CHARTER SCHOOL ANNUAL REPORT SUMMARY DATA

Summary Data Part I

Charter School Annual Report Summary Data 2011 - 2012

Name of School: Folk Arts-Cultural Treasures CS

Date of Local Chartering School Board/PDE Approval: March 9, 2005

Length of Charter: 7 years **Opening Date:** September 2005

Grade Level: Kindergarten - 8 **Hours of Operation:** 8:00 am to 6:00 pm

Percentage of Certified Staff: 100% **Total Instructional Staff:** 36

Student/Teacher Ratio: 12:1 **Student Waiting List:** 520 students cumulative for grades K-8

Attendance Rate/Percentage: 96.90%

Summary Data Part II

Enrollment: 451 Per Pupil Subsidy: \$8773.03

Student Profile

American Indian/Alaskan Native:	0
Asian/Pacific Islander:	313
Black (Non-Hispanic):	87
Hispanic:	13
White (Non-Hispanic):	10
Multicultural:	28

Percentage of Students from Low Income Families Eligible for a Free or Reduced Lunch:
85%

Provide the Total Unduplicated Number of Students Receiving Special Services (Excluding Gifted) as of Previous December: 72

Instructional Hours	0	0	933.08	947.33	1007.42	0	2887.83

SECTION I. EXECUTIVE SUMMARY

Educational Community

The Folk Arts-Cultural Treasures Charter School opened in September of 2005 with a mission to provide children with an academically strong education that fosters a love of learning and engages students with their own cultures and communities as well as others in our city, country and world. Located in the city of Philadelphia's Chinatown community, FACTS brings to Chinatown a publicly-funded institution dedicated to the children of Philadelphia. FACTS serves a very diverse population of students who come from many different backgrounds. Our student body is comprised of Chinese, Cambodian, Vietnamese, Indonesian, Lao, Dominican, Puerto Rican, Mexican, African, African American and European American students, among others. 85% percent of our students qualify for free or reduced lunch, and 16% qualify for active ESL services and over half speak a language other than English at home. We currently serve 451 students.

Mission

The Folk Arts-Cultural Treasures Charter School (FACTS) provides children with an exemplary education that utilizes traditional arts and cultures found within their own neighboring

communities as the catalyst for critical inquiry and community engagement. Based in Philadelphia's Chinatown community, FACTS provides children with an education which has high academic standards, is truly community based, incorporates and respects the lives of students and their families, engages students in understanding their own cultures and communities, and engages students in understanding their role as active participants in working for a just society.

Vision

FACTS embodies a unique and focused vision of arts-based education centering on folk arts. The arts act as a keystone in the life and culture of the school as they embody the ideals which are most meaningful to the community they represent. Just as children need to be physically healthy, they need to be culturally healthy as well. Folk arts serve as a vehicle to bridge children to their elders, the school to its communities, and members of the school community to one another.

We have high aspirations for all our students. The school seeks to develop our students as whole human beings and contributing citizens. The knowledge they need to be successful is intertwined with and interdependent upon the experiences that our students face in their homes and their communities. FACTS seeks to create a learning environment that embraces these communities and the wisdom they contain:

- by weaving folk arts and folk traditions into the fabric of our school;
- by utilizing place-based learning and actively encouraging participation from parents, artists, and community members in creating the culture and traditions of the school;
- and by modeling life-long learning as we continually assess our work, strive for improvement, and learn from our experiences and the best practices of others.

Shared Values

FACTS believes in providing children with a strong academic program that is marked by high standards, supports inquiry-based learning, and incorporates innovative research-based pedagogy. The FACTS faculty and staff are committed to achieving the academic goals outlined in this report.

Academic Standards

FACTS utilizes the content standards of Pennsylvania and Common Core Standards as the baseline for content instruction. In addition, FACTS has developed its own set of standards for folk arts which are also incorporated in the curriculum.

For its core literacy program FACTS uses Reader's and Writer's Workshop in grades K-8. Singapore Math is used in our K-7 math program, all 8th Grade students take Algebra 1. We utilize FOSS science kits. We have designed our own Social Studies and Science curriculum units according to the Understanding by Design framework. We analyze all our programs to ensure that Pennsylvania standards within the content areas are met. In addition, our school has developed our own set of Folk Arts standards and Common Core standards which we include among the standards our students are expected to meet. We offer Mandarin Chinese to all children beginning in kindergarten. Children who begin with us are expected to reach intermediate levels of proficiency in Chinese by the time they exit 8th grade. Classes are divided between heritage and non-heritage speakers and we address the linguistic developmental needs of both groups. Finally, all students receive a minimum of 1 period a week of art, music and physical education.

At FACTS, in order to ensure a high level of teacher quality, all teachers teach a content specialization. For each grade from 1-5, one teacher teaches both classes English Language Arts and another teaches Math and Science. Teams of teachers also loop with their students for 2 years. At least 3 periods of common planning time per week are rostered into the schedule to allow teachers to meet collaboratively in order to plan and evaluate student progress. In addition, regular meetings with the Special Education and ESL teachers take place in order to maximize both pull-out and push-in instruction. FACTS hires part-time tutors to work in small group instruction with students who are struggling in reading and math.

Strengths and Challenges

As we complete our 7th year as a school FACTS has been able to acquire a range of academic and social data on students in order to give us a better handle on our strengths and needs as a school.

Overall, we have been pleased with the growth we have made in the school's performance over time. We have seen a 20% rise in student achievement over the last 7 years in all tested content areas. A particular area of strength for us is Math scores, which continue to grow each year. Another area of strength was our daily attendance rate which was over 96%. Student participation on the PSSA was over 99%.

We hope to make the AYP targets by continuing to make modest and realistic improvements of 5-7% increases in reading and math scores for the whole school including all relevant subgroups. We continue to meet this goal as overall PSSA Math scores rose from 44% in 2006 to 78% in 2012. PSSA Reading rose from 28% in 2006 to 75% in 2012.

We are, however, concerned about an Achievement Gap which exists between the Asian American and African American subgroups in our school. We have chosen to address this issue in several ways. First, math and reading tutors were hired to work in small groups with students who were struggling in math and reading. 46% of the students receiving additional support showed improvement of at least one achievement level on the PSSA. 35% of the students moved from basic to proficient on the Reading PSSA. In addition, a portion of our professional development has been focusing on issues of race, class and culture in order for our teachers to develop greater understanding of the students we serve.

