Charter Annual Report
Monday, December 28, 2009
(Last Accepted: Monday, December 28, 2009)

Entity: 21st Century Cyber CS
Address: 455 Boot Rd
Downingtown, PA 19341
Phone: (484) 875-5454
Contact Name: Jon Marsh

CHARTER SCHOOL ANNUAL REPORT SUMMARY DATA

Summary Data Part I

Charter School Annual Report Summary Data 2008 - 2009

Name of School: 21st Century Cyber CS

Date of Local Chartering School Board/PDE Approval: June 14, 2006

Length of Charter: 5 Years **Opening Date:** September 2001

Grade Level: 6-12 **Hours of Operation:** 8:00am-4:00pm

Percentage of Certified Staff: 100% **Total Instructional Staff:** 24

Student/Teacher Ratio: 20.6:1 **Student Waiting List:** 0

Attendance Rate/Percentage: 99.4%

Second Site Address, Phone Number and Site Director:

805 Springdale Drive

Exton, PA 19341

(484)875-5400

Jon Marsh

Summary Data Part II

Enrollment: ADM=495 **Per Pupil Subsidy:** \$8537.85

Student Profile

American Indian/Alaskan Native:	.3%
Asian/Pacific Islander:	.5%
Black (Non-Hispanic):	6.1%
Hispanic:	2.3%
White (Non-Hispanic):	87.8%
Multicultural:	3.0%

Percentage of Students from Low Income Families Eligible for a Free or Reduced Lunch:
30.0%

SECTION I. EXECUTIVE SUMMARY

Educational Community

The Bucks, Chester, Delaware, and Montgomery County Intermediate Units collaboratively developed the 21st Century Cyber Charter School (21CCCS) for Pennsylvania students in grades 6-12 who are motivated to learn in an online asynchronous environment. The primary goal of the school is to provide students with high quality instruction and a curriculum aligned to the Pennsylvania academic standards. Through consistent communication, 21CCCS teachers tailor the educational process to meet the students' individual needs while preparing them for the future.

The 21st Century Cyber Charter School's method of delivering instruction via the Internet enables students to receive an appropriate public education through the use of an online curriculum designed by highly qualified teachers and staff. This curriculum addresses the Pennsylvania academic standards through the innovative use of technology. 21CCCS students use technology to conduct in-depth research, collaborate with other students, and develop 21st century skills to be prepared for their individual goals after graduation. The school's focus on a student centered approach allows the teachers to create an individualized educational setting in which students with a variety of strengths can achieve academic success.

The ability to individualize the educational setting for students, both in curricular choices and the pace of instruction, enables 21CCCS to meet the needs of students who have a conflict with the traditional method of instructional delivery. Differentiation and communication create a successful academic environment for the students. Through weekly communication with instructors and staff, the students are taught to self-advocate and communicate when they need additional

instruction, further explanation, accommodations, or modification of the curriculum.

Teachers, counselors, and staff provide daily assistance during the orientation period to ensure each student has the necessary skills to be successful in an asynchronous, online setting. However, this method of delivering instruction is not appropriate for every student. Should a student show signs of difficulty due to the setting, a conference is scheduled with the parent and student to determine if any other further modifications or accommodations can or should be made, and if cyber school is an appropriate learning environment.

Mission

The 21st Century Cyber Charter School (21CCCS) mission is to: Provide students, for whom an asynchronous environment is an appropriate educational setting and attend our school at least half time, with an individualized learning program utilizing the latest information and communications technology. The basis for all learning plans is to maximize student achievement of the Pennsylvania Academic Standards while developing higher order thinking and complex problem-solving skills. The 21st Century Cyber Charter School will assure students master essential content and skills while preparing them for their future goals.

Vision

We provide students, families, teachers, and staff a world-class individualized asynchronous online "out of the box" educational experience, while achieving balanced growth and providing customers, both internal and external, with outstanding service.

Shared Values

21CCCS serves the students and families of Pennsylvania by ensuring highly trained instructors and staff use rigorous online middle and high school curriculum to help students achieve a well respected transcript and diploma. Not all students learn best in an online learning environment or are motivated enough for full-time online asynchronous learning, but for those who are 21CCCS offers the best asynchronous online learning environment available, which drives enrollment, decreases student and teacher turnover, and makes 21CCCS the school of choice for asynchronous online learning in Pennsylvania.

Academic Standards

The 21CCCS curriculum provides a rich learning experience designed to foster creative and critical thinking skills, increase self-motivation and self-advocacy, and maximize student achievement of the Pennsylvania Academic Standards (PA Standards). With this ultimate goal in mind, the 21CCCS curriculum is tightly aligned to the academic standards through embedded anchors and assessments designed to measure student proficiency annually. The 21CCCS curriculum utilizes an integrated, conceptually structured approach that stresses achievement of the Pennsylvania standards in real-life contexts and applications. In addition to this pedagogical basis for curriculum development, the 21CCCS curriculum provides a variety of assessment methods to collect evidence of content goals and Pennsylvania standards to benefit as many learners as possible. The staff, which developed the curriculum, created curriculum maps to document the standards, anchors, and content topics addressed in each course.

All classes created by 21CCCS staff have been, and will continue to be, developed using the board approved rubric to ensure standardization, ease of use, alignment to the PA Standards, and the ability to move at the most appropriate pace for the individual student. These courses are independently reviewed based upon this rubric.

