SECTION I. EXECUTIVE SUMMARY

Educational Community

The Center for Student Learning Charter School at Pennsbury (CSL) was opened to students in 2002 as a State approved alternative education program. Throughout each year of operation, CSL has continued to grow in enrollment, facility, and educational programs. CSL opened this school year in a newly renovated building located in Tullytown Borough and continues to serve students from surrounding districts, including Bensalem, Bristol Borough, Bristol Township, Morrisville, Neshaminy, Pennsbury and Philadelphia. The Center for Student Learning Charter School's new facility has the capacity to become home to one hundred and eighty students.

CSL has always maintained a mission to serve at-risk students who benefit from the alternative learning environment, small group instruction and the learning environment by focusing on providing a program centered on meeting students at their academic level and thus providing them with a learning environment that is more personal. CSL maintains an average class size of fifteen students. Students are required to successfully complete four credits in English, Mathematics, Social Studies and Science and must acquire two credits of both Physical/Health Education and Art. High school and middle school students are given opportunities to enhance their academic skills through small group and one-on-one instruction. Service learning and community service are also encouraged at the school.

The Center for Student Learning Charter School at Pennsbury held their eighth commencement ceremony on Monday, June 21, 2010. This year's graduating class, the largest to date, included 26 students who had successfully met the graduation requirements. 86% of the graduates are continuing onto higher education. The school is proud of its individualized approach to education. Students often come from other districts with low assessment scores, The Center for Student Learning is able to advance the students to a level where they will contribute positively to society upon graduation.

Mission

The purpose of the Center for Student Learning Charter School at Pennsbury (CSL) is to provide a safe and positive educational atmosphere, foster an optimal academic opportunity, cultivate emotional, social, and vocational growth, and present a forum for personal expression for at-risk students who would benefit from an alternative learning environment.

Vision

B. The vision of the Board of Trustees is that the Center for Student Learning will provide a superior model for the education of students who are not experiencing success in the school environment. The targeted population for the Center for Student Learning is at-risk students who are having difficulty achieving success in the middle school or high school environment. Students who will benefit from the CSL program will exhibit any or all of the following characteristics: poor school attendance, multiple discipline referrals, multiple subject failures, and/or patterns of disruptive behavior. These characteristics may result from unique learning needs, environmental factors, and/or medical or behavioral restrictions. The founding coalition also envisions the middle school component of the CSL program as providing a pro-active approach to meeting the needs of middle school at-risk learners before they develop the characteristics listed above.

The philosophy of the Center for Student Learning program is to meet the needs of the individual student. Specific curricula, methodologies, and activities that are referenced in this application are intended to provide a representative description of appropriate curricula, methodologies, and activities. Other curricula, methodologies and activities may be used as appropriate when necessary to meet the need of the individual learner.

Shared Values

Lifelong Learning is the pursuit of knowledge and a commitment to achievement of potential.

- Each person should be encouraged to achieve his or her full potential and ability and to respect the achievements of others.
- Each person should be encouraged to develop critical thinking, creative imagination, interpersonal and vocational skills, and basic competencies in the various forms of disciplined inquiry.
- Each person should be equipped with the tools to critically examine worldviews, especially those dominant in his or her background and school community.

Respect for Self and Others

- Each person is unique and that uniqueness should be encouraged to develop self-respect and dignity.
- Each person has freedom of will, is responsible for his or her own conduct and will be encouraged to take responsibility for that conduct and to recognize the need for truthfulness and integrity.
- Each person should welcome opportunities for learning and allow others to learn.
- Each person differs in his or her readiness and ability to learn and has the right to be given access to available knowledge at a level appropriate to his or her developmental needs and interests.

- Each person has the right to learn in an environment free from harassment and discrimination.
- Each person should strive to work cooperatively and to resolve conflict peacefully while respecting differences and valuing the other person.

Respecting the Rules of the Learning Community

- Each person should respect the rules and demonstrate appropriateness of behavior.
- We have created a 'Life Skills' elective course, revolving around PA Community Responsibility anchors, in order to help prepare students for issues they will face in everyday life.

Strategies of Conflict Resolution will be used to combat coercion and confrontation.

- We are a Bully Free School.
- We utilize the services of NOVA, (Network of Victim Assistance) for multiple student and staff presentations.
- We will utilize our certified Counsellors to mediate small group sessions.
- We have created a 'Life Skills' elective course, revolving around PA Community Responsibilty anchors, in order to help prepare students for issues they will face in everyday life.
- We will begin to implement the Restorative Practices approach to discipline in 2010-2011.

Academic Standards

CSL follows the Pennsylvania State academic standards to ensure that the curriculum is grade level appropriate and rigorous. We refer to the local districts' curriculum guides to ensure that we are keeping pace with sending districts. The curriculum is organized in such a way that all students in the alternative environment meet graduation requirements through the successful completion of four credits in all major subject areas. We are continuously revising our curricula based on the PA Standard Aligned System and recognition of our students proficiency.

Strengths and Challenges

Since 2007, we have been conducting specific team meetings, based on our school-wide improvement plan. In 2009-2010, we proposed revised plans to our Board of Trustees, to be implemented in 2010-2011. The CSL Strategic Planning teams will continue to focus on our areas of concern throughout the 2010-2011 school year.