FACTS is comprised of a large population of ELL students. Our ESL population has shown significant growth, with a large number of students able to exit the ESL program this year. ELL students are also a priority group to be served in both Reading and Math. ELL students receive

pull-out services in small groups based upon their English proficiency and academic needs as well as push-in services and accommodation services from the ESL teachers.

The initial data indicates that the Special Education sub-group needs focused attention as well in order to mirror the progress of the rest of our school. Next year the special education coordinator will be working with the special education and content area teachers in order to better address the needs of these students.

Finally, as a result of our reading scores, FACTS made the decision to implement Readers and Writers Workshop in 2009. FACTS has provided intense professional development to staff in order to implement this program. We are also continuing to develop curriculum maps in literacy and math in order to ensure that students are receiving an articulated curriculum which scaffolds appropriately for students' academic development.

SECTION II. STRATEGIC IMPROVEMENT PLANNING

Strategic Planning Process

The FACTS Board of Trustees knows the importance of long-term strategic planning as we transition out of the start-up stage and into the next phase of organizational development. We have begun the process of implementing tighter administrative procedures and stronger human resource systems. As well, we realize the need to pursue increased funding streams, and to deepen community and family support. The Board also understands that effective strategic planning can only happen under the umbrella of clear and well-communicated mission, vision, and structure.

A Strategic Plan, developed during the 2009-10 school year expresses FACTS mission, a vision for five years (2010-2015), and broad goals and strategies for advancing that vision. It attempts to provide mission-centered direction to the ED, the management, and the staff as FACTS fine-tunes its aspirations to be an excellent school and more.

In 2011-12, the Board and administration continued working to resolve issues around our mission and vision clarity. Several meetings took place among administrators and board to develop a statement that weds our founding mission and vision with the reality of how the school evolved. Teachers and staff are engaged in ongoing conversations about this statement to ensure fidelity to our mission.

Strategic Planning Committee

Goals, Strategies and Activities

Goal: Continuing Professional Development

Description: Continuing professional development in math, reading, writing, and science.

Strategy: Analysis of 2012 PSSA Data

Description: Staff will examine and analyze 2012 PSSA Reading and Math Data in relation to subgroup performance and performance indicators. Staff will look at classroom performance trends in reading and math.

Activity: Understanding Student Achievement Data

Description: Teachers will attend a professional development sessions designed by the Assessment , Intervention, and Accountability Director that are focused on understanding student achievement data.

Person Responsible	Timeline for Implementation	Resources
Benedict, Ralph	Start: 8/29/2012 Finish: 8/29/2012	-

Having just received the 2011-12 PSSA Data, this session will be the first introduction for FACTS new and returning faculty regarding student performance data. Faculty will participate in activities that focus on data analysis of performance indicators and NCLB subgroup performance. Faculty will also work jointly to develop best practices and strategies for meeting the targeted needs of students. Data will be used to identify at risk students in particular who will be recognized as in need of supplemental instructional services. Teachers will work together to fine tune their Understanding By Design lesson plans to reflect the indicated skill and performance benchmarks.

For classroom teachers, school counselors and education specialists:

- Enhances the educator's content knowledge in the area of the educator's certification or assignment.
- Increases the educator's teaching skills based on research on effective practice, with attention given to interventions for struggling students.
- Provides educators with a variety of classroom-based assessment skills and the skills needed to

analyze and use data
in instructional
decision-making.

*For school and district
administrators, and other
educators seeking leadership
roles:*

- Provides leaders with the ability to access and use appropriate data to inform decision-making.
- Empowers leaders to create a culture of teaching and learning, with an emphasis on learning.
- Instructs the leader in managing resources for effective results.

SECTION III. QUALITY OF SCHOOL DESIGN

Rigorous Instructional Program

FACTS incorporates the following in its approach to instructional delivery:

Looping: Looping refers to the practice of keeping groups of students together for two years with the *same* teacher. This practice allows children and their parents to develop deep relationships over time with a specific adult or group of adults. It also allows teachers to “hit the ground running” in subsequent years as they are already familiar with the students they are teaching.

Content Specialization: FACTS is committed to allow teachers the chance to specialize in specific content in order to hone their skills within that content area. Looping within a specified content also allows teachers to better understand trajectory in the content area — what students need to know and be able to do across a multi-year span.

Collegial Planning: FACTS structures are designed to support and encourage teachers to meet and to discuss their questions and concerns about both content and students. Common preps are scheduled both across grades and across content in order for teachers to have time to meet. Special Education and ESL teachers are expected to meet regularly with classroom teachers as well.

Student inter-generational relationships FACTS believes it is healthy for all the students to develop relationships across grades. This allows for older students to develop their roles as role models and allows younger children to feel that they have relationships with older “brothers and sisters” in the school. This also can support academic development among the older students as they may be called on to tutor and support the learning of the younger students.

Grades K-6

At FACTS, kindergarten is self-contained. Each class grades 1-6 share 2 teachers — one teacher teaches 2 classes in English language arts. The other teacher teaches 2 classes in math and science. Both teachers teach social studies to their classes. All students also have classes in Health, Music, World Language Art, and Physical Education.

Grades 7 and 8

The middle school students cycle between reading, math, social studies, and science daily. All students also have classes in Music, Art, Chinese and Physical Education.

Literacy Instruction at FACTS

At the Folk Arts-Cultural Treasures Charter School, we follow the Readers and Writers Workshop model for literacy instruction, out of the Columbia/ Teacher's College Reading and Writing Project. Within this Balanced Literacy framework, the majority of time in reading class is spent with students reading self-selected trade books at their independent level, while the teacher(s) engage students in individual reading conferences and/or small guided reading or strategy groups. The majority of time in writing class is spent with students writing independently, within a particular genre, and taking their ideas through the writing process from generating ideas through publishing. The teacher(s) engage in writing conferences with students or may run small strategy groups. The workshop period always starts with a mini-lesson to highlight a particular skill or strategy. Outside of the workshop, there are Word Study blocks, during which grades K-2 use the Foundations program, and grades 3-6 use Sitton Spelling to address phonics, spelling, and word study. There are also specific periods for reading aloud to students daily.