Students progress through the classes as quickly as they are able to demonstrate mastery of the content, but they are monitored so they do not fall behind. Communication with the instructors is imperative to the students' success. The ultimate goal of the educational program is academic excellence for all students through the mastery of appropriate curriculum.

To successfully graduate from 21CCCS each student must meet the present standard for accumulated credits - 23 credits are required for students including: 4 credits in English, Social Studies, Mathematics, and Science; 2 credits in Physical Education and Health; 2 credits in Arts & Humanities; 2 credits in elective courses. Students must also complete both a course on careers and a graduation project (0.5 credits each), as well as achieve a level of "Proficient" or better on the PSSAs. Students that do not meet PSSA proficiency requirements are required to demonstrate proficiency on an alternate assessment. College bound students should complete at least two years of a foreign language and should also consider taking British Literature, Precalculus, Calculus, and Physics.

In accordance with IDEA, identified special education students who satisfactorily complete a special education program developed by an Individualized Educational Program team shall be granted and issued a regular high school diploma by 21CCCS.

Strengths and Challenges

21CCCS made Adequate Yearly Progress (AYP) for the fifth year in a row. This success is attributed to a number of factors including, but not limited to, the development or modification of 21CCCS online curriculum based upon the Pennsylvania standards, the high level of individualization and communication between the school, students, and parents; the dedication of highly trained teachers and staff; and finally the support and guidance of the Board of Trustees.

Challenges include, but are not limited to, dealing with the large number of families that apply to 21CCCS thinking it will be the "easy way out" or the "save all" solution for a child that is not motivated to learn, collecting hardware and textbooks from withdrawn families located across the commonwealth, preparing for the potential reduction in funding due to repeated bills brought forward, training requirements for staff working in this new and continually improving area of public education, and the federal and state district level requirements put on a small number of staff.

SECTION II. STRATEGIC IMPROVEMENT PLANNING

Strategic Planning Process

After administration learned the school had not achieved AYP in 2004 due to participation rate on PSSA testing, a School Improvement Plan was developed using the Strategic Planning Process. The plan was executed during the 2004-05 and the 2005-06 school year. 21CCCS has made AYP every year since then.

Strategic Planning Committee

Name	Affiliation	Membership Category	Appointed By
Carly Fives	Special Services Coordinator	Special Education Representative	education specialist
Joe Mayo	Student Support Manager	Administrator	Jon Marsh

Jon Marsh	Director/CEO	Administrator	Position
Lindi Steczak	Admin. Asst. / Bd. Sec.	Administrator	Jon Marsh
Paige Morabito	Coordinator of Instruction	Administrator	Jon Marsh
Russell Gallagher	Principal	Administrator	Jon Marsh

Goals, Strategies and Activities

Goal: FOUR-YEAR GRADUATION RATE (for districts and schools that graduate seniors)

Description: Graduate rate will meet an 80% threshold and/or show growth.

Strategy: At-Risk Student Identification and Monitoring

Description: At-risk students will be identified & monitored by guidance for success, and referred to the Administrative Review Team as appropriate.

Activity: Subject matter experts notify at-risk students before referral to ART

Description: Each subject matter expert using their department teachers will identify academically at-risk students & contact their families using conference calling or Elluminate meeting rooms.

SECTION III. QUALITY OF SCHOOL DESIGN

Rigorous Instructional Program

The 21CCCS curriculum provides a rich learning experience designed to foster creative and critical thinking skills, increase self-motivation and self-advocacy, and maximize student achievement of the Pennsylvania Academic Standards (PA Standards). With this ultimate goal in mind, the 21CCCS curriculum is tightly aligned to the PA Standards through embedded anchors and diagnostic assessments designed to measure student proficiency annually. 21CCCS curriculum utilizes an integrated, conceptually structured approach that stresses achievement of the PA Standards in real-life contexts and applications. In addition to this pedagogical basis for curriculum development the 21CCCS curriculum provides a variety of assessment methods to collect evidence of content goals and Pennsylvania standards to benefit as many learners as possible. The staff, which developed the curriculum, created curriculum maps to document the standards, anchors, and content topics addressed in each course. The 21CCCS Board approved this documentation at the January 2006 meeting and administration submitted the documents to PDE as part of the charter renewal in February 2006.

In May 2008 the Board of Trustees approved a five-year curriculum renewal cycle that was developed to ensure all classes are scheduled for and receive regular review. To further support the revision process, data gathered during focus groups held in the spring of 2009 guided the revisions to better meet the needs of the students.

The 21CCCS curriculum provides a high degree of individualization, allowing students to demonstrate mastery of the content most appropriate to the learner. Participation in group projects and learning activities are flexible and based upon common needs and learning objectives rather than age or placement within a predetermined curriculum. 21CCCS does not attempt to fit students into a set class progression, but rather builds the educational program around the student's learning needs. Prior to the start of each semester, 21CCCS provides the students with the necessary materials to successfully complete their courses. In all English and math courses, the students complete a pre and post assessment to identify the areas of the PA Standards in which there may be a deficiency. The instructional staff uses the students' scores to help focus on area(s) of need from the pre-diagnostic assessment and to measure annual academic improvement with the post-diagnostic assessment.

Curriculum which is purchased or rented from third party sources is taught by our instructional staff whenever appropriate, and monitored by a 21CCCS Learning Coach for additional student support. When using one of these courses, modifications are made to include an appropriate pace chart for the student's individual needs. All curriculum taught by 21CCCS staff is aligned to the PA Standards and augmented whenever necessary to enhance student achievement of the standards.