Proposals Included:

- 1. Annual Climate Surveys for all Staff (1st set completed- June, 2010)
- 2. Restrucured Administrative Staff

- 3. Increased Spending on Technology for Classrooms
- 4. Revised Student Discipline Code of Conduct and Consequences

Remaining Areas of Concern:

- 1. Abundance of behaviorally challenged students
- 2. Facility limitations in terms of space (science labs, pull out programs, restroom accomodations)
 - 3. Low parental involvement
 - 4. Student attendance
 - 5. Lack of local standardized assessments
 - 6. Curriculum demand
 - 7. Public relations (lack of understanding of sending schools regarding CSL mission)
 - 8. Lack of reading specialist
 - 9. Limited electives

Focal Points in 2010-2011:

- 1. Broadening Options for Elective Courses
- 2. Public Relations
- 3. Updating and Revising Currucula and Assessment
- 4. Improving Overall Communications
- 5. Restorative Practices for Combatting Discipline Issues

SECTION II. STRATEGIC IMPROVEMENT PLANNING

Strategic Planning Process

The Center for Student Learning Charter School at Pennsbury has approached the task of developing their strategic plan as an opportunity to complete a self-assessment to further develop a school vision that is consistent with the values and beliefs of their stakeholders.

The CSL administration identified a group of stakeholders that would be able to provide a view of CSL through various perspectives and make it possible for these individuals to come together with the common goal of school improvement. It was explained to the strategic planning team that the development of a strategic plan is an ongoing process of assessment including data collection, the analysis of the data, the setting of goals and priorities, the development of an action plan, the monitoring of the plan and the evaluation of the impact on student achievement.

The strategic planning team met November 26, 2007, January 30, 2008, February 19, 2008, March 24, 2008 and April 11, 2008. Each of these strategic planning meetings assembled for six hours for an initial thirty hours of strategic planning. The strategic planning process at CSL was led by a former superintendent of the Pennsbury School District.

During the strategic planning process meetings, there were numerous areas and issues discussed. Some of these issues and areas for discussion included: CSL Belief Statements, Mission Statement, CSL Strengths and Weaknesses, External Analysis involving factors, and assumptions and impacts. Meetings also included tasks to be completed as well as key talking points. The team addressed many strategic priorities and eventually agreed on five strategic priorities. The team was broken down into five groups focusing on the following strategies:

Team #1 Facilities: Will examine the various options for the improvement of the CSL facility and the issues it currently presents.

Team #2 Enrollment and Attendance: Will improve the enrollment process to ensure that the school and enrollee are made aware of all information from both sides and to ensure all information from enrollee is disclosed. We will create an attendance policy that will match Pennsylvania State and alternative education requirements as well as charter school law. We will sustain attendance by offering incentives to students as well as rewarding those students and classes with strong attendance.

Team #3 Student Discipline: Will redefine student discipline procedures and policies by researching effective discipline policies and developing strategies for implementation and consistent enforcement.

Team #4 Staff Attraction / Retention: Will form a committee with the purpose of evaluating the creation of a performance based incentive system for teachers and staff.

Team #5 Student Assessment: Will develop and implement procedures to identify and address student baselines to achieve optimum academic performances.

Each of the five teams compiled action plan steps for their team strategy. They were as follows:

Team #1 Facilities, Action Plan: (updated for 2010)

This team completed the primary objective of improving the CSL facility. We opened our doors in a new building, on our own property, September 9th, 2009. We are still meeting to determining how to successfully utilize the space we have and meet the demands of any anticipated growth accordingly.

Team #2 Enrollment and Attendance, Action Plan: (updated for 2010)

After the staff bought in to our growth process and our new building was completed, Our enrollment grew to over 160 students, from 147 in 2008-2009. Our enrollment process is now being revised to be certain that students are provided with the appropriate placement. A new brochure was created to assist in improving our public relations and enrollment.

Team #3 Student Discipline, Action Plan: (updated for 2010)

At the end of the 2009-2010 school year, the Discipline Committee presented our school board with a revised Student Code of Conduct and Consequences, to be utilized during the 2010-2011 school year. It was accepted and will be implemented.

The Board and administration will make efforts to standardize the new procedures and ensure that all teachers, mentors, students, and parents have access to the policies.

Team #4 Staff Attraction / Retention, Action Plan: (revised from 2009)

- a. Created a committee to explore the performance based incentive systems.
- b. Create guidelines for assessments.
- c. Researched how other school districts have implemented performance based incentive systems.

Team #5 Student Assessment, Action Plan: (revised from 2009)

- a. Develop a standardized assessment for the initial student enrollment process.
- b. Placed students in groups based upon the data collected through the standardized assessment and staff monitoring and maintain the ability to adjust placements when necessary.

With the completion of the strategic planning process, we stand firm that these strategies and action steps will provide students with a better learning environment and more personalized instruction. The revised plans will be completed, proposed, and expected to be approved by the Center for Student Learning Charter School at Pennsbury's Board of Trustees during the 2010-2011 school year.

Charter school has met AYP.

