

Part I Chapter 15 Prequalification

Prospective bidders and offerors may be pre-qualified for particular types of materials, services, and construction. Where prequalification is a requirement of submitting a bid or proposal, notification to all contractors who have been pre-qualified by the purchasing Agency is adequate public notice.

The Invitation to Qualify ("ITQ") multiple award process is also utilized to pre-qualify suppliers who are eligible for Agency Purchase Orders.

DGS has pre-qualified contractors for the following services and construction:

- Maintenance, repairs, or service for Commonwealth owned vehicles.
- IT services through the IT ITQ.
- Guaranteed Energy Savings Project ("ESCO projects")