Based upon student preference and needs, most classes incorporate the use of virtual classrooms to introduce, discuss, and review the instructional material. Students who choose not to, or who are unable to participate in the live version of the presentation are able to watch a recorded version any time after the session has been posted. After review of current pedagogical research, many classes have incorporated the use of discussion boards, as they have been found effective for the learning process (Kassop 2003). Students are then able to participate in the curricular discussion in an asynchronous manner. A main benefit of the online method of instructional delivery is the ability for students to process the information at their own speed without the demands, and/or stress of a real-time class setting. Even within the synchronous webcasts, students are able to process information and respond within their comfort levels either through direct messaging or live audio.

When collaborative activities are appropriate the students may use a combination of the discussion boards and/or the live webcasts to present their information to their collaborative group or the entire class. When direct instruction, remediation, or tutoring is needed, the instructors may use the live webcast in a one-on-one setting to work with the students in a synchronous setting. Often a phone conversation or email will suffice to convey the necessary information, but if more is needed the necessary tools are available for communication with the students.

Not only do teachers have the opportunity to discover areas of need through regular one-on-one communication with students, diagnostic tests are also given to students. Specifically within the English and math subject areas, diagnostic tests assist in determining if extra focus is needed on fundamental skills for the individual student. 21CCCS teaching staff employ several strategies to accelerate academic skill development, content knowledge, and learning strategies for students performing significantly below standards in literacy and mathematics skills. In English courses, students are regularly provided with reading guides for assessments to help them identify and study the content. Within daily communication and all submitted written work, the instructional staff works with students to consistently use clear, grammatically correct sentences, and paragraphs. Particular emphasis is also given to the steps required for successful development of

a five-paragraph essay and other standards-based writing techniques. The English courses also use student focused lessons based upon an inquiry method of learning which utilizes genre based readings, discussion boards, lectures using virtual classrooms, projects, group work, and presentations.

Within the math courses numerous strategies are incorporated to assist all students, but particularly those who do not show mastery of the appropriate mathematic skills in the diagnostic assessments. Visualization is incorporated into daily instruction as the visuals enable students to see the processes of practical mathematics. Particular emphasis is given to practice and application of all basic math skills, practice is also provided on computational skills with integers and decimals within word problems. Students must show the ability to determine the proper mathematical methods to solve real world problems based on a step-by-step analysis. Based upon identified student need, an entire course was built upon the essential skills of arithmetic as they apply to algebra. Within all core subjects teachers increased efforts to integrate literacy and mathematic skills into project based activities.

For the 2008-09 school year the math department continued to use methods focused upon individualizing lessons and feedback for the students to promote mastery learning. The feedback provided audio and recorded movies to show the student how to correct specific math problems he or she missed. The student was then given the opportunity to correct the work and resubmit. The teacher focused on topics the students perceived as difficult in the first semester math courses.

Based on data researched using eMetric and the GROW Network, the lowest performance areas for the school's 8th and 11th grade students over the last three years in reading, writing, and mathematics were identified. Students were given diagnostic assessments on PSSA eligible content in these content areas. The teachers and administration provided supplemental resources and instruction to every 6th, 7th, 8th, and 11th grade student. The information covered reading, writing, and mathematics. Students were encouraged to complete prescribed problems and were given opportunities to work with teachers in an interactive setting. The increased scores in all targeted area on the PSSA provides additional information that will be used by the administration in preparation for the 2010 PSSA.

English Language Learners

Students enrolled in 21CCCS who first acquired a language other than English, come from a home where a language other than English is spoken, or speak with peers in a language other than English are eligible for English as a Second Language (ESL) services.

As the students Local Education Agency (LEA), 21CCCS is responsible to provide services to English Language Learners (ELL). 21CCCS works collaboratively with the students' local intermediate unit to coordinate the delivery of services in accordance with that district's ESL program goals and objectives including identification, assessment, and language services.

- ELL Report

Graduation Requirements

To successfully graduate from 21CCCS each student is required to meet the present standard for accumulated credits*, and to achieve a level of “Proficient” or better on reading, writing, and mathematics PSSAs. Eleventh grade students who did not demonstrate proficiency on the tests will have the opportunity to retake tests during the fall of their senior year. Students who do not meet PSSA proficiency requirements are required to demonstrate proficiency on an alternate assessment.

The following information is based on the minimum requirements. Students pursuing a college education are encouraged to take additional courses.

<u>Category</u>	<u>Credit Requirements (23 total)*</u>	<u>Courses</u>
English	4	English 9, 10, 11, and 12. Electives include Grammar and Composition, Business Communication, and Creative Writing
Social Studies	4	World Geography, World History, American History II, Government, Psychology, Social Studies Elective
Mathematics	4	Algebra I, Geometry, Algebra II, Pre-Calculus, Math Elective
Science	4	Earth Science, Biology, Chemistry, Physics, Physical Science, Science Elective
PE/Health	2	Includes Physical Education and Health courses
Arts & Humanities	2	Art, Music, Foreign Languages, and other Humanities
Electives	2	Many options
Graduation Requirement	.5	Career and Life Skills (traditionally taken during 11th grade)
	.5	Graduation Project (Culminating Project- traditionally taken during 12th grade)

* 23 credits were required for students enrolling in 21CCCS high school (grades 9+) after 2003-2004.

In accordance with 22 Pa. Code Â§ 4.24, identified special education students who satisfactorily completed a special education program developed by an Individualized Educational Program Team are granted and issued a regular high school diploma by 21CCCS.

