup)."*

Revised wording of Measures of Success but did not change Measures themselves.

GOAL VII: Revised Strategy 3A from *"Distribute the resource list of programs and agencies to the list members (list used for inventory tool distribution) at the state, regional, and county level"* to *"Distribute the resources list of programs and agencies members of the list used for the inventory tool distributions at the state, regional, and local levels."*

Revised Strategy 3B from *"List will be distributed via various media formats"* to *"Distribute list via various media formats."*

GOAL VIII: Added Strategies 1D, 2C, 2D, 3B, 4D, and 5D.

Revised Funding Implications from *"No additional funding needed"* to *"Additional funding needed to support falls prevention program and materials evaluation."*

Revised wording of Measures of Success but did not change Measures themselves.

GOAL IX: Revised Objective 2 from *"Encourage collaboration among programs that impact injury prevention to create a comprehensive injury prevention efforts, which includes evaluation (Formative, process, and outcome evaluations)"* to *"Encourage collaboration among programs that have an impact on injury prevention to create a comprehensive injury effort that includes formative, process, and outcome evaluations."*

Revised Objective 3 from *"Collaboration with academic centers to work with students as well as current researchers"* to *"Collaborate with academic centers in order to work with students and current researchers."*

Revised wording of Measures of Success but did not change Measures themselves.

GOAL X: Revised Strategy 1C from *"Convene meeting with DOH leadership to review existing structure and findings and design an organizational structure to include Laws/Legislation"* to *"Identify existing 501(c)(3) organizations within PA that are known to support the mission of the strategic plan."*

Revised Objective 2 from *"Create a Governing Body to develop a business plan and ensure implementation"* to *"Determine a plan to establish an entity which implements ICPG's strategic objectives."*

Revised Strategy 2A from *"Identify qualified individuals and representative agencies"* to *"Select a type of entity to form or determine a coordinating 501(c)(3)/501(c)(6) agency (per DOH)."*

Revised Strategy 2B from *"Interview/invite prospective candidates"* to *"Develop DOH-requested proposal to establish entity or collaborative agreement."*

Revised Strategy 2C from *"Select a Governing Body"* to *"Establish a Governing Board."*

Added Objective 3 and Strategies 3A, 3B, and 3C.

Revised wording of Measures of Success but did not change Measures themselves.

GOAL XI: Revised Objective 1 from *"Identify funding sources (seed/long-term)"* to *"Identify seed and long-term funding sources."*

Revised Strategy 1A from *"Seek opportunity to hire an individual to search for grant resources and identify program funds"* to *"Seek and identify individuals/ organizations to search for grant resources and identify program funds."*

Changed Lead in Strategy 1B from VIPP Staff Person to TBD Non-profit.

Revised Strategy 1C from *"Partnership with organizations/agencies/entities that have established funding"* to *"Identify and partner with organizations/agencies that have established funding."*

Revised Strategy 2A from *"Research other organizations/agencies/entities that have identified revenue-generating opportunities"* to *"Research other organizations/ agencies/entities that have identified revenue-generating opportunities by maximizing limited resources."*

Changed Lead in Strategy 2A from VIPP Staff Person to TBD Non-profit.

Changed Lead in Strategy 2B from VIPP Staff Person to Non-VIPP Staff Person.

GOAL XII Revised wording of Measures of Success but did not change Measures themselves.

GOAL XIII Added Strategy 2C.

GOAL XIV Revised Strategy 4A from *"Identify similar statewide programs in other states for purpose of review"* to *"Identify statewide programs in other states to review."*

GLOSSARY

CDC: Centers for Disease Control and Prevention

CEHIC: Center for Environmental Health and Injury Control

CIRCL: Center for Injury Research and Control

DOH: Department of Health

ICPG: Injury Community Planning Group

MV: Motor Vehicle

MVT: Motor Vehicle Traffic

NCIPC: National Center for Injury Prevention and Control

****NTIIVP:** National Training Initiative on Injury and Violence Prevention

PCADV: Pennsylvania Coalition Against Domestic Violence

PCAR: Pennsylvania Coalition Against Rape

****PHC4:** Pennsylvania Health Care Cost Containment Council

PHHSBG: Preventive Health and Health Services Block Grant

STAT: State Technical Assessment Team

STIPDA: State and Territorial Injury Prevention Directors' Association

****TTA:** Training and Technical Assistance

VIPP: Violence and Injury Prevention Program

*****Abbreviations which have been added in the 2008 Addendum; all other terms appeared previously in the Pennsylvania Injury Prevention and Control Plan.***

OTHER STATEWIDE PLANS

The Department's Violence and Injury Prevention Program and ICPG would like to recognize other Bureaus and Agencies that have created statewide plans. We recognize the importance of accomplishing their goals, making a constant effort to communicate, and partnering with these Agencies and Bureaus. This will ensure that we are not duplicating efforts and can accomplish all overlapping and complementing goals.

