

Internet Safety and Student Acceptable Use Policy (CIPA)

Mercury Online (Mercury) is providing students access to the district's electronic network. This network includes Internet access, computer services, videoconferencing, computer equipment and related equipment for educational purposes. The purpose of this network is to assist in preparing students for success in life and work in the 21st century by providing them with electronic access to a wide range of information and the ability to communicate with people throughout the world. This document contains the rules and procedures for students' acceptable use of the MOA's electronic network.

- Mercury's electronic network has been established for a limited educational purpose. The term "educational purpose" includes classroom activities, career development, and limited high-quality self-discovery activities.
- Mercury's electronic network has not been established as a public access service or a public forum. Mercury has the right to place reasonable restrictions on material that is accessed or posted throughout the network.
- Parent/guardian permission is required for all students under the age of 18. Access is a privilege — not a right.
- It is presumed that students will honor this agreement they and their parent/guardian have signed. The district is not responsible for the actions of students who violate them beyond the clarification of standards outlined in this policy.
- The district reserves the right to monitor all activity on this electronic network. Students will indemnify the district for any damage that is caused by students' inappropriate use of the network.
- Students are expected to follow the same rules, good manners and common sense guidelines that are used with other daily school activities as well as the law in the use of Mercury's electronic network.