Statement of Quality Assurance - Attachment

• STATEMENT OF QUALITY ASSURANCE 2009-2010

SECTION III. QUALITY OF SCHOOL DESIGN

Rigorous Instructional Program

The curriculum committee developed the curriculum and aligned it to meet Pennsylvania's anchors and standards. It was written to not only teach the skills the students need to become

competitive in the job market but also to allow scaffolded instruction within a differentiated teaching model. Professional development is used to afford our teachers the skills needed to implement the curriculum. As modifications are made to the standards and anchors, the curriculum committee enhances our curriculum to meet those changes. A complete curriculum guide can be found in the administration offices and individual curriculum guides can be found in the subject area classrooms.

Educators strive to meet the needs of all students. Teaching strategies such as Active Learning, Cooperative Learning, and Inquiry Based Learning are utilized while integrating technology. Active learning allows students to talk and listen, read, write, and reflect as they approach course content through problem-solving exercises, informal small groups, simulations, case studies, role playing, and other activities, all of which require students to apply what they are learning. Cooperative Learning is a systematic pedagogical strategy that encourages small groups of students to work together for the achievement of a common goal. Inquiry Based Learning creates an environment that promotes the "use of inquiry" in the classroom. Inquiry Based Learning provides an opportunity for students to complete exercises on their own, and to allow them to figure out thoughts, ideas, and concepts for themselves. After students have discovered these concepts they then share their knowledge with their classmates which afford a more in-depth study of the concepts. The teacher acts as the catalyst, directing students' interactions, activities, and discussion rather than being the bearer of all information. Our teachers ask open-ended questions then facilitate student-dominated discussions that require the students to think more and to do more. Utilizing these different strategies affords the students the opportunity to use their own learning style when comprehending new materials and to stay actively engaged in the learning process.

The curriculum is designed to ensure that students are actively involved in the learning process and increasingly assume responsibility for their own learning. An important piece of curriculum development is to transform the content into varied and stimulating learning experiences that interest students and help them relate new content to prior knowledge and make connection between school experiences and real world issues. The curriculum is organized on an integrated basis, as often as possible, so that the connectedness of knowledge is clear to students.

The curriculum design focuses on outcomes, with multiple assessments of performance used to determine how well students perform with respect to these outcomes. Pennsylvania's standards and anchors are used to judge student skill performances. Individual Education Plan (IEP) goals and benchmarks are used to determine degrees of success for our Students with disabilities as well. Students that have tested at basic and below basic on the PSSA receive remediation in math, reading and writing. Assessments are given on a weekly basis to determine degrees of success and if reteaching of the skill is required. The emphasis of assessment is on recognizing and encouraging student higher order thinking, problem solving and insight, along with mastery of important information.

English Language Learners

Currently the Center for Student Learning Charter School has no English Language Learners. If a student were to enroll in the school with these needs all state guidelines would be followed regarding evaluation and parent correspondence/input. In addition, appropriate instruction would

be provided for the student. At this point, an ELL report is not applicable.

There are currently no supporting documents selected for this section.

Graduation Requirements

All students are required to earn passing grades in twenty four (24) credit units in grades 9-12 to meet the requirements for graduation. These 24 units must be so distributed as to enable the students to complete four (4) credits of each Language Arts, Math, Science, and Social Studies. In addition the students must complete two (2) credits in Physical Education/Health, two (2) credits in Arts/Humanities, and four (4) credits of electives.

All Students are required to complete a culminating project prior to graduation. A Graduation Project Handbook and Materials are provided to each student to instruct and guide them in completing this requirement for graduation. The Graduation Project must contain a written, an oral, a visual, and a technological component. The Graduation Project is presented to a panel of three staff members. The panel scores the project by reviewing the students' portfolio and presentation, using a rubric rating six categories (Understanding, Form, Preparedness, Content, Process, and Organization) with a maximum score of three points in each. The student must receive an average score of twelve for an acceptable evaluation.

All students shall demonstrate proficiency on either the Pennsylvania State System Assessment (PSSA) in reading, writing and mathematics administered in grades 11 or with a comparable local assessment or courses provided by the Center for Student Learning Charter School and aligned with the academic standards and anchors.

Students with disabilities, who satisfactorily complete a Special Education Program developed by the Individual Educational Program (IEP) Team, shall be granted and issued a regular high school diploma. This would apply only if the Special Education Team has determined that this decision is in the best interest of the student with a disability. This shall be in accordance with Individuals with Disabilities Act.

Special Education

The Center for Student Learning Charter School provides a free, appropriate public education to all of its students, including students with disabilities who need special education and related services. State and federal statutes and regulations guide the charter school in locating, assessing and planning for the needs of its exceptional students. Screening activities are conducted at each grade level to identify educational needs of its students.

There are 3 levels of the screening process:

Level 1: Screening at this level includes a review of a student's health records, report cards, overall classroom performance and review of standardized testing.

Level 2: At this level, there is screening in vision, hearing or motor development.

Level 3: Students who are experiencing academic or other difficulties are referred for this level.

Parents are always regarded as required and important members of this process.

If a student is identified through the above screening process as a student that needs more supports in order to be successful, a request is made to the Multi-disciplinary Team. This team includes the parents, teachers, principal, support staff and others who may assist in identifying the strengths and needs of the student. A permission to evaluate is sent to the parents and once received an evaluation begins. Through this evaluation, data is gathered on the students overall performance and it is determined if the student is eligible for Special Education services. A meeting is held (with the parents) to discuss the results and an IEP (if appropriate) is created. Also included in this meeting are explanations of the forms being presented (IEP, ER, NOREP, Procedural Safeguard Notice and any other appropriate forms).