Special Education

21CCCS meets the educational needs of students with disabilities by providing students with the academic support(s) they need, specifically as outlined within their IEP or 504 Service Agreement. The Special Education Department works in collaboration with the regular education teachers to make any necessary modifications and/or accommodations to the delivery or expectations of their curriculum in order for students with disabilities to be successful. Accommodations may include, but are not limited to, extended time to complete assignments, altering the length of an assignment, reducing the number of assessments, or providing alternate means of assessment. Modifications may include, but are not limited to, centering instruction on the courses' Essential Questions.

Regular education teachers are provided with a copy of the 504 Service Agreement or IEP for students with disabilities in their classes in order to ensure they are working towards the students'

annual goals and are making the necessary modifications and accommodations to ensure student success.

21CCCS currently operates a direct learning support program and it is projected that the program will continue to operate for at least the next two years under our current charter. 21CCCS also provides emotional support for students diagnosed as Emotionally Disturbed by contracting out psychological services to those who qualify and encouraging students to communicate with the guidance counselors on staff. It is projected that 21CCCS will continue to contract for the following related services:

- Psychological evaluations and reevaluations (ten students in 2008-2009)
- Occupational Therapy Evaluation (one student in 2008-2009)
- Speech and Language Evaluation (one student in 2008-2009)
- Speech and Language therapy (two students in 2008-2009)
- Occupational Therapy (two students in 2008-2009)
- Individual psychological therapy
- Physical Therapy
- Individual Reading Instruction (one student in 2008-09)

To ensure compliance with special education laws and determine the most appropriate instructional strategies for educating special education students, the Special Education Department at 21CCCS evaluates students to determine if they are in need of special education services, and examines IEP's of incoming and existing students to ascertain that they are written with clear, measurable, annual goals. The IEP team must determine whether to accept the IEP as it is written, or if a new IEP must be written. The IEP team also monitors students' progress towards IEP goals through collaboration between the regular and special education teams. The special education coordinator ensures regular and special education teachers are following the student's IEP and working towards annual goals.

Student Assessment

The Pennsylvania System of School Assessment (PSSA) results document the 21CCCS student achievement. In 2008-09, all 6th, 7th, 8th and 11th grade students were tested. The participation rate was 98.2%. In Reading, 81.6% of students demonstrated a level of Proficient or higher. In Math, 57.3% of students demonstrated a level of Proficient or higher. In 2007-08, our student achievement was supported by adding a number of new courses that focused on the students who needed additional instructional support. Using the student performance management system that was implemented during the 2007-08 school year, data was collected on math and reading which was used to drive more academic decisions for individual students.

Students take assessments on their reading and mathematical skills to be used as a baseline during the school year in measuring their academic growth and preparation for the PSSA assessments. At the end of the math/English class, students are directed to take a post-test in mathematics/reading. The school combines both test scores to chart the progress of each student over the academic year in math and reading.

A local assessment was used in the 2008-09 school year as an alternative assessment for graduating seniors who had met all other graduation requirements, except the PSSA requirement. For prospective graduating seniors who had not scored proficient or advanced on either of the two possible administered state assessments, an additional assessment was created using the PLATO Learning System. The PLATO Learning System is an online curriculum that provides both instruction, and assessment in the areas of reading, writing, and mathematics. With more than 120,000 mathematical and reading questions aligned to PA Standards, it provides a rich resource in creating an alternative assessment. These seniors were enrolled in the online course of assessment and required to reach an 80% mastery level before they could graduate.

The Administrative Review Team (ART) monitors at-risk students and is responsible for taking additional measures if parents or students are not following through on the recommendations made by the ART. The ART is made up of one administrator, the Student Support Manager, a Guidance Counselor, the Special Education Coordinator, and a teacher of the student. 21CCCS uses the ART as one of the procedural steps in the identification process of academically at-risk students. Possible solutions include but are not limited to; mandatory phone and/or on-site conferences with student and family, removal of privileges and reduction of course loads, monitored online classroom attendance, alternative course requirements. The goal of the ART conferences is to achieve a working contract agreed upon by all involved. The contract outlines the steps the student will take to succeed at 21CCCS. Truancy is often a part of the ART procedure. The course's teachers maintain the positive and supportive role in the path to student success while the ART monitors and make requirements of the student and family.

Teacher Evaluation

Each professional and administrative employee is assigned to a supervisor who is responsible for evaluating the employee's job performance. The Director/CEO is responsible to assure that proper supervision and evaluation are accomplished. (Policy # 0816.01 & # 0816.03)

The administration evaluates each teacher four times during the school year using a rubric based upon The Standards for Quality Online Teaching as developed by Southern Regional Education Board and adopted by The North American Counsel for Online Learning (iNACOL). Implementation of this tool as a means of feedback and evaluation enabled teachers to focus on

specific skills and modify their teaching practice to enhance their students' online learning experience as well as their achievement. As a part of the evaluation process teachers can earn up to 12% merit.

Supervisors also evaluate teachers using the standard PDE evaluation to ensure all Pennsylvania teaching standards are assessed as well. A portion of the individual evaluation includes the development of and reflection upon his or her professional goals. Evaluators have educational, supervisory, special education, and cyber backgrounds so expertise is based on previous experience and ongoing training.

