

## Student Testimonials

**"I earned college credits during my senior year of high school. Cyber School was the best place for me."**  
*Sierra Hoover, Cyber Charter School Graduate '06*

**"Cyber school is cool! It is a wonderful learning experience and a great opportunity to make friends with people, some of whom I would otherwise never have met."**  
*Katrina Croul, Cyber Charter School Graduate '06*

# IDEA

## Cyber Charter School

The place where creativity is inspired, nurtured and guided.

Each student's genius shines brightly.

## Mission Statement

*The mission of IDEA Cyber Charter School is to apply an holistic approach to learning. We recognize that life experiences are an integral part of the "whole student" on their journey to realize and achieve academic, social and emotional goals. By encouraging the personal development our students, the IDEA Cyber Charter School staff promotes self-actualization and accountability as our students become contributing, productive and responsible members of society.*

## Cyber School Advantages

**IDEA** students can ...

- select classes from a variety of high quality courses.
- earn a High School Diploma at home.
- attend school regardless of particular health needs.
- work at a job while pursuing their education.
- set a comfortable pace of learning.
- choose convenient times to attend school.
- communicate and collaborate with students, teachers and experts from around the world.
- pursue non-academic interests such as the arts and athletics.
- participate in remedial, enrichment or college level classes.
- achieve educational and personal goals even if their primary spoken language is not English.
- explore, create and interact using cutting edge technology and the Internet.
- contribute ideas with teachers and classmates online.
- use acquired knowledge and skills in today's tech-savvy world.
- rely on teachers and staff to support, assist and guide learning.

## Our IDEA

At **IDEA Cyber Charter School** choices are abundant. We offer a broad range of courses, fully customized and driven by individual student interests, preferences, and needs. Classes are interwoven with real life opportunities that stimulate creativity. The curriculum is aligned with the PA State Standards and enriched with lessons designed by outstanding teachers.

Students, parents, caregivers, certified educators, college professors and specialists work together to make sure that each student's experience raises the bar on education and makes it exciting to learn. Our purpose is to prepare our students to reach their potential and beyond ... today and throughout their lives. We encourage, inspire, and support our students to succeed.

Each **IDEA** student has a sense of ownership in their education and school because they have an active role and voice in the decisions that directly affect them. **IDEA Cyber Charter School** empowers each student to be all they are capable of being.

The vision and mission of the **IDEA Cyber Charter School** are accomplished by a dynamic operating, democratic model which allows students and staff to create a sense of community. The **IDEA** spirit empowers all students to grow and participate in our diverse multicultural society and world.