Once it is determined what services and supports the student needs (through the IEP) it is put into place the day following the meeting. At the Center for Student Learning, all students are in a full inclusion program with pull outs only as needed. Related services are provided as well. These services include but are not limited to Speech Therapy, Art Therapy and Occupational Therapy. One on one support services are also provided. Most of the related services are provided through Bucks County Intermediate Unit #22.

Strategies that are used to support students with special needs are small class sizes and individualized instruction. Also included in the strategies are each student's individual accommodations and modifications as put forth in the IEP.

Student Assessment

PSSA, curriculum based assessments and standardized test data are analyzed by our teachers, administrators and staff. Curriculum is then modified to address areas of deficiency. Professional development is created based on discrepancies between student progress and instructional strategies. We utilize the continuous improvement model design to then create goals and objectives which are taught, tested, then analyzed. This model affords us the opportunity to build on student success while addressing students' needs. State and federal statutes and regulations guide the charter school in locating, assessing and planning for the needs of its exceptional students. Screening activities are conducted at each

State and federal statutes and regulations guide the charter school in locating, assessing and planning for the needs of its exceptional students. Screening activities are conducted at each grade level, upon enrollment and beginning each year, to identify educational needs of its students. There are 3 levels of the screening process:

Level 1: Screening at this level includes a review of a student's health records, report cards, overall classroom performance and review of standardized testing.

Level 2: At this level, there is screening in vision, hearing and motor development.

Level 3: Students who are experiencing academic or other difficulties are referred for this level.

Parents are always regarded as required and important members of this process.

If a student is identified, through the above screening process, as a student that needs more supports in order to be successful, a request is made to the Multi-disciplinary Team. This team includes the parents, teachers, principal, support staff and others who may assist in identifying the strengths and needs of the student. A permission to evaluate is sent to the parents and once received an evaluation begins. Through this evaluation, data is gathered on the students overall

performance and it is determined if the student is eligible for Special Education services. A meeting is held (with the parents) to discuss the results and an IEP (if appropriate) is created. Also included in this meeting are explanations of the forms being presented (IEP, ER, NOREP, Procedural Safeguard Notice and any other appropriate forms).

Once it is determined what services and supports the student needs (through the IEP) it is put into place the day following the meeting. At the Center for Student Learning, all students are in a full inclusion program with pull outs only as needed. Related services are provided as well. These services include but are not limited to Speech Therapy, Art Therapy and Occupational Therapy. One on one support services are also provided. Most of the related services are provided through Bucks County Intermediate Unit #22.

If a student does not qualify for Special Education services, teachers continue to monitor their progress in the classroom through observation, grading systems and informal meetings with both the students and other related staff members and faculty.

Strategies that are used to support all students are small class sizes and individualized instruction. A point system is also in effect throughout each classroom, monitoring their participation, preparedness and task completion. Also included in the strategies are each student's individual accommodations and modifications as put forth in the IEP, if applicable.

In addition, when our PSSA or PSSA-M scores are received, we review and revise our courses that are offered and the curriculum that is presented. If students do not demonstrate mastery on certain subject areas or material we focus on development of those areas for the next school year, as well as remediation for those students who did not score proficient.

Student Assessment - Attachment

Special Education Policy and Procedures

Teacher Evaluation

The main features that drive CSL's teacher evaluations are: Teaching Methods Employed, Knowledge of Subject Matter, Classroom Management, and Rapport with Students. Informal and formal observations are equally as important in maintaining our teachers' success. Through the formal process, a pre-observation conference meeting takes place between the teacher and observer, to discuss expectations and plans. The Teacher is observed, then a post-observation conference is held to discuss successes and areas of concern. If a teacher is in need of improvement, a plan is developed and support systems are put into place. The Principal and Assistant Principal are responsible for facilitating evaluations and development plans. Evaluators attend workshops designed to ignite leadership skills and teach strategies. The IU 22 has been an avenue of resources to teach techniques and inform regarding special education issues. The instructional strategies that are unique to our school are: small group instruction with a 15-1 student ratio and differentiated instruction with a hands-on component.

SECTION V. GOVERNANCE REQUIREMENTS

Leadership Changes

In 2009-2010, the CSL Board of Trustees was led by a new President, while the former President stayed aboard, providing experience, as Vice President. We also developed two new positions including Administrative Intern and Management Assistant. For the 2010-2011 school year, the Administrative Intern was approved to become a full-time Assistant Principal. The Management Assistant will remain the same.

Board of Trustees

Name of Trustee	Office (if any)
Peter LaChance	President
Heather Humienny	Vice President
Daniel DiLorenzo	Treasurer
Thomas Gillette	Secretary
Sally Haywood	Member
Patrick Priore	Member
Norma Lindbloom	Member
Teresa Hinterberger	Member
Elaine Novet	Member

Professional Development (Governance)

The members of the Board of Trustees, and Administrative staff, for the Center for Student Learning Charter School at Pennsbury have the opportunity to attend conferences and workshops. Funds are budgeted to cover expenses. Conferences and workshops must be approved by the Board of Trustees. Members of the Board of Trustees took part in the CSL strategic planning professional development sessions, while Administrators took part in various Leadership conferences throughout the year.