SECTION V. GOVERNANCE REQUIREMENTS

Leadership Changes

The 21CCCS's Board of Trustees is made up of four area intermediate unit (IU) executive directors, eight area school district superintendents, and one parent of a 21CCCS student. The bylaws of the 21CCCS mandate the annual election of the Board of Trustee officers and members. For the 2008-09 election, Dr. Thomas Newcome, Superintendent of the Octorara Area SD, was elected Chairperson of the Board. Dr. Newcome and the four IU Executive Directors make up the Executive Committee. Dr. Joseph O'Brien, Executive Director of Chester County IU was elected into the Vice-Chairperson seat at a special election for the remainder of the 2008-09 school year after Dr. Alan Elko of West Chester Area SD resigned from the seat at the September 24, 2008 Board Meeting.

The current IU Executive Directors are Dr. Barry Galasso at the Bucks County IU (BCIU), Dr. Joseph O'Brien at the Chester County IU (CCIU), Dr. Lawrence O'Shea at the Delaware County IU (DCIU), and Dr. Jerry Shiveley at the Montgomery County IU (MCIU). Dr. Lawrence O'Shea joined the board at the January 27, 2009 Board Meeting after he took the permanent seat as the Executive Director at the DCIU.

Mr. Mark Klein, Esq. - Superintendent of the Council Rock SD and Dr. Francis Barnes - Superintendent of the Palisades SD continue to fill the Superintendent seats for Bucks County. Dr. Thomas Newcome - Superintendent of the Octorara Area SD continues to fill one of the Superintendent seats for Chester County. Dr. Raymond Fischer — Superintendent of Oxford Area SD filled the vacant Chester County seat after Dr. Alan Elko retired from his Superintendent position at the West Chester Area SD, therefore resigning his position on the 21CCCS Board. Dr. Gregory Thornton - Superintendent of the Chester-Upland SD holds one of the seats for Delaware County while the other seat remains vacant. Dr. Anthony Costello - Superintendent of Garnet Valley SD resigned his seat at the January 27, 2009 Board Meeting. The Montgomery County Superintendent seats are filled by Dr. Christopher McGinley - Superintendent of Lower Merion SD and Dr. William Kiefer - Superintendent of Cheltenham Township SD. The Parent seat remains filled by Mrs. Kathryn Emmel, mother of two 21CCCS students (11th & 12th Grade) and one 2006 21CCCS graduate.

Dr. Russell Gallagher joined 21CCCS as the Principal in February 2009

Board of Trustees

Name of Trustee	Office (if any)
Dr. Barry Galasso	Bucks County IU
Dr. Joseph O'Brien, Vice-Chairperson	Chester County IU
Dr. Lawrence O'Shea	Delaware County IU
Dr. Jerry Shiveley	Montgomery County IU
Dr. Francis Barnes	Palisades SD
Mr. Mark Klein, Esq	Council Rock SD
Dr. Raymond Fischer	Oxford Area SD
Dr. Thomas Newcome, Chairperson	Octorara Area SD
Dr. Gregory Thornton	Chester-Upland SD
Mrs. Kathryn Emmel	Parent
Dr. Christopher McGinley	Lower Merion SD
Dr. William Kiefer	Cheltenham Township SD

Professional Development (Governance)

Given the background, expertise, and continual training completed by the Board in their primary positions very little professional development is necessary. When a topic or concern specific to the cyber environment arises, the CEO arranges any necessary professional development to ensure the Board is adequately informed. Board members are also provided the opportunity to attend the Virtual School Symposium (VSS) held by the International Association for K-12 Online Learning. The 2008 Symposium was attended by two Board Members.

Coordination of the Governance and Management of the School

Due to the unique make up of the Board of Trustees for the 21CCCS, other than the parent on the board, each of the eight Superintendents and the four IU Executive Directors have a solid working relationship with PDE. The Superintendent for the school district, which sponsored the original charter, West Chester Area School District, held a seat on the Board until he resigned at the September 27, 2009 and was the Vice Chairperson for three of those years.

Coordination of the Governance and Management of the School - Attachment

- Board Meeting Dates

Community and Parent Engagement

To ensure Community and Parent Engagement a parent representative fills one seat on the Board of Trustees. The Minutes from board meetings are posted in CyberSchool Announcements, a discussion group for parents, staff, and students. The Board Meetings are all advertised local newspaper and on the school web site inviting the community and parents to attend. All meetings are open to the public as required by the Sunshine Act.

Each month the school organizes a monthly field trip for all students and their families. Not only is it recommended that parents attend the trips, at least one parent or guardian is required to attend the trips with their child due to supervision and transportation needs. The parent on the Board attends most of the field trips in order to interact with parents and staff.

Throughout the school year numerous open houses are held. The open houses are available to the public and are advertised on the school's website and through other varied sources.

In an effort to increase communication with students and the community at large 21CCCS created a school PTO at the start of the 2006-07 school year. The parent representative to the Board was a regular participant in the meetings during the 2007-2008 school year. Parents noted that they would like the opportunity to meet more often and in the fall of 2008 the PTO meetings were incorporated into the monthly field trips. The meetings were an opportunity for the staff to share information with the parents, for the parents to share ideas and concerns with each other, and for the group as a whole to create a stronger sense of community within the school.

The PTO generated the idea to complete a community service project in December 2006 across the commonwealth during which students participated in small groups at different locations to create blankets for homeless shelters and this idea was continued in December of 2007. During the 2008-09 school year a community service component was also added to each field trip. The service projects varied from food drives, with donations being delivered to food banks where the field trip took place, to donations of recyclables for the Ronald McDonald House charity. Those who wanted to participate but could not attend the service project participated in various projects in their own communities and shared this information with the group. While still continuing to grow the PTO will continue to meet during the 2009-10 school year to further enhance the connections between the school community and the community at large.