At FACTS, we have a large percentage of students who are English-language learners, and also many students with IEPs. With the implementation of the Workshop model for teaching reading and writing, we have implemented close to a full-inclusion program where the majority of instruction takes place within the regular education classroom. We also have a tutoring program which provides intervention and support services.

Key Components

Classroom Libraries

Every classroom has a leveled library. Books are leveled using the Fountas and Pinell leveling system. Students are taught how to select "Just Right" books, both by telling them what color book to choose, and strategies to use if the book level is not indicated.

Mini-lesson

The teacher delivers a short, concise mini-lesson of approximately ten minutes, with a clear teaching point or objective. The mini-lesson contains a Connection, Teaching, Active Engagement, and a Link.

Independent Reading

Students read self-selected, "Just Right" books independently for 10-40 minutes, depending on grade level (***K: 10 minutes, 1st -2nd :20 minutes, 3rd-8th: 30-40 minutes***) Students may complete short written responses to their books (sticky notes), and all students complete reading logs. Independent reading takes place daily in the K-5 classrooms, and three days per week in the 6-8th grades. At times, students may engage in focused partnership or Book Club conversations about the books they are reading. All students are expected to read at home every night.

Independent Writing

Students engage in a stage of independent writing focused on a particular genre: collecting ideas, free-writing, drafting, revising, editing, or publishing.

Conferring and Small Group Instruction

In addition to monitoring the classroom and ensuring a focused learning environment, the teacher(s) in the classroom conduct 5-10 minute individual reading or writing conferences, and/or conduct small groups, such as Guided Reading or

Strategy Groups. ESL and/or Learning Support teachers often work with their students at this time.

Interactive Read-Alouds

Teacher models reading strategies, and gives students opportunities to talk to a partner or within a group about the book. Students listen actively to the read-aloud, and may participating in conversations with a classmate or group. Students may also complete short written responses to the read-aloud (ie. sticky notes). *(see below for scheduling concerns)*

Shared Reading

Teacher models reading strategies using a common text, and gives students opportunities to talk to a partner or within a group

Word Study

In the lower grades, students engage in activities designed to teach phonics, phonemic awareness, and word attack strategies. Skills are reinforced in the Readers Workshop, but devoted time for direct instruction using the Foundations/ Wilson program takes place daily. In grades 3-8, the focus is more on spelling patterns, and direct instruction is delivered using Sitton Spelling.

Math Instruction at FACTS

FACTS utilizes Singapore Math as its curriculum. Singapore Math is a richer Math curriculum than traditional American texts, because it creates a strong foundation of number sense, place value, and part-whole relationships. A typical U.S. text covers approximately 28 topics in a school year, while Singapore Math covers 12 and goes more in depth with each topic. Singapore Math provides a balance between drill and creative problem solving. The Singapore approach moves along to more abstract math concepts in a highly rational way. The Singapore approach also encourages problem solving skills and creative thinking.

Science Instruction at FACTS

FACTS implements an inquiry-based science curriculum. The curriculum is divided into three broad subject areas: Life Science, Earth - Space Science and Physical Science. The content for each of these areas is organized around **Enduring Understandings** (also known as Essential ideas) that are foundational to the learning of a given science subject area. The Enduring Understandings are distillations of content knowledge and highlight the ideas that are central to a specific subject area. The Enduring Understandings are supported by the National Science Foundation's Science Education standards, the American Association for the Advancement of Science (AAAS) 2061 Benchmarks, the National Science Teacher's Association (NSTA), and curriculum documents from Delaware DOE, California DOE and Massachusetts DOE. The enduring understandings for the FACTS science curriculum are organized around five broad conceptual themes which come directly from the national science education standards. The themes are as follows:

Systems Order and Organization
Evidence, Models and Explanations
Change Constancy and Measurement
Evolution and Equilibrium
Form and Function

Social Studies at FACTS

FACTS is currently developing a new Social Studies curriculum integrating our own Folk Arts Standards with Pennsylvania State Standards for Social Studies. It includes community-based investigations, an in-depth study of a particular place and an investigation into a period of history, at each grade level. Many units also involve a Folk Arts residency where students get a chance to interact with a folk artist who lived in a particular period of history or who represents a certain tradition.

It is through our social studies curriculum that students practice using the tools of social scientists, such as, conducting interviews, looking at artifacts, observing people and places, studying maps and documents from history, and taking photos and videos to document a place or event. In particular we use the methodology of the folk arts, namely, community-based investigations.

It is important that students have a chance to discuss the big ideas behind a place or an event, and to think critically about what happened and how it is reported. Within each social studies unit we raise social justice issues and encourage students to make connections between different places and periods of history. We look at ways that we can be a part of positive change in our own communities.

Arts and Physical Education at FACTS

Every student in grades K-8 receives one period of art, one period of music and one period of physical education each week. In addition, every student in grades K-5 sings in a choir. We also have additional arts residencies and ensembles in a wide range of art forms.

Support for students performing significantly below standards in literacy and math skills

This year, FACTS continued a program of tutoring so that instruction targeting specific needs can be delivered either to individuals or in small groups. FACTS serves as a site for student teacher placements from a number of area colleges and universities and these student teachers also often help take on small groups. FACTS has a CSAP process that requires the CSAP teams for each grade to meet once a week and to provide timely recommendation for struggling students. Accommodations are implemented in Tiers 1 and 2 with testing for special needs available at Tier 3. Students who are found eligible for an IEP or NOREP are provided services as recommended.

- Induction Approval
- ACT48 Approval Letter 2010-2015

English Language Learners

ESL Guidelines

Students are tested for entry into ESL services based on the result of the home language survey.

W-APT

The W-APT is the primary criteria for entering ESL services, but is not the sole determining factor. The W-APT tests students across four domains -listening, speaking, reading and writing- at the appropriate grade level. The results of the W-APT indicate the English proficiency level of the student: entering, bridging, developing, expanding, bridging, and reaching.

Students will be entered into the ESL program if the overall composite score is less than 5.0. The students' backgrounds are also taken into account before final determinations are made regarding placement into the program. Background information is collected from parents or guardians.