Coordination of the Governance and Management of the School

All decisions regarding the governance and management of the school are decided based on a Board of Trustees vote. The Board of Trustees meets twice a month to discuss items affecting the school. In order to make an informed decision regarding the school, the Board of Trustees requires research-based information, needs analyses data, and student affect analyses data before voting on any agenda item. A majority vote is needed to approve any item. In addition, any member of the Board of Trustees is available to staff members and parents via e-mail or telephone regarding any issue. The Board of Trustees has employed an Executive Director and an Administrative team to carry out the everyday operations and decision making, for The Center for Student Learning Charter School at Pennsbury, following the guidelines they have set forth.

Coordination of the Governance and Management of the School - Attachment

BOT Meeting Schedule 2009-2010

Community and Parent Engagement

The Center for Student Learning Charter School at Pennsbury (CSL), with guidance and direction from the Board of Trustees, in school year 2009-2010 continued to take a pro-active stance on parental involvement in their child's education. CSL employs a partnership model of accountability in its daily operation through the following avenues:

- 1. Welcoming parents into the school and into the classroom: Under the direction of the Board of Trustees, parents are encouraged to visit the school and to visit their child's classroom at any time. "Open House" and "Back to School Night" are planned activities that encourage whole family involvement and facilitate a genuine interest in the opportunities that exists for their child, in the CSL framework. Activities such as 8th grade and 12th grade graduation afford parents an opportunity to celebrate their student's achievements and successes. The Board always welcomes parents comments or concerns.
- 2. Parental Involvement in the Decision Making Process: The Board of Trustees endorses the involvement of family members as participants in committees that create the foundation for school decisions and welcome families to serve as the 'Public' at Board of Trustees meetings.
- 3. Collaborating With the Community: The Board of Trustees engages members from the community as participants in committees that create the foundation for school decisions. In 2009-2010, we collaborated with projects such as Adopt-A-Highway, Support of the USO, the Ronald McDonald House, and other community partnerships.
- 4. Promote Volunteering: The Board of Trustees encourages family involvement as volunteers and applauds that involvement. In 2009-2010, we initiated the process for creating a foundation for a cooperative Parent-Teacher Organization. This PTO will become increasingly involved in the 2010-2011 school year.
- 5. Open Communication between school and family: Communicate with families about school programs and student progress are directives of the Board of Trustees to the CSL staff. Teachers are expected to contact parents for both positive statements of support as well as concerns of issues that the student may be experiencing. Newsletters are to be sent home monthly, outlining what concepts and skills will be taught, study tips, upcoming special events or deadlines, and tips on child development and child rearing. Progress reports are to be sent home quarterly. Teachers communicate with parents on a regular basis through e-mail and the student's academic planner. CSL employs a full-time certified school counselor to assist families and students with community resources, emotional needs, and psycho-social needs.

SECTION VI. FINANCIAL RESPONSIBILITIES

Major fund-raising activities

The Center for Student Learning will actively seek state grants, private grants, and community partnerships to supplement tuition revenue. The School will also continue to pursue federal funding due to the high percentage of impoverished students enrolled. Student/parent fundraising has not been a source of revenue for the School nor is it expected to be so for the 2010 - 2011 school year.

Fiscal Solvency Policies

Fiscal Solvency Policies

All financial decisions and expenditures are approved by The Center for Student Learning Board of Trustees. The expenditure of funds will be controlled by the two-step process of budget appropriation and expenditure authorization. Expenditures require one-over-one approval, i.e., the cost center supervisor and his/her administrator. As part of their fiduciary responsibilities, every payment made from any School account need to be approved by the Board. Board meetings are held, on average, every three weeks. This allows the Board to keep a close oversight of all school activities, including financial.

The Board is apprised, at each meeting, of all Accounts Receivables, Cash Balances, and Accounts Payables. All payments are pre-approved by the Board, and each payment requires two Board signatures for all checking accounts. Counter withdrawals at all banking institutions holding deposits of the School prohibit any counter withdrawal from any party, whether an employee or Board member.

The General Fund Budget is prepared in conjunction with Board approval of all salaries and contracts for the school year. The Board approves all budget transfers with the General Fund Budget and any deficits are approved prior to expenditures. It has been the practice of the School and its Board to operate within constraints of the revenues and expenditures of each fiscal year. All General Fund Budgets for each fiscal year have been prepared with expenditures equaling revenues.

A line of credit has been established for up to \$100,000 in case a cash flow problem should arise or an unforeseen capital expenditure is necessary. Use of this line of credit requires Board action.

Accounting System

The Center for Student Learning Charter School at Pennsbury has an accounting system that conforms with Generally Accepted Accounting Principles (GAAP) government accounting standards. The School's chart of accounts incorporates the Pennsylvania State Chart of Accounts for Pennsylvania Public Schools.

The entity-wide financial statements are reported using the *economic resources measurement* focus and the *modified accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

All governmental fund types are accounted for using a *current financial resources measurement focus*. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these present funds increase (revenue and other financing resources) and decrease (expenditures and other financing uses) in net current assets.