SECTION VI. FINANCIAL RESPONSIBILITIES

Major fund-raising activities

There were no major fund-raising activities during the 2008-09 school year and there are none planned for the 2009-10 school year.

Fiscal Solvency Policies

In order to maintain steady cash flows, school districts are billed on a regular and timely basis. Subsidy deductions, as allowed by PDE, are requested periodically during the year. The Board has approved a number of major expenditures to come out of the fund balance during the 2008-09 school year in part because some school districts have chosen not to pay on a timely basis. During the 2008-09 school year the Board approved \$123,000 to be used for those purchases (\$26,000 for summer school course, \$27,000 for a solar panel, and \$70,000 for online course development). In addition, the Board approved a five-year facility lease in the 2007-2008 school year, and the school has relocated from the Chester County Intermediate Unit in Downingtown, PA to the new facility in Exton, PA. New furniture, fixtures, wiring, and relocation expenses associated with the facility lease and move have been incurred in the 2008-2009 school year from a designated fund balance account totaling approximately \$858,000 (\$500,000 for rent, \$200,000 for furniture and fixtures, and \$158,000 for additional contracts and services related to the facility move).

As part of the procedures put in place by the 21CCCS Board and the CCIU, purchases over \$4,000 require additional pre-approval by a CCIU Division Director, and purchases in excess of \$10,000 and any long-term lease commitments are voted on by the Board of Trustees. All purchases are approved by the Board in an Expenditure Report at each board meeting.

Accounting System

The CCIU provides financial services to the 21CCCS. For the 2008-09 fiscal year, the CCIU utilized Government e-Management Solutions (GEMS) software in conjunction with the PA Chart of Accounts for PA Public Schools for budgeting, accounting, and financial reporting on behalf of the 21CCCS. All financial reporting conforms to Generally Accepted Accounting Principles (GAAP) as stated in the Independent Auditor's Report dated February 12, 2009 presented by Herbein & Company Inc.

Audit Firm, Date of Last Audit, Auditor's Opinion, and Any Findings Resulting From the Audit

Herbein & Company, Inc., located in Reading, PA, audited the financial statements of 21CCCS for the year-ended June 30, 2008 and issued an unqualified opinion on February 12, 2009.

Audited financial statements for the year-ended June 30, 2009 are currently not available. Herbein & Company, Inc. are expected to begin fieldwork on the 2008-09 financial statement audits of both the CCIU and the 21CCCS in October 2009. A completion date for the audit cannot be provided at this time.

Citations and follow-up actions for any State Audit Report

The Department of the Pennsylvania Auditor Generals Office, Bureau of School Audits, began the audit of the 21CCCS on August 20, 2007 for the years ending June 30, 2004, 2005, and 2006 and in certain areas extending beyond June 30, 2006. On November 30, 2007 Auditor General's office requested an additional Audit by the IT Division of the Auditor General's office.

"The results of our tests indicated that, in all significant respects, the 21st Century Cyber Charter School was in compliance with applicable state laws, regulations, contracts, grant requirements, and administrative procedures falling within the scope of our audit, except as noted in the following finding. We also identified internal control weaknesses as discussed in the observation."

21CCCS responded to the Department of the Auditor General's Office as required stating that both the finding and observations were addressed by the implementation of procedures that will prevent a recurrence of these issues. These procedures implemented and actions taken were reported to PDE in a Audit Response Letter to the Bureau of Budget and Fiscal Management.

* Finding — In Violation of the Public Official and Employee Ethics Act, Certain Charter School

Personnel Failed to File Statements of Financial Interests at Some Time During the Audit Period
* Observation — Unmonitored Vendor System Access and Logical Access Control Weaknesses

SECTION VII. FACILITY RESPONSIBILITIES

Acquisition of Facilities, Furniture, Fixtures, and Equipment During the Last Fiscal Year

The school's physical facility was relocated to Exton, PA in November of 2008. A five-year lease of the office space was approved by the Board of Directors at the June 24, 2008 special meeting continuation, which was held on July 21, 2008. The current portion of the 5-year lease is \$100,000. In addition, approximately \$200,000 was spent on furniture and fixtures and \$158,000 on additional contracts related to the facility relocation. 21CCCS continues to maintain three workspaces at the CCIU as services will continue to be provided by the CCIU such as Human Resources and Business Services.

Approximately \$170,000 was spent throughout the year with several vendors to purchase computer hardware and software. These purchases were necessary to outfit new staff and to replace obsolete equipment for both staff and students. Other items approved for purchase were \$70,000 for additional online courses to enhance the learning environment.

Future Facility Plans and Other Capital Needs

At this time there are no plans for any facility changes or capital purchases for the 2009-10 school year.

At this time there are no plans for any facility changes or capital purchases for the 2009-10 school year.

During the 2008-09 school year, 21CCCS leased and took occupancy of a building located in close proximity to the CCIU facility in Downingtown, PA. 21CCCS continues to maintain three workspaces at the CCIU as services will continue to be provided by the CCIU such as Human Resources and Business Services.

In prior years 21CCCS has capitalized computer purchases due to the gross annual expense incurred. This year it has been decided to expense computer purchases rather than capitalize at a per unit cost which falls under the capitalization procedure utilized by the accounting department. Computer purchases will now be classified as an operating expense.

