

NOTE FOR POSTSECONDARY INSTITUTIONS: The U.S. Department of Education's Section 504 regulation applies to postsecondary educational institutions that receive federal financial assistance from the U.S. Department of Education. As a postsecondary entity, Subpart E of the Section 504 regulation would be applicable, but not Subpart D. A postsecondary recipient of federal financial assistance that employs 15 or more persons must designate at least one person to coordinate their Section 504 compliance efforts. Services for students with disabilities at the postsecondary level are "academic adjustments" or "auxiliary aids or services" as reflected in the Section 504 regulation. "Reasonable accommodations" is a term that is used in the employment context.
