

If you are **50 years and older...**

the **Shingles Vaccine**

should be on your TO-DO list!

FACTS

- It is caused by the same virus that causes chickenpox. The virus stays in your body and can resurface any time as shingles – a painful, blistering rash. Even if you feel healthy, your risk for shingles increases as you get older.
- One out of three people will develop shingles. Risk factors include age (50+ years), weakened immune system (due to diseases, cancer treatments, medications), and history of chickenpox.
- The shingles vaccine (Zostavax®) can reduce the risk of developing shingles and its associated pain.

WHEN

Monday, May 13, 2013
9 a.m. – 12:30 p.m.

WHERE

Millersville Senior Center
222 N. George Street
Millersville, PA 17551

You are eligible for shingles vaccine at **LOW** or **NO COST** if you are **50 years and older** AND

- **Underinsured** (your insurance does not cover the vaccine) or
- **Uninsured** (no insurance)