Governmental fund types are accounted for using the *modified accrual basis of accounting*. Revenues are recognized when they become both measurable and available to finance expenditures for the fiscal period. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State revenue is

recognized in the year to which it applies according to Pennsylvania statutes. Other revenue is considered available if collected within one year. Expenditures are recognized using the modified accrual basis of accounting when the related fund liability is incurred.

All proprietary fund types are accounted for using an *economic resources measurement focus*. With this measurement focus, all assets and liabilities are recorded, including capital assets and long-term debt and obligations. Furthermore, revenues are earned from the provision of goods or services and expenses are incurred to provide for these services. This includes the allocation of costs to the period in which the revenues were earned.

Proprietary fund types are accounted for using the *accrual basis of accounting*. In this basis, transactions are recorded when incurred regardless of when cash is collected or disbursed. Revenues are recognized when earned and become measurable, and expenses are recorded when incurred, if measurable.

Citations and follow-up actions for any State Audit Report

State Audit Report

The Center for Student Learning Charter School at Pennsbury underwent a state audit during the 2007/2008 school year which encompassed the years ended June 30, 2006, 2005 and 2004 and in certain areas extending beyond June 30, 2006.

The Performance Audit Report dated December 20, 2007 was received by the school in July 2008. As per the Auditor General's Independent Auditor's Report "The results of our tests indicated that, in all significant respects, the Center for Student Learning Charter School at Pennsbury was in compliance with applicable state laws, regulations, contracts, grant requirements, and administrative procedures falling within the scope of our audit".

There were no citations or follow-up actions issued by the state, as a result of this State Performance Audit Report. In fact, in a letter to the Center for Student Learning Charter School at Pennsbury dated November 25, 2008, the Secretary of Education for the Commonwealth of Pennsylvania, Geralk L. Zahorchak, D.Ed., stated that "the board of directors and the administrative staff of the Center for Student Learning Charter School at Pennsbury are to be congratulated for the accomplishments shown by the audit of your operations for the fiscal years ending June 30, 2006 and 2005, recently issued by the Department of the Auditor General."

The school has an annual audit of all financial records each fiscal year ending June 30 prepared by an independent auditor. To date, all audits conducted by an independent auditor have resulted in audit reports stating the School's financial statements are presented fairly and in accordance with Generally Accepted Accounting Principals (GAAP).

SECTION VII. FACILITY RESPONSIBILITIES

Acquisition of Facilities, Furniture, Fixtures, and Equipment During the Last Fiscal Year

Acquisition of Facilities, Furniture, Fixtures, and Equipment for the year ending June 30, 2010.

During the 2009/2010 school year, the School continued to rent classroom and office space on the property of the Pennsbury School District for the first 3 months of the fiscal year.

In May 2008, the School entered into an Agreement of Sale for an existing Church and property at a cost of \$950,000. Closing on the building took place in April 2009 with renovations starting immediately. A commercial loan in the amount of \$2.16 million was acquired to finance the property acquisition and renovation. The construction portion of the debt was acquired over the course of both the 2008/2009 and the 2009/2010 school year. Approximately \$431,800 of cash was used for the acquisition of this property. The existing property was virtually gutted, with new plumbing and new electric service and fixtures, as well as the structural renovation of the space into classrooms and offices. The new school opened in September 2009, at which time the rented space on the Pennsbury School District property was vacated.

The new building allowed our student enrollment to grow and our technology infrastructure to be updated. Student furniture was purchased in the amount of \$16,226 in addition to \$3,782 in office furniture for the new building. The school purchased a server and internet access points for the building as well as installing E-beam technology in approximately half of the classrooms in the amount of \$22,145. The building also required a phone system to be installed at a cost of \$7,889. All purchases were made through the COSTARS program at significant cost savings.

Future Facility Plans and Other Capital Needs

Future Facility Plans and Other Capital Needs

The Center for Student Learning Charter School at Pennsbury had its Charter renewed with The Pennsbury School District for the period beginning July 1, 2007 and ending on June 30, 2012. As the wait lists grew for students requesting enrollment, a search was started for a larger facility within the boundaries of the Pennsbury School District in order to meet the needs of at-risk students in the home district and surrounding areas.

In May of 2008, the School entered into an Agreement of Sale for an existing church and property at a cost of \$950,000. Closing on the building and property took place in April 2009 with renovations starting immediately. A commercial loan in the amount of \$2.16 million was acquired to finance the property acquisition and renovation. The construction/renovation portion of the debt was acquired over the course of both the 2008/2009 and 2009/2010 school years. The new school is opened in September 2009, at which time the rented space on Pennsbury School District property was vacated.

The facility purchase and renovation provides the School with additional classrooms, adequate office space and a gymnasium. The benefits of acquiring one facility to house all our instructional programs and administration are enormous to the future of the School and its work with at-risk students.

In the future, the newly renovated facility has incorporated plans for additional classrooms to be added on to the existing structure if and when enrollment grows in excess of the 180 student capacity of this new facility and is sustainable. Any expansion of the existing facility in the future will require long-term financing. Property improvements and repairs such as new roofing and parking lot repavement will also be required during this current charter period which should not require capital outlays outside the general fund budget for a given year of this charter period.