SECTION VIII. HEALTH AND SAFETY RESPONSIBILITIES

Compliance With Health and Safety Requirements and Maintenance of Health and Immunizations Records for Students

All student health and immunization records are maintained at this office under the guidance of a certified school nurse (CSN) employed by 21CCCS. Mandated screenings are done by the CSN or the student's personal care provider. Staff follows all required trainings, drills and schedules as directed by the Chester County Intermediate Unit.

21CCCS submitted the SHARRS report for reimbursement, and received a reimbursement check on 1/20/09 for \$8,341.04 from the DOH School Health Services.

21CCCS follows the policies and procedures of the Chester County Intermediate Unit including the Wellness Policy, in place as of July 1, 2006.

SECTION IX. ADMINISTRATIVE NEEDS

Quality of Teaching and Other Staff

The 2008-09 school year ended with 21 full time teachers, two teaching assistants, two guidance counselors, one student support manager, one associate director, one special education coordinator, one coordinator of curriculum and instruction, two full time technology help desk personnel, one registrar, one school secretary, one administrative assistant, one principal, one part-time learning coach, one part-time school nurse, one part time supervisor of special education, and the CEO. Two of the 39 staff members are from the school's first year; two are from the second year; three are from the third year; three are from the fourth year, eight are from fifth year, seven are from the sixth year, four are from the seventh year, and six are from the current year. Administration hired three teaching staff, one Principal, one part-time Supervisor of Special Education, one part-time Learning Coach, and three Technology Help Desk positions

during the 2008-09 school year. The teachers are all licensed in their subject area with Pennsylvania certificates on file at the 21CCCS Administrative Offices and at the Chester County Intermediate Unit.

This growth in staffing is concurrent with the growth of students served and was necessary to replace staff who resigned. Three resignations and/or terminations occurred this year prior to the end of the school year. This number is consistent with the prior year's percentage and the market, as well as predicted by administration. The school offers a number of incentives to retain good staff including; flexible work schedule, excellent benefits, merit pay, and extensive professional development opportunities.

A continuing challenge for the school is recruitment from other schools and school districts of our trained online staff. As online education continues to grow in popularity, and because 21CCCS has continually hit the AYP targets, the staff of 21CCCS receives this type of attention. While many of the incentives mentioned above have been cited by staff as a reason for remaining with 21CCCS, the salaries currently offered for more senior staff are not commiserate with the surrounding market. The administration was given approval by the Board to research a means to increase the likelihood of retaining staff that have shown success in the online setting. Therefore, as teachers continue to increase their skills in this setting they will also be able to increase their salaries and not feel the need to look at other schools for competitive earnings.

Student Enrollment

The admission process is designed to determine the appropriateness of an asynchronous environment for any given student as a potential cyber school candidate. 21CCCS will not discriminate in its admission or any other policies on the basis of race, color, national origin, sex, or handicap. Students enroll in 21CCCS at specific times of the year to correspond with the approved school calendar. Should the facility receive more applicants than there are available spaces, a waiting list and lottery system will be initiated.

Throughout the enrollment process, all student information is cross-referenced with multiple sources to ensure accuracy. The information provided from the student's parent/guardian is compared to information received from the student's previous school, copies of the birth certificate, and proof of residency. In addition, the home school district given by the parent is cross-checked against the home address using U.S. Census data to ensure accuracy of billing.

The enrollment process starts with an initial inquiry typically completed online which entails a brief questionnaire designed to assess the appropriateness of a cyber school for the student. Once this is completed, 21CCCS enrollment advisors contact the family by phone to discuss the school, the potential student, and the appropriateness of placement of the student in a cyber school. Following the phone conversation, the students are given access to 21CCCS's "sample lesson", an evaluative survey of the pros and cons of attending school in an asynchronous, online environment. It provides an opportunity to experience the look and feel of an online class while also allowing the student to voice his or her own opinions and thoughts to 21CCCS's enrollment advisors.

If, following the completion of the sample lesson, a family wants to enroll their child, the registrar provides access to a secure online form which uses the self-reported data to generate the enrollment paperwork. Once the form is submitted, 21CCCS prints and mails the enrollment

packet to the parent or guardian for completion. Once the packet is completed and returned, along with the required documentation such as prior school transcripts or home school evaluations, the student is enrolled for the next start date, and enrollment notification forms are sent to the state and the local school district. All information is then filed securely.

In order to re-enroll the registrar mails each family a re-enrollment form, computer lease, and a current Student and Parent Handbook. Once the required forms are completed and returned, the student is re-enrolled for the following year.

In order to re-enroll the registrar mails each family a re-enrollment form, computer lease, and a current Student and Parent Handbook. Once the required forms are completed and returned, the student is re-enrolled for the following year.

Enrollment History for 2008-09:

<u>Grade</u>	<u>Initially Enrolled</u>	<u>Dropped</u>	<u>Added</u>
6th	16	7	5
7th	36	4	12
8th	62	19	12
9th	101	23	18
10th	116	30	21
11th	107	17	21
12th	77	7	3

341 students are currently re-enrolled from the 2008-09 school year for the 2009-10 school year.

21CCCS did not require any students to leave the school during the 2008-09 School Year, although 6 students were removed from active membership for reaching ten consecutive school days of no participation as required under Section 11.24 of the PA Code. No expulsions were necessary. 101 students chose to withdraw from 21CCCS during the 2008-09 school year. In exit interviews, the reasons stated most often for leaving cyber school were: student not suited to cyber environment, student desire for more social interaction, and lack of student motivation.