All students enrolled in the ESL program must participate in the annual state English language proficiency test. Currently, the state of Pennsylvania is using the WIDA. Results from WIDA help the ESL program evaluate individual student progress and the evaluation of the program as a whole to determine the success of the program and possible improvement plans.

Reassessment, Exiting and Monitoring of ESL Students

Exiting of ESL services will be based on multiple criteria set by the Pennsylvania Department of Education:

(Excepts taken from Pennsylvania Department of Education rev. 12-26-07)

The exit criteria provided below for English Language Learners (ELLs) represent valid and reliable evidence of a student's English language proficiency to exit from an English language instructional program. FACTS utilizes the Pennsylvania State exit criteria for ELL's as the criteria to determine exiting from the ESL program.

In order to meet the required state exit criteria for Pennsylvania's English language instructional programs for ELLs, FACTS uses both of the required exit

criteria listed below. In addition, FACTS ensures that students meet one of the two additional exit criteria provided below to exit from an English language instructional program:

Required Exit Criteria:

1. Score of BASIC on the annual Pennsylvania System of School Assessment (PSSA).

SPECIAL CIRCUMSTANCES:

- For students transferring from other states, out-of-state academic achievement assessment results may be considered when the academic proficiency level is comparable to BASIC on the PSSA.
- For students that are in a grade that is not assessed with the PSSA, LEA's must use each of the remaining criteria listed below to exit students.

2. Scores of 5.0 on a Tier C ACCESS for ELLs assessment (see Items A and B below for cutoff score flexibility)

A. Following the scoring criteria in the table below, the W-APT may be administered between April and June to students who scored below the minimum cutoff for program exit on the January administration of the ACCESS in order to demonstrate sufficient progress to justify exit.

NOTE: The W-APT may ONLY be administered to a student once in any school year.

Grade Level	ACCESS Score	Required W-APT Scores*
K-5	4.6-4.9	5.5 in each domain
6-8	4.7-4.9	5.5 in each domain
9-12	4.8-4.9	5.5 in each domain

* A student must score 5.5 in each domain (listening, speaking, reading and writing). A composite proficiency score will not be used.

B. A score of PROFICIENT on the reading PSSA can be used along with all other required criteria outlined in this policy to justify exit for students who achieve a composite proficiency score of 4.5 to 4.9 on the January administration

of the ACCESS. In this case, W-APT scores are not necessary to demonstrate progress from the time of ACCESS administration to the end of the school year.

Additional Exit Criteria:

1. Final grades of C or better in core subject areas (Mathematics, Language Arts, Science and Social Studies).
2. Scores on district-wide assessments that are comparable to the BASIC performance level on the PSSA.
3. Teacher observation and anecdotal records
4. Portfolio evaluation

Monitoring:

Students who exit ESL services will be monitored for two years and can reenter the program at any time based on the multiple criteria listed above.

An ESL student with an IEP may be exited based on the criteria set forth under the Pennsylvania Department of Education with conjunction of reasonable accommodations written into the IEP. After exiting, students will be monitored to ensure their needs are not based on English language issues.

Other:

ESL students cannot be categorically excluded from gifted/talented or other specialized programs.

ESL students can qualify for multiple services, for example an ESL student with special education needs would receive both services. ESL services will be written into IEPs. ESL teachers will also participate in all IEP meetings.

- 2011 12 LEP System Report

Graduation Requirements

This is Not Applicable. The Folk Arts Cultural Treasures Charter School is a K-8 school.

Special Education

In 2011-12, FACTS employed a Special Education Supervisor part of the year and four special education teachers, all were full time. Additionally a school psychologist worked part time evaluating students, and two assistants provided resource room and push-in support for students in accordance to their IEPs as well as support for teachers in differentiation of instruction. Speech services, Occupational Therapy, and Physical Therapy were contracted out this year. Additionally FACTS also continued to develop our early intervention services thru the implementation of a Comprehensive Student Assistance Process (CSAP) to monitor students' response to interventions before they are recommended for evaluation. Our Special Education Supervisor left at the end of December and we replaced that position on April 1st with a temporary person.

Student Assessment

A.)

The data analysis of the PSSA revealed that the Folk Arts Cultural Treasures Charter School is achieving AYP benchmark goals in reading and math. The school made AYP for 2011-12 .

The subject that continues to require the most improvement is Reading. Improvement is evident in the overall rise of student proficiency from 29% in 2006 to 75.2% in 2012. Several sub-groups showed improvement in reading proficiency. Despite this growth the achievement gap between Asian and black students grew by 6% from 2012 with 82.6% of Asian students and 57.75% of black students scoring proficient on the reading PSSA. Our analysis revealed that all grades and subgroups showed a need for improvement in fundamental comprehension and reading skills in fiction and non-fiction text. As such, the most important instructional priority lies in improving the reading content area with an emphasis on improving the black subgroup, which was the lowest scoring subgroup.

Additionally the Developmental Reading Assessment (DRA) is used in evaluation of reading levels. This is done three times a year in grades K-2 and twice a year in grades 3-7. The reading levels from the DRA mirrored the results from the PSSA Reading test in the whole school and subgroups. All test data points to the same areas and subgroups that were of academic concern on the PSSA.

To address improving reading proficiency focused Professional Development in Literacy was conducted throughout the 2011-12 school year. This included in-house literacy development and teacher study groups to develop instructional practices to utilize with Readers and Writers Workshop.

The achievement gap analysis made evident that there was a gap between Asian and African American students and also Asian and ELL students. We recognized that the large number of ELL students in our school require additional ESL support in order to ensure that modifications and adaptations as well as specific ESL services are in place for our ELL students.

Six tutors were hired to continue the interventions with struggling students in reading and math. Student achievement was monitored throughout the year to measure the effectiveness of the tutors.

Math proficiency continued to rise from 45% in 2006 to 78.1% in 2012. In 3-5 Grade Span 79.7% of students scored proficient, and in 6-8 Grade Span 76.4 % of students scored proficient. Some subgroups showed improvement in math proficiency. 88.1% of Asian students and 48.4% of Black students scored proficient on the 2012 PSSA. The areas requiring improvement in Math were computation and data analysis. The data analysis problems are directly linked to the issues in reading skills. As such, the instructional issues we strive to improve in both Math and Reading correspond with one another. Comprehension and Data Analysis were chosen as areas targeted for instruction to increase student achievement. There were curriculum meetings to address these problems and better embed the areas of weakness into instructional focus. A part-time

Math Coordinator was added to the staff for the 2011-12 school year. This coordinator pushed into classrooms to help struggling teachers best implement the Singapore Math curriculum and also supported the placement of tutors for small group intervention.