During the term of the current charter ending in June of 2012, the School plans to advance both its instructional and administrative technology. Throughout the next charter, instructional technology will be acquired and integrated into all subject areas as an instructional tool. Currently, E-beam instructional technology has been installed in about half of the instructional rooms and the school expects to increase that technology to all instructional areas. The School also plans on purchasing a Student Management System for Child Accounting/Administrative and Instructional use during the 2010-2011 school year. All technology enhancements are expected to be budgeted through the general fund budgets and should require no special financing.

SECTION VIII. HEALTH AND SAFETY RESPONSIBILITIES

Compliance With Health and Safety Requirements and Maintenance of Health and Immunizations Records for Students

Health and Safety Requirements

The Center for Student Learning Charter School at Pennsbury conducted 6 fire drills during the 2009/2010 school year.

The Center for Student Learning premises at 345 Lakeside Drive, Levittown, PA had a Fire Safety inspection conducted by the Borough of Tullytown Fire Marshal on September 15, 2009 resulting in full compliance with the fire codes.

The Bucks County Department of Health and Food Safety conducted two Food Facility Inspections, as required by PDE Division of Food and Nutrition, on October 2, 2009 and March 22, 2010. In both inspections, the School was found to be in compliance with County and State sanitation standards.

In addition, the Bucks County Department of Health, Division of Environmental Sanitation, conducted a School Building Inspection on October 15, 2009 and was also found to be in compliance with all County and State sanitation standards.

The School has adopted a Wellness Policy to promote a healthy school environment where students will learn about and participate in positive dietary and lifestyle practices that can improve student achievement. (See attached Wellness policy and Wellness Policy Checklist).

During the 2009/2010 school year, CSL conducted hearing, dental and sight screenings on all students.

Emergency Response Procedures have been adopted by The Center for Student Learning Charter School at Pennsbury outlining instructions for emergency situations. These emergency instructions include, but are not limited to instructions for: intruders, lockdown procedures, bomb threats, public demonstrations, medical emergencies, child abuse, assault/rape, suicidal behavior, death, kidnapping, and natural disasters. Maintenance of Health and Immunization Records for Students

All Health and Immunization records are reviewed by our Certified School Nurse. The Nurse keeps originals of all health and immunization records in locked files. Records are reviewed for compliance of required health and dental examinations and immunizations. The nurse notifies all parents of students requiring updated health and dental examinations through written notifications, and arranges for a physician and dentist to provide examinations to students in cases where parents do not provide evidence of a private examination. If a student transfers to another school, copies of all health and immunization records are kept on file.

Student Enrollment

Student Enrollment and Admissions Policies and Procedures

The Center for Student Learning Charter School at Pennsbury (CSL) has a rolling admissions policy. Students are enrolled in our program throughout the school year. All school-age residents of the Commonwealth of Pennsylvania are qualified for admission. Enrollment preference is given to students who reside within the granting charter district (Pennsbury School District) and siblings of students presently enrolled at CSL. CSL does not discriminate in its admission policies.

In the event that our enrollment exceeds 15 students per classroom, students are put on a wait list. The wait listed students are contacted on a first come, first served basis as openings occur throughout the year.

Enrollment Procedures

- 1. Upon the initial intake, an appointment is scheduled for the prospective student and parents to meet with the Principal and/or Assistant Principal, Guidance Counselor, and Special Education Teacher (if applicable) to discuss the student's needs and expectations, the school's focus, and tour the campus.
- 2. The Pupil Services Manager at CSL completes the enrollment paperwork process which includes the following.
- a. Parents/Guardians must provide the following documentation to complete the enrollment applications.
 - 1. Birth Certificate
 - 2. Immunization Records
 - 3. Proof of Residency (utility bill at current residence)
 - 4. Child's Social Security Number
 - 5. IEP / ER or any other pertinent Special Education Records
 - b. Charter School Student Enrollment Notification Form
 - c. Student Registration Form
 - d. Emergency / Health Services Card
 - e. Affirmation of Prior Discipline
 - f. Medical History Form with applicable questionnaires
 - g. Code of Conduct Verification
 - h. Photo Permission Slip
 - i. Internet Usage Agreement
 - j. YMCA Participation Agreement
 - k. Free & Reduced Lunch Application
 - I. Home Language Survey
- 3. Transportation is requested through the Home School District.
- 4. Charter School Enrollment notification is mailed to the Home School District.
- 5. Health/Academic Records are requested from the Home School District.
- 6. PA Secure ID is assigned to student.
- 7. Applications are processed and student is added to the CSL database.

Enrollment Trends

The current enrollment trend is on an increase.

The school year started with 140 students and increased to a total enrollment of 158. The maximum enrollment per classroom is 15 students. We opened three sections of 9th grade, two sections of 10th, 11th and 12th grades to handle the demands of our increasing wait list. We have contacted all of the students we had on our middle school wait list for enrollment in the next school year. We currently have 50 students on our high school waitlist for the upcoming year. Our 6th grade class continues to remain small. The enrollment in the 6th grade usually increases over the year as the students begin to struggle in the traditional classrooms of the large school districts.

Our retention rate is approximately 95% of our currently enrolled students. Students choose to continue their education at CSL because they like the individualized attention and the small learning environment.

The withdraw rate is higher in the upper grades (10th, 11th and 12th). The students that have chosen to leave CSL have returned to their home school districts, pursued their GED's, or Graduated early from our program. We have had no expulsions in the 2009-2010 school year.