Enrollment Trends: Each year the school increases the number of returning students

School Year	# Returning Students
2004-05	174
2005-06	181
2006-07	263
2007-08	285
2008-09	329
2009-10	341 (tentative)

This increase in returning students, particularly the dramatic increase from 2005-06 to 2006-07, is attributed to the increased number of classes developed and taught by 21CCCS teachers (versus third party classes and teachers), a focus on increasing communication with students and parents, and improvements in tracking and reporting of student progress.

Student Enrollment - Attachment

- SchoolsTransferredTo

Transportation

21CCCS is an online school, and transportation is not typically required. In a prior year 21CCCS did have a student that attended an alternative school, and per the Cyber BEC 2006 it became the responsibility of 21CCCS to manage and pay for these services. The 21CCCS Special Services Coordinator managed transportation with the home district, secondary location and transportation providers.

Food Service Program

21CCCS is an online school and no food services are provided. The school does, however use the requirements of the Federal Program to determine if students get a price reduction on field trips, yearbooks, cap & gown, etc.

Student Conduct

The student code of conduct primarily addresses three aspects of student behavior as 21CCCS is an online school: academic integrity, school attendance, and the use of school technology. Students and families have due process procedures stated in their student handbook. Violations of the Student Handbook policies and procedures may result in disciplinary measures. If the student has an IEP, or is receiving any special education services, the Special Services Coordinator is consulted and is involved with any team decisions. Law enforcement agencies are contacted if any student behavior violates a local, state, or federal law.

The Administrative Review Team was put in place to help with both academic integrity and attendance issues and to help support students who have been identified as being academically at-risk, defined as students not participating in a class, participating just enough to get by, and/or not working up to their ability. The team is composed of the Director, the Associate Director, the Student Support Manager, and the Special Services Coordinator (Special Education & Guidance Services), a Guidance Counselor, and a teacher of the student.

According to procedure, 21CCCS supplies Internet access accounts to students who require it and technology to each child enrolled. Students are required to use the technology and access accounts supplied by the school responsibly. 21CCCS will cooperate fully with local, state, or federal officials in any investigation concerning or relating to any illegal activities conducted with school accounts or equipment. The Charter Board implemented an Electronic Search policy in 2007-08. Disciplinary actions will be tailored to meet specific concerns related to the violation, and to assist the student in gaining the self-discipline necessary to behave appropriately on an electronic network.

During the 2008-09 school, year no students were suspended. During the 2008-2009 school year, no students were expelled.

Chapter 12 Student Services is stated in the student handbook. The Charter Board implemented a Freedom of Expression policy in 2007-08. The student due process procedures are listed in the student handbook as part of the Student Code of Conduct and follow Chapter 12 of the Public School Code.

Assurance for the Operation of Charter School Services and Programs

School Year: 2008

The 21st Century Cyber CS within Chester County IU 24 assures that the charter school will comply with the requirements of 22 Pa. Code Chapter 711 and with the policies and procedures of Pennsylvania Department of Education (PDE). PDE will specify, in writing, policies and procedures to be followed. Requests for any deviations from these regulations, policies, and procedures must be made in writing to PDE. The charter school assures:

1. There are a full range of services, programs and alternative placements available for placement and implementation of the special education programs in the charter school.
2. The charter school has adopted a "child find" system to locate, identify and evaluate children who are thought to be a child with a disability eligible for special education residing within the charter school's jurisdiction. "Child find" data is collected, maintained, and used in decision-making. Child find process and procedures are evaluated for effectiveness. The charter school implements mechanisms to disseminate child find information to the public, organizations, agencies, and individuals on at least an annual basis.
3. The charter school has adopted policies and procedures that assure that students with disabilities are included in general education programs and extracurricular and non-academic programs and activities to the maximum extent appropriate in accordance with an Individualized Education Program.
4. The charter school will comply with the PA Department of Education annual report requirements including special education information.
5. The charter school follows the state and federal guidelines for participation of students with disabilities in state and charter school-wide assessments including the determination of participation, the need for accommodations, and the methods of assessing students for whom regular assessment is not appropriate.
6. The charter school assures the Pennsylvania Department of Education that funds received through participation in the medical assistance reimbursement program, ACCESS, will be used to enhance or expand the current level of services and programs provided to students with disabilities in this local education agency.

This assurance must be signed by the Board President and the Chief Executive Officer for the charter school to operate services and programs.

Assurance for Compliance with the Public Official & Employee Ethics Act

The original Public Official and Employee Ethics Act (the "Ethics Act") was amended and reenacted in 1989 by Act 9 of 1989 and in 1998 by Act 93 of 1998. (See Act 9 of 1989, 65 P.S. §401, et seq. and Act 93 of 1998, Chapter 11, 65 Pa.c.s. §1101 et seq.) The Act provides that public office is a public trust and that any effort to realize personal financial gain through public office is a violation of that trust. The Act was passed to strengthen the faith and confidence of the people of the Commonwealth in their government. The Act established the State Ethics Commission to administer and enforce the provisions of the Act and to provide guidance regarding the standards established by the Act.

The 21st Century Cyber CS assures that it will comply with the requirements of the Public Official and Employee Ethics Act (the "Ethics Act") and with the policies, regulations and procedures of the Pennsylvania State Ethics Commission. Additional information about the "Ethics Act" is available on the Ethics Commission's website at: <http://www.ethics.state.pa.us/ethics/site/>

The assurance must be signed by the Chief Executive Officer and Board of Trustees President of the charter school.

There is currently no contact information saved.
