

Tagging & Reporting Deer Harvests

Tips on how to tag and report your deer harvest

www.pgc.state.pa.us

1. Do not attach the license to the deer. Only attach the "Tag".

You will need the license to report the correct tag. If you have more than one antierless license, make sure you report the one you used.

2. Make sure you use the 2010-11 Licenses and Tags. All licenses and tags are yellow.

It is best to remove your 2009-10 licenses and tags from your license holder prior to the hunting season.

Antlerless Ear Tag

3. Tags are already pre-punched with 2 holes. Use these holes when attaching tag.

4. Make sure you use the correct tag. Look at the icons that identify the correct animal.

5. A ball point pen is recommended for completing the tag.