For copies of these plans, please use the following contact information:

Pennsylvania Department of Aging- *Pennsylvania State Plan on Aging 2008-2012*

Commonwealth of Pennsylvania
Department of Aging
555 Walnut Street, 5th Floor
Harrisburg, PA 17101-1919
(717) 783-1550

Pennsylvania Department of Public Welfare- *Pennsylvania Youth Suicide Prevention Five-Year Action Plan*

Commonwealth of Pennsylvania

ACKNOWLEDGEMENTS

The following individuals are currently serving on the Injury Community Planning Group as of August 2008:

Anthony Adusei
Pennsylvania Department of Health
Bureau of Emergency Medical Services

Victor Annan
Pennsylvania Department of Health
Office of Policy

Leslie Best
Pennsylvania Department of Health
Bureau of Health Promotion and Risk Reduction

Alfred Blumstein
Carnegie Mellon University
Urban Systems and Operations Research
H. John Heinz III School of Public Policy and Management

Thomas E. Brandt, RN, BSN, EMT-P, PHRN
Robert Packer Hospital
Regional Trauma Center

Kelly Cappos, RN, BSN, CPUR, CLNC
Pennsylvania Shaken Baby Syndrome Prevention and Awareness Program
Penn State Milton S. Hershey Medical Center

Mary Jo Cerepani, RN, MSN, CRNP, CEN
Pennsylvania Coalition of Nurse Practitioners

Rose Cheney, PhD
University of Pennsylvania
Firearm and Injury Center at Penn

Scott Cohen
Burn Foundation

Tracy Coleman, RN, BSN
Hahnemann University Hospital

Barbara Conrad
Reading Hospital and Medical Center

Robert Cooney
Pennsylvania Department of Health
Bureau of Emergency Medical Services

Theodore Corbin, MD, FACEP
Thomas Jefferson University Hospital
Department of Emergency Medicine
Violence Prevention Program

Anthony W. Cosentino
Highmark, Inc.

Julia Cox, RN, CRNA, MS Ed
American Trauma Society, Pennsylvania Division

Nicole Cristini
Pennsylvania Department of Transportation

Lisa Davis, MHA
Pennsylvania Office of Rural Health

Myrna M. Delgado
Pennsylvania Department of Education
Division of Student and Safe School Services

Shonda DeShields, MSOL
City of Chester Bureau of Health
Injury Prevention Program

Tana DeWire, MBA
Lycoming County Health Improvement Coalition

Gina Duchossois
The Children's Hospital of Philadelphia

Nancy Durborow
Pennsylvania Coalition Against Domestic Violence

Dylan Ellis
Pennsylvania Department of Health
Bureau of Health Statistics and Research

Keri-Ann Faley, RHIA
Pennsylvania Department of Health
Violence and Injury Prevention Program

Anne M. Franchak
SAFE KIDS Pennsylvania

Mariana Garrettson, MPH
Commonwealth Medical College

Stephen Gensemer
Pennsylvania Department of Health
Violence and Injury Prevention Program

Pat Gifford, RN
Harnot Medical Center
Harnot Shock Trauma Program

Garrison Gladfelter
Pennsylvania Department of Health
Bureau of Drug and Alcohol Programs
Division of Prevention

Jill Smith-Gray
Geisinger Medical Center

Angelia Halaja-Henriques
PA Academy of Family Physicians
Public Health Initiatives

Carol A. Hanson, MSN, RN
Janet Weis Children's Hospital
Geisinger Medical Center

Jennifer Hessert, MEd
Pennsylvania Office of Rural Health

Kelly L. Holland
Pennsylvania Department of Health
Adolescent Health Program

William Hunter
Pennsylvania Department of Transportation
Crash Information Systems and Analysis

Nathan T. James
Pennsylvania Department of Health
Bureau of Health Statistics and Research

Jill Kachmar
Pennsylvania Department of Public Welfare
Office of Children, Youth, and Families

Shannon Kearns
Penn State Children's Hospital

Susan Kildea
University of Pennsylvania
Firearm and Injury Center at Penn
Division of Traumatology and Surgical Critical Care

Marie Killian, RN, BSN, CCRN
Pennsylvania Shaken Baby Syndrome Prevention and Awareness Program
Penn State Milton S. Hershey Medical Center

Trooper Jonathan Kline
Pennsylvania State Police
Bureau of Patrol
Safety Program Division

Miriam Lavandier, MA
Institute for Leadership Education, Advancement and Development

Beata Peck Little
Pennsylvania Coalition Against Rape

Jennifer Maley, RN, BSN
UPMC Health System

Hillary Marotta, MEd
Penn State Children's Hospital

Judy May-Bennett
American Trauma Society, Pennsylvania Division

William D. McQuilken, BA
Lehigh Valley Health Network
Trauma Prevention Program

Nathan McWilliams, RHIA
Pennsylvania Trauma Systems Foundation

Kristen Mertz, MD, MPH
University of Pittsburgh
Graduate School of Public Health

Gerald M. Miller
Pennsylvania Department of Health
Bureau of Health Statistics and Research
Division of Statistical Support

Rosemary Moyer
Pennsylvania Department of Health
Bureau of Community Health Systems

Dennis J. Murphy, PhD
The Pennsylvania State University
Department of Agricultural and Biological Engineering

Frances Nelson
St. Christopher's Hospital for Children
Injury Prevention Center

JoAnne Nelson
Pennsylvania Health Care Cost Containment Council
PHC4 Special Request Unit

Kim J. Nelson