B.)

Our students are monitored through regular classroom assessments and teacher observation. The classroom structure allows for every student to be seen every day by two different content teachers — a reading and social studies teacher and a math and science teacher. In the middle school program the math, ELA, science, and social studies teachers monitor students progress in each of their respective classes and students. The teachers on each grade span (K-2, 3-5, 6-8) have a common preparatory period and a common lunch period in order to discuss student progress and content area planning. Our ESL and Special Education teachers also have regular meetings with each cluster to provide support and advice on accommodations and differentiated instruction.

- 2010 11 PSSA Results

Teacher Evaluation

a.) The school evaluates teachers in a number of ways. This year there was one formal announced evaluation for every teacher. There was a post-conference for every teacher once the observation had taken place. New teachers are observed twice. There are also unannounced walk-throughs throughout the year. A final piece of teacher evaluation comes in the form of a teacher made portfolio which includes samples of work and reflections. Four areas of professional practice are evaluated: planning and preparation, instruction, classroom environment and professional responsibilities. After reviewing the portfolio, the principal meets with each teacher regarding their personal professional development goals for the following year as well as the principal's recommendation for areas of improvement. In addition to the classroom observations, other factors are considered in teacher evaluation including relationships with students and parents, attendance and punctuality, record keeping, activity on various committees, involvement in community, collegiality, belief in the mission of the school and support for its programs, and pursuit of professional growth.

b.) Currently Dr. Susan Stengel, who is the Principal and Executive Director is the chief evaluator on our staff for teachers.

c.) Dr. Susan Stengel has had over 15 years supervisory experience prior to coming to FACTS and has a long professional career in professional development.

SECTION V. GOVERNANCE REQUIREMENTS

Leadership Changes

No leadership changes to Administration took place this school year.

Board of Trustees

<u>Name of Trustee</u>	<u>Office (if any)</u>
Michael Chow	none
Bret P. Flaherty	Vice Chair
Germaine Ingram	none
Debora Kodish	none
Xin Sheng Liu	none
Hao-Li Tai Loh	Chair
Susan Mack	Secretary
Suzanne Lewis	Treasurer
Ed Nakawatase	none

Professional Development (Governance)

During our pilot year FACTS Board members had undergone training that was conducted by Foundations Inc. that encompassed an overview of Act 22, the Sunshine Law, the Ethics Act, and other legal obligations of public officials. Subsequent training through Foundations Inc. helped the Board transition into their second year of operations in the first quarter of the new year. The Board of Trustees Handbook outlines the duties and responsibilities of Board members as set forth in the By-Laws and also highlights the Sunshine Act and the Public Officials Act. All new members to the Board have been presented with these materials and provided with a brief orientation by the Board President at the beginning of their term of service.

Board members are always encouraged to go to trainings and conferences to keep abreast of the law and to learn about practices and policies that could aid them in performing their duties. During the 2009-2010 school year, FACTS Board of Trustees continued working with consultants on organizational issues, participating in a strategic planning retreat in September 2009 and a decision making training in May 2010. Meanwhile, the Board of Trustees continues to engage the law firm of Latsha Davis & McKenna, P.C. to serve as legal counsel and to keep the Board abreast of any changes in Act 22 or other rules and policies pertaining to charter schools. Board members took advantage of Education Policy and Leadership Center meetings and various relevant webinars. Board Member Germaine Ingram continues her involvement as a founder and participant in the Education First Compact, an education advocacy group that is the civic engagement arm of the Philadelphia Education Fund that focuses on education equity and reform issues, and gains valuable knowledge that helps FACTS strengthen its mission through relationships with the Phila Cultural Fund, Research for Action, and the Picasso Project.

Several board members, including the Chair, accompanied the Principal and Financial Director to an important school district budget presentation in the spring of 2011, to be more informed for our own budgeting process. Board members also worked with a consultant for professional development in the

arena of board communications this past spring. Board members receive informative presentations from the school leadership staff on academic, financial, and operating issues on a bi-monthly basis.

Coordination of the Governance and Management of the School

FACTS is governed by a Board of Trustees who are aware that they safeguard the public trust and possess the ultimate responsibility for ensuring that FACTS is operating in compliance with its charter and all ensuing local, state, and federal laws and regulations. While the Board works to define policy, maintain fiscal accountability, and to develop a long term plan to ensure that the mission of the school is carried out, it is the School's Principal & Executive Director who is charged with upholding policies, meeting performance benchmarks, and all other necessary standards involved in operating a public school.

As the Chief Administrative and Academic Officer of the School, the Principal & Executive Director is responsible for all aspects of school management and pedagogical delivery, provides leadership and coordination within the school, manages personnel including faculty, administrative and other support personnel, and supervises the general administration, accountability, and business affairs of the school. The Principal & Executive Director is responsible for reporting ongoing progress to the Board and is empowered to implement and communicate all policies established by the Board to the school community.

In addition to the Principal & Executive Director, in 2011-12 FACTS employed a leadership team consisting of a Deputy Director, a Financial Director, an Assessment, Intervention and Accountability Director, a Development Director, and a Dean of Students to manage the school. This leadership team supported the work of approximately 75 full and part-time staff members and various volunteers.

FACTS' Board of Trustees met monthly to execute their duties and make decisions regarding policy and oversight. The Board and School management maintains their distinct job roles and responsibilities as defined in the school's by-laws. Board agendas are set in consultation between the Principal and Board Chair. The Deputy Director and Board Secretary ensure that all tenets of the Sunshine Act are followed. A strategic plan was completed in December of 2009, shared with the FACTS community in February of 2010, and serves as a guide for annual implementation planning.

The Board of Trustees and the Principal & Executive Director and the administrative team have continued to work closely with the School District of Philadelphia's Charter School Office and various School District Departments as

needed. The Board has been in compliance with all assurances required by the District and has maintained open communications with allied School Reform Commission members in regards to small changes to the Charter agreement. The Board of Trustees sends representatives to appropriate Philadelphia School Reform Commission hearings and meetings as warranted.