There are currently no supporting documents selected for this section.

Transportation

Transportation Program

Transportation to the Center for Student Learning Charter School at Pennsbury (CSL) is provided by the student's home school district. CSL does <u>not</u> provide transportation for our students.

If transportation is not provided by the home district to their own schools, they are not required to transport CSL students. In that event, transportation is the responsibility of the student and their family.

Special Education students are also provided transportation through their home school district.

The pupil services office at CSL acts as the liaison between the home school district and the student to assure accurate and timely scheduling throughout the year.

Food Service Program

Food Service Program

The Center for Student Learning Charter School at Pennsbury (CSL) currently provides a hot lunch program to our high school students, and a hot breakfast and lunch program to our middle school students. Breakfast is served at 8:00 A.M. during the middle school's homeroom period. Lunch is served at 11:30 A.M. to both the middle and high school students. We contract

our lunch program through the Pennsbury School District's dining service. Our meals are prepared at Pennsbury's Walt Disney Elementary School and delivered to our school. Lunch orders are phoned in to the cafeteria in the morning for the scheduled day. Breakfast orders are phoned in one day in advance to insure timely delivery to our designated classrooms.

CSL <u>does</u> participate in the Free and Reduced Lunch Program and Severe Needs Breakfast Program. The Pennsylvania Department of Education is required to do an administrative review on schools which participate in the National School Lunch Program. A CRE (Coordinated Review Effort) review was performed on October 27, 2009. At the conclusion of the review, CSL was found to be in satisfactory compliance with all PDE Division of Food and Nutrition inspections, guidelines and reports.

Student Conduct

Student Conduct

The Center for Student Learning Charter School's (CSL) 'Code of Conduct/Discipline Policy' complies with all the policies and procedures outlined in Chapter 12 of the Public School Code. The CSL Code of Conduct is reviewed and distributed to all new students at the time of enrollment. Furthermore, the CSL Code of Conduct is redistributed and reviewed with all returning students at the start of every new school year.

See the attached CSL Code of Conduct/Discipline Policy.

CSL has integrated non-academic support systems into the daily schedules to aid in the success of all students. In addition, parents/guardians receive documentation outlining their parental rights in regards to due process.

Suspension incidents are now being tracked for classroom suspensions as well as administrative suspensions.

In the 2009-2010 school year 38 students were involved in 58 suspension incidents and 0 students were expelled.

Assurance for the Operation of Charter School Services and Programs

School Year: 2010

The Center for Student Learning CS at Pennsbury within Bucks County IU 22 assures that the charter school will comply with the requirements of 22 Pa. Code Chapter 711 and with the policies and procedures of Pennsylvania Department of Education (PDE). PDE will specify, in writing, policies and procedures to be followed. Requests for any deviations from these regulations, policies, and procedures must be made in writing to PDE. The charter school assures:

- 1. There are a full range of services, programs and alternative placements available for placement and implementation of the special education programs in the charter school.
- 2. The charter school has adopted a "child find" system to locate, identify and evaluate children who are thought to be a child with a disability eligible for special education residing within the charter school's jurisdiction. "Child find" data is collected, maintained, and used in decision-making. Child find process and procedures are evaluated for effectiveness. The charter school implements mechanisms to disseminate child find information to the public, organizations, agencies, and individuals on at least an annual basis.
- 3. The charter school has adopted policies and procedures that assure that students with disabilities are included in general education programs and extracurricular and non-academic programs and activities to the maximum extent appropriate in accordance with an Individualized Education Program.
- 4. The charter school will comply with the PA Department of Education annual report requirements including special education information.
- 5. The charter school follows the state and federal guidelines for participation of students with disabilities in state and charter school-wide assessments including the determination of participation, the need for accommodations, and the methods of assessing students for whom regular assessment is not appropriate.
- 6. The charter school assures the Pennsylvania Department of Education that funds received through participation in the medical assistance reimbursement program, ACCESS, will be used to enhance or expand the current level of services and programs provided to students with disabilities in this local education agency.

This assurance must be signed by the Board President and the Chief Executive Officer for the charter school to operate services and programs.

Assurance for Compliance with the Public Official & Employee Ethics Act

The original Public Official and Employee Ethics Act (the "Ethics Act") was amended and reenacted in 1989 by Act 9 of 1989 and in 1998 by Act 93 of 1998. (See Act 9 of 1989, 65 P.S. §401, et seq. and Act 93 of 1998, Chapter 11, 65 Pa.c.s. §1101 et seq.) The Act provides that public office is a public trust and that any effort to realize personal financial gain through public office is a violation of that trust. The Act was passed to strengthen the faith and confidence of the people of the Commonwealth in their government. The Act established the State Ethics Commission to administer and enforce the provisions of the Act and to provide guidance regarding the standards established by the Act.

The Center for Student Learning CS at Pennsbury assures that it will comply with the requirements of the Public Official and Employee Ethics Act (the "Ethics Act") and with the policies, regulations and procedures of the Pennsylvania State Ethics Commission. Additional information about the "Ethics Act" is available on the Ethics Commission's website at: http://www.ethics.state.pa.us/ethics/site/

The assurance must be signed by the Chief Executive Officer and Board of Trustees President of the charter school.

Identify the charter school's Chief Executive Officer.
