Telephone conversations must be confirmed in writing by the interested party. Two types of questions generally arise. One type may be answered by directing the questioner to a specific section of the RFP. These questions may be answered over the telephone. Other questions may be more complex and may require a written addendum to the RFP.

The decision on whether or not an addendum is required shall be made by the City. If an addendum is issued, it will be provided to all parties who were provided a copy of the RFP by the City. **If you obtain a copy of this RFP from the City's website, it is your responsibility to provide the City with your contact information.**

1.6 Receipt of RFP Package

Contractors who are working from an RFP package obtained from any other source may be working from an incomplete set of documents. The City assumes no responsibility for errors, omissions or misinterpretations in a proposal resulting from a Contractor's use of an incomplete RFP package.

Contractors who have received the RFP package from a source other than the City are advised to contact the RFP's contact to provide their company name, address, telephone number, fax number and contact name. This will ensure that the Contractor will receive all communications regarding the RFP such as Addenda and Clarifications.

All proposal information, including detailed price and cost information, will be held in confidence during the evaluation process and prior to the time a Notice of Award is issued. Thereafter, the winning proposal will become public information. Copies of said public records may be requested through the Right-to-Know Officer, located in the Office of the City Solicitor.

Trade secrets and other proprietary data contained in proposals may be held confidential if a Contractor requests, in writing, that the City does so, and if the City agrees, in writing, to do so.