Coordination of the Governance and Management of the School - Attachment

- 2012-13 Board Meetings

Community and Parent Engagement

FACTS Board of Trustees promotes a school vision and culture that respects elders and parents and that provides for linguistically accessible services to the school so that community members and parents are able to engage in school activities. Towards this end the school has organized special events such as a Founders Day celebration, and a series of Honor Our Elders days with the express purpose of inviting community members and parents into the school. Teachers host publishing parties at the end of each writing unit in which community members and parents are invited to listen to and comment on student writing. The middle school also hosts Round tables as a form of performance assessment in which students explain the contents of their portfolios. Again, parents and community members are encouraged to serve on the round table panels.

The staff and board of FACTS have also represented the school at numerous public events, ranging from community meetings to community banquets, in order to build solid community and parent relationships. The school serves as a co-sponsor for the annual Mid-Autumn Festival in Chinatown, where they provide volunteer support as well as performances. The school also actively participates in community clean-ups and attends the neighborhood association meetings.

The Teacher Action Group used FACTS to house their “Education for Liberation” conference. In addition, the Philadelphia Student Union used FACTS as the location for their annual fundraiser. FACTS served as a polling place for the local neighborhood community.

FACTS Home School Association met monthly and hosted a wide range of programs for parents this year which were all very well attended.

FACTS seeks to respond to the linguistic diversity of its student body in several ways. Written notices to homes are routinely translated into four languages: Chinese, Indonesian, Spanish and Vietnamese. The school subscribes to a telephonic translation service so that teachers can call parents and always have a translator available. The school also maintains simultaneous translation equipment to use at all school functions where parents may be present.

FACTS maintains healthy partnerships with a number of community agencies and educational institutions. Tutors and student teachers are placed at FACTS by: Bryn Mawr College, Drexel University, Eastern University, Immaculata College, Haverford College, Swarthmore College, Temple University and the University of Pennsylvania. In addition, professors at Saint Joesph's University and the University of Pennsylvania have utilized

our school as a site for action research. FACTS is engaged in partnerships or serve on committees with: the Southeast Asian Mutual Assistance Association Coalition, Migrant Education, the Philadelphia Chinese Opera Society, and student associations from Bryn Mawr College and University of Pennsylvania as well as Central High School, Girls High School and Bodine High School. Two different Chinese language schools also rent our school every Sunday during the school year for classroom space for their schools.

Our partnership with The Philadelphia Folklore Project (PFP) and Asian Americans United (AAU) brought more than a dozen folk artists residencies, ensembles to the school this year. Additionally PFP and AAU have coordinated oral history projects and community folklife documentation efforts, contribute to professional development for teachers and organize after school and summer programs for students.

SECTION VI. FINANCIAL RESPONSIBILITIES

Major fund-raising activities

2011-2012

The Board Development Committee hired a part-time Director of Development to provide leadership and management of the direction, planning, and execution of fundraising and development related activities for FACTS. The committee began implementing a five-year fundraising strategic plan which included: the establishment of an annual appeal; expansion of the current donor base; creation of a donor recognition program; cultivation and stewardship of business and individual donors; and identification of new grant prospects.

A Banquet Planning Committee was established made up of school faculty, board members, and parents in order to oversee and carry out the tasks necessary for a fundraising banquet and silent auction that will be held October 12, 2012.

In Year 2011-2012, major gifts and grants included:

- Federal Entitlement Grants (Title I, IIa, and III)
- National School Lunch Program
- HSBC Bank grant for general operations
- Rosenbaum Foundation grant to support FACTS math program
- Pfizer Foundation grant to support FACTS math program
- United States Tennis Association Middlestates grant to support an after school tennis club

Fiscal Solvency Policies

- Establishing an annual operating budget at the beginning of the school year and revising this operating budget from time to time to reflect any fiscal changes throughout the year.
- Monitoring actual number of students on a monthly basis to ensure 100% student enrollment and 100% of per pupil allocation from the School District.
- Tracking all the approved expenses by the School Board of Trustees to ensure no overspending. In addition monthly Revenue/Expenses reports were provided by the financial manager to the School Board and senior management for review and questions.
- Setting up a procurement procedure for purchasing to ensure the school follows the fiscal guidelines of GAAP and PDE. All purchase orders were closely reviewed by senior management and compared with budget before approval.

- To strengthen communication and internal management, the Board employs its own Director of Finance. In addition the Deputy Director supervises the Director of Finance and has responsibilities related to fiscal solvency and internal controls.

Accounting System

The School's chart of accounts mirrors that of the Pennsylvania State Chart of Accounts for public schools. GAAP is followed for accrual based accounting system.

SECTION VII. FACILITY RESPONSIBILITIES

Acquisition of Facilities, Furniture, Fixtures, and Equipment During the Last Fiscal Year

FACTS remains in our permanent home at 1023 Callowhill Street which is a free-standing 5 story building with access to outdoor space in the Chinatown North neighborhood and approximately 11,500 square feet per floor. FACTS fully utilizes floors two through five and has created a multi-purpose resource room that utilizes about a quarter of the first floor.

FACTS had acquired the bulk of our furniture and equipment during our first year of operations with funding received from an implementation grant from Pennsylvania Department of Education and used that funding to purchase equipment and furnishings needed for all grades K-8. Most of our facility, furniture, fixtures, and equipment expenses this year went towards making improvements to the existing premises. In the past year we have:

- Purchased replacement computers, memory upgrades, and printers to ensure that our technological infrastructure is adequate;
- Upgraded technology lab;
- Purchased replacement classroom furniture as needed as well as purchased some additional file cabinets, bookshelves, and desks to accommodate all of our staff needs.

Future Facility Plans and Other Capital Needs

FACTS intends to reside at our facility at 1023 Callowhill Street, the building that was identified in our charter application and that has been custom designed to meet our needs and specifications. FACTS completed a strategic plan for the period of 2010-2015 in which long term goals for our facility were determined. All of these projects are contingent upon the acquisition of adequate funding to complete them. They include:

- Repave Shamokin Street, the street which is used for loading and unloading our buses;
- Make HVAC improvements to the existing system to increase the number of vents in certain areas;
- Improve lighting to the back emergency stairwell to make it more child friendly;
- Replace the laptop computers in our mobile laptop cart;
- Purchase and install more permanent outdoor signage to identify our school;
- Identify and install energy efficient equipment to reduce energy consumption in accordance with LEEDS certification guidelines;

In addition, FACTS is working with the City of Philadelphia, neighborhood civic associations, and local business groups to improve the conditions of our local surroundings. Although significant, these projects require assistance, authorization and/or funding from additional sources in order to be implemented.

- Identification of greening projects;
- Lighting and sidewalk improvements to the school surroundings.

SECTION VIII. HEALTH AND SAFETY RESPONSIBILITIES

Compliance With Health and Safety Requirements and Maintenance of Health and Immunizations Records for Students

FACTS has developed safety and security systems for our facility located at 1023 Callowhill Street. Towards this end, FACTS has conducted a Risk / Hazard Analysis; installed magnetic locks and buzzer announcer for the front door, installed a security system complete with cameras and monitors at all exits; installed fire extinguishers, safety cases, and emergency evacuation procedures signage (with updates as needed) in all rooms; assembled shelter-in-place kits; and trained teaching and support staff in CPR and first aid conducted by trainers from the American Heart Association. FACTS conducted fire drills, including a drill observed by the local fire company. FACTS also conducted shelter-in-place and lockdown drills throughout the year. FACTS is currently fine tuning our safety

and emergency plans to improve the depth of our prevention, preparedness, response and recovery protocols.

FACTS contracted with the Mid Atlantic Coalition of Charter Schools (MACCS) to provide nursing services, medical services, and dental services to our students. Our school nurse ensured that all appropriate immunization, health, and dental records were kept and filed.

SECTION IX. ADMINISTRATIVE NEEDS

Quality of Teaching and Other Staff

Our 2011-12 staff consisted of 71 full and part time employees:

- 1 Principal / ED
- 1 Executive Assistant
- 4 School Secretaries
- 1 Dean of Students
- 1 Director of Accountability, Intervention and Assessment

.5 Director of Development

- 1 Deputy Director
- 1 Financial Director
- 1 Facility Manager/Technology Manager

- 1 Transportation Manager
- 1 Building Custodian
- 1 Accounting Clerk (*part time*)

6 Primary (K-2) Teachers
 6 Intermediate (3-5) Teachers
 6 Middle School Teachers

- 2 6th Grade teachers
- 1 7 & 8 Math
- 1 7 & 8 Language Arts
- 1 7 & 8 Science
- 1 7 & 8 Social Studies

- 1 Art Teacher
- 1 Music Teacher
- 1 Physical Education Teacher
- 2 Mandarin Teachers
- 5 ELL Program Specialist Teachers
- 4 Special Education Teachers
- 2 Kindergarten Assistants
- 1 Special Education Teaching Assistant
- 1 Special Education Supervisor
- 1 Literacy Coordinator
- 1 School Psychologist (*part time*)

- 1 Social Worker (*part time*)
- 9 Tutors (*part time*)
 - 2 ELL
 - 2 Special Education
 - 3 Reading
 - 2 Math
- 1 Food Service Manager
- 1 Food Service Assistant
- 4 Food Service Aides
- 2 Aftercare Staff - Part Time

Of our 71 staff for the 2011-12 School Year, only one staff member, the Special Education Supervisor will be replaced. Two positions have been eliminated: Transportation Manager and Part time Accounting Clerk.

- 2011-12 PDE 414 STAFF REPORT

Student Enrollment

FACTS student enrollment procedures and admission policy comply with all Pennsylvania Charter School laws and regulations. All interested students are required to complete an Intent to Enroll form that asks for student name, date of birth, address, school currently attending, entering grade, sibling information, and parent/guardian contact information. The FACTS Intent to Enroll form is available in 5 languages: English, Chinese, Indonesian, Spanish and Vietnamese. The Intent to Enroll information is used to determine admission into the school. Although the school is open to all Pennsylvania residents, Philadelphia students are given priority. Other preference is given to children of Founding members, siblings of existing students, and family members of current staff. If there are more students who submit an Intent to Enroll Form than open spaces at FACTS, students are selected by lottery in order of priority status. Non-resident students may be admitted if space permits. If students apply after the lottery is held, they are added to the bottom of the waiting list. If a space opens up during the school year, students are invited to enroll in order from the waiting list. The lottery for admission for the 2012-13 School Year was held on February 24, 2012 with several prospective parents in attendance. For the 2012-13 Academic Year we have a wait list for every grade with a cumulative waiting list of 520 students. As in past years, the lower grades having higher numbers than the older grades.

FACTS runs a full time Kindergarten and first grade. We follow these same procedures for kindergarten and first grade. All children enrolling in kindergarten must be 5 on or before September 1 of the enrollment year. All children enrolling in 1st grade must be 6 on or before September 1 of the enrolling year. Students who are not yet 6 but who demonstrate proof that they have completed a kindergarten may be enrolled in 1st grade at the discretion of the principal/ED.

FACTS admitted 55 new students for the 2011-12 school year. This included 50 new kindergarten students. 55 students were withdrawn including 50 students who graduated from 8th grade in June 2011. A total of 5 students withdrew in grades K-8 over the course of the year. FACTS had an overall enrollment of 451 students for the 2011-12 school year. Of the students who withdrew, none were expelled. Students withdrew for various reasons: The majority of our students left the school because their families moved out of the country or state. Other students chose to enroll in different programs that were a better fit for them.

Since our first year of operations, FACTS has been fully enrolled and maintains an extensive waiting list for each grade. Our student retention rate has been stable with the school meeting all enrollment goals outlined in our charter agreement. However we recognize that there are many forces out of our control that impact family stability and that many families are going to continue to move for family support reasons beyond our control.

There are currently no supporting documents selected for this section.

Transportation

Transportation for FACTS students was provided by the School District of Philadelphia's Transportation Department (SDP). They contracted with Atlantic Express Transportation Corporation and provided FACTS with nine (9) different bus routes during the 2011-2012 academic year.

Transportation services have improved over the years since the drivers assigned to our school have all been dependable and reliable and have for the most part been drivers for the school for more than two years, though we did have more driver turnover this year than in the past. We remain concerned as to the maintenance and repair of the buses assigned to FACTS.

In terms of route construction, in previous years our longest Route was two hours in duration and it's first stop was at 6:00 am, the second longest route started at 6:15 am. For students on those buses, the average commute was two hours. On days when there is a substitute driver, bad weather, or traffic, the commute can be even longer. While FACTS is aware that 2 hours is the accepted threshold for maximum bus routes time, we believe that a 2 hour commute is excessively long for elementary school students and would like to see more streamlined bus routes even if that means creating an extra route.

This year, SDP did add an additional bus, bringing us from eight (8) routes in 2010-2011 to nine (9) routes in 2011-2012, which did a lot to reduce the commute for students on the longest bus routes. In addition, with assistance from SDP Transportation Department and permission from parents, we continued offering public transportation transpasses to the eighth grade students on one of our fullest buses in order to shorten the bus ride.

This year we had no students who required transportation accommodations as identified by their IEPs. We do have one student who was referred to a specialized school that better met his needs. For this student the transportation services were also provided by the SDP Transportation Department. The costs of all those services were paid by FACTS through deductions in our monthly school district allotment.

Food Service Program

FACTS was an approved site for the federal National School Lunch Program and provided breakfast, lunch, and after school snacks to all of our students. Of our year end total student body of 452 students, 84.92% qualified for free and reduced lunch.

FACTS remains a “satellite plus” facility and we act as our own Food Service Management Company. Specifically, all applications, verification, beneficiary lists and point of service meal counts were maintained by the FACTS food service team which consisted of two full time staff — a Food Service Manager and a Food Service Assistant -- and four part time Food Services Aides. FACTS full time staff are both HACCP certified.

We purchased pre-plated meals on a daily basis from Linton's Managed Services, Inc. This vendor provided the school with menus to our specifications, production records, recipes, and nutritional information as required. FACTS also served cold breakfast to all eligible students in all K-8 homerooms as well as after school snacks to all students who participated in our after school programs. All meals and serving sizes met the nutritional guidelines of the National School Lunch Program’s traditional meal pattern.

FACTS was the recipient of one of the Commonwealth’s Food Service Equipment Grants a few years ago and was able to purchase and install a dishwasher for school use. In addition, FACTS continued to meet the implementation goals of the Competitive Food Standards and the state’s revised Nutritional Policy. FACTS’ Local Wellness Policy has been reviewed and approved by Division of Food and Nutrition staff in the Pennsylvania Department of Education and meets the requirements of the Child Nutrition and WIC Re-authorization Act.

Student Conduct

- a) Every student who attends FACTS is expected to honor the Code of Conduct which states that all human beings are expected to be treated with respect and compassion. At the beginning of each school year, the entire student body is assembled to review appropriate behavior expectations. A notice is sent to parents to review behavior expectations at home with their children. The stages of consequences are reviewed step by step so that students know what to expect if rules are broken. The final stage of consequence may lead to an expulsion, in which case the student’s file is turned over to the Board of Trustees, who will review the case and determine whether the student will be expelled (parents are invited to actively participate in this process). All students are granted due process when accused of inappropriate conduct and students with identified or suspected of having special needs will receive a manifestation determination hearing prior to issuing long term suspension or expulsion recommendations.

- b) There were a total of twenty-three out of school suspensions for the 2011-12 school year.

Assurance for the Operation of Charter School Services and Programs

School Year: 2012

The Folk Arts-Cultural Treasures CS within Philadelphia IU 26 assures that the charter school will comply with the requirements of 22 Pa. Code Chapter 711 and with the policies and procedures of Pennsylvania Department of Education (PDE). PDE will specify, in writing, policies and procedures to be followed. Requests for any deviations from these regulations, policies, and procedures must be made in writing to PDE. The charter school assures:

1. There are a full range of services, programs and alternative placements available for placement and implementation of the special education programs in the charter school.
2. The charter school has adopted a "child find" system to locate, identify and evaluate children who are thought to be a child with a disability eligible for special education residing within the charter school's jurisdiction. "Child find" data is collected, maintained, and used in decision-making. Child find process and procedures are evaluated for effectiveness. The charter school implements mechanisms to disseminate child find information to the public, organizations, agencies, and individuals on at least an annual basis.
3. The charter school has adopted policies and procedures that assure that students with disabilities are included in general education programs and extracurricular and non-academic programs and activities to the maximum extent appropriate in accordance with an Individualized Education Program.
4. The charter school will comply with the PA Department of Education annual report requirements including special education information.
5. The charter school follows the state and federal guidelines for participation of students with disabilities in state and charter school-wide assessments including the determination of participation, the need for accommodations, and the methods of assessing students for whom regular assessment is not appropriate.
6. The charter school assures the Pennsylvania Department of Education that funds received through participation in the medical assistance reimbursement program, ACCESS, will be used to enhance or expand the current level of services and programs provided to students with disabilities in this local education agency.

This assurance must be signed by the Board President and the Chief Executive Officer for the charter school to operate services and programs.

Assurance for Compliance with the Public Official & Employee Ethics Act

The original Public Official and Employee Ethics Act (the "Ethics Act") was amended and reenacted in 1989 by Act 9 of 1989 and in 1998 by Act 93 of 1998. (See Act 9 of 1989, 65 P.S. §401, *et seq.* and Act 93 of 1998, Chapter 11, 65 Pa.c.s. §1101 *et seq.*) The Act provides that public office is a public trust and that any effort to realize personal financial gain through public office is a violation of that trust. The Act was passed to strengthen the faith and confidence of the people of the Commonwealth in their government. The Act established the State Ethics Commission to administer and enforce the provisions of the Act and to provide guidance regarding the standards established by the Act.

The Folk Arts-Cultural Treasures CS assures that it will comply with the requirements of the Public Official and Employee Ethics Act (the "Ethics Act") and with the policies, regulations and procedures of the Pennsylvania State Ethics Commission. Additional information about the "Ethics Act" is available on the Ethics Commission's website at:
<http://www.ethics.state.pa.us/ethics/site/>

The assurance must be signed by the Chief Executive Officer and Board of Trustees President of the charter school.

Identify the charter school's Chief Executive Officer.
